

International Public Notice: I Am

By Anna Von Reitz

When I was about seven (7) years old, "I" was declared legally and civilly dead.

This happened without my knowledge and without the knowledge of my parents.

The perpetrators of this fraud and injustice saw no reason to tell us, since the version of "me" being declared legally and civilly dead was a British Territorial Imposter operating under a purloined British Crown copyright.

And she, this other version of "Anna Maria Riezinger" was a British Territorial "Human" --that is, a Person, and not an American, and not one of the people of this country.

This imposter was in fact a franchisee of the British Crown, purportedly a Warrant Officer in the British Merchant Marine Service known as a "Taxpayer", responsible for collecting taxes and tariffs owed to the British Monarch. This British Person was serving a "Tour of Duty" and was in indentured servitude at the time of her untimely demise as a British Seaman.

She was, as far as the British Government was concerned, "lost at sea, presumed dead" and her Estate, subject to Admiralty Law, was rolled into a federal municipal trust of a particular kind known as a Cestui Que Vie Trust.

A federal Cestui Que Vie Trust was established under the British Cestui Que Vie Act of 1666, originally enacted after the Great Fire of London. It establishes a Public Interest in a private estate when the owner is mysteriously missing for more than seven (7) years and has, presumably, died intestate.

This created yet another imposter operating as "me" on the world stage --- ANNA MARIA RIEZINGER, a federal municipal trust considered a "citizen of the United

States" and therefore, a public slave responsible for paying all the debts of the United States with my labor and substance.

And there I was, just a little girl, growing up in Black River Falls, Wisconsin. And there my family was, all unaware that any of this British chicanery was taking place behind our backs.

This is to announce to the world that in a timely fashion, I have been "found alive" and I am claiming my assets and the assets of my country and the assets of all living people who have been similarly defrauded, to be returned to the rightful owners.

This fraud began when my Mother was presented with an undisclosed contract that she signed without the benefit of knowing its nature or its consequences for me. The same contract was signed by a Medical Doctor, Dr. Robert Krohn; even though he wasn't a direct witness of my physical birth, he was the administrator approving the creation of a brand new British Territorial U.S. Citizen --- the self-same lost British Territorial Seaman, that poor Merchant Mariner using my Given Name without my knowledge or permission under a purloined British Crown copyright.

Much later in her life, my Mother realized her mistake and issued a lengthy impassioned and duly recorded withdrawal of her signature and claim of fraud and non-disclosure that stands on the record of the Jackson County, Wisconsin, Land Recording Office.

Still, one thing has stood in the way: the signature of Dr. Robert Krohn. As a licensed Medical Doctor, he was a U.S. Citizen himself, and within the hierarchy of the British Admiralty, a Superior Officer above the grade of all the Bar Attorneys.

So they couldn't possibly overturn the action and witness of a Superior Officer, even if they wanted to.

As a Thing (like a British Person) is bound, so it is unbound.

Please see attached letter and proof from another Medical Doctor that I am alive and known to her and finally "found alive" in Alaska.

Thus I am unbound and claim every jot of everything owed to me and my claims include the claims of my countrymen who were similarly defrauded (their private property to be returned to them according to my published and Irrevocable Will concerning this matter) and my country, The United States, through its instrumentality, the unincorporated Federation of States known as The United States of America.
