

A Fundamental Understanding -- How to Change the Courts

By Anna Von Reitz

Every day of my life I am assaulted with a flood of complaints and horror stories about the "justice" system in America, because quite plainly, it is not a justice system. It is an injustice system.

There are reasons for this and once you know the reasons, it is easy to grasp the reasons why.

This system was set up in the wake of the Civil War by the triumphant Union Army and their British Allies as a means to collect war reparations from the Southerners.

What you are dealing with are the infamous "Carpetbagger Courts", so-named because Hired Jurists from the North and overseas arrived carrying their belongings in "carpet bags" --- bringing with them their foreign law, known as the King's Equity Law, in which the King owned all Equity.

The way this "law" works is that all the victims of it are pre-judged and defined as criminals, so that when you walk into one of these courts there are no actual court proceedings or evidence. You are already condemned simply on the presumption that you are a rebel and owe the King money.

Read the infamous Fourteenth Amendment of the Scottish Interloper's Articles of Incorporation masquerading as "The Constitution of the United States of America" published in 1868 with new eyes.

All Municipal "citizens of the United States" --- the Federal Civil Service workers who sided with the South, are criminals and debtors by definition, as well as all the hapless black plantation workers who had this citizenship status "conferred" on them the year prior.

This allowed the King's Hired Jurists to come in and set up private debt collection agencies in the form of courts; these Hired Jurists are instructed to provide "an appearance" of justice ---- that is, to act under color of law, and to appear to go through a court procedure, when in fact, that isn't what is happening at all.

What their actual job is, is to seize upon assets belonging to you for the King's benefit, and they get a fat cut of the proceeds for doing so. Examine the CRIS system, which is a pension system based on rigged betting on court cases.

With a 96% conviction rate, betting on the results of American court cases is a pastime akin to shooting fish in a barrel, which is why it is so popular with sleazy investors. It's a "sure thing" because everyone is guilty by definition.

This proved so highly lucrative for the King and his Hired Jurists that nearly all the courts employ these same means and modes of operation. They are not in the business of providing justice --- they come right out and tell you that their courts don't consider the Law or the facts.

And now, doesn't it all begin to make a lot more sense that Bar Attorneys are Shipping Clerks in the British Merchant Marine Service?

It's their job to ship your assets (minus a healthy cut for their services) back to the Pope and the King.

So, about now, you are outraged, stunned, realizing that these filthy pikers have been sitting in your courthouses, pulling this racketeering scam for decades, and have gotten away with it and have only become more brazen about their racketeering over time.

And you are beginning to realize that these are not your courts at all.

They are literally foreign courts, and they are enforcing foreign law on you, in direct violation of our Public Law, Amendment XI of all three Constitutions: Americans are not subject to any foreign law ---- so how'd you wind up in their docket?

By being misidentified.

The British Territorial United States Government has pretended (and falsified records to the effect) that you are a Municipal citizen of the United States, while in return, the Municipal United States Government has presumed that you are a British Territorial Citizen, like someone born in Puerto Rico.

Neither one of these foreign political statuses can rationally be applied to you, an American --- but until and unless you object and take action to repudiate these cozy "legal presumptions" --- they stand.

So far as the registrations of your name show, you are a Municipal citizen of the United States, subject to Territorial (British Commonwealth) Law ---- the King's Equity Law. You are guilty by definition.

And if you object, they will be happy to consider you a Territorial U.S. Citizen subject to the Spanish Law of the Inquisition in their Municipal COURT, which they run in tandem with the Pope's Hired Jurists.

So you are damned if you do, and damned if you don't, and neither "side" of this "double-ended impersonation scheme" is willing to give it up. There's too much easy money involved, and they are afraid that they will be gibbeted as inland pirates if they ever admit to what they've done here.

Thus, they put on their best poker face and try to bluff their way out of a situation that is too blatant and now too well-proven.

The question remains--- what do you do to change this situation?

These are foreign courts on our shores, practicing foreign "law" which is essentially extortion in the name of their King (or Pope, if it is a Municipal Court). Clearly, you have no direct control over foreign courts --- and they should have no control over you.

This is how the Colorado Nine got into trouble, mistaking these foreign courts for American Courts, and unwittingly transgressing against them.

It would be like mistaking a guy who looks like your Cousin Waldo, talks and walks like your Cousin Waldo, for your Cousin Waldo ----and so you walk up to him, slap him on the arm, and say, "Where's that ten bucks you owe me?" And in return, the guy looks at you like you are nuts, charges you with assault and battery, and defamation of character, and questions your sanity.

These courts have impersonated our courts to promote their activities under color of law. Of course, they look like "Cousin Waldo" --- they appear to be American Courts, but they aren't --- a fact that I tried to get through to Bruce Doucette and the others involved in the Colorado Nine Debacle.

There's no point in addressing them as if they are American Courts when they aren't, even if they are staffed by Americans hired to act as Jurists, even if they are protected by armed private security forces composed of other Americans hired to act as Law Enforcement Officers. It's like a stage play with a cast of characters.

It turns out that you cannot change them, but you can change you.

You can reclaim your birthright political status as an American, you can join your State Assembly, you can help organize your Assembly Jury Pool, elect your Justices and other Court Officers, and operate your own courts again.

When you do, these other foreign courts are obligated to step down and no longer address you and yours. See Ex Parte Milligan, 71 US 2.

After all, you are just as foreign to them as they are foreign to you. And you have a well-established right and provenance to self-govern. All you have to do, is to get off your rump and do it.

You can't change their courts, but you can restore your own, and force them to stop addressing you and other Americans who have better things to do than be harassed by criminals.
