

Gen. Joseph Dunford, Jr. attempted to plunge the world into WWII through his treasonous and corrupt attempt to steal the world's monetary gold reserves rather than respecting the authority of the Board of Governors of the World Bank and International Monetary Fund, so that there would be a peaceful means for a Global Currency Reset at the end of the 50 year period of sequestration, as was designed by José Rizal when he issued his Declaration and Proclamation of the Gift of Love on January 3, 1949.
