

International Public Notice: Illegal Occupation

By Anna Von Reitz

This country has been illegally occupied by mercenary forces and has been under martial law since 1863.

Okay, everyone got that?

The former British Commonwealth has been under similar occupation since the 1910's.

Clock that.

The seventeen countries of Western Europe and Japan, which were all occupied by Allied Forces during World War II, are still occupied and still under martial law.

Okay?

Everyone up to speed so far?

Every country that has been attacked and over-run by "United States Forces" of any kind in the years from 1860 to now, has been and still is illegally occupied by those mercenary forces. Iraq and Libya are just two more recent examples.

This is how and why Americans have had to bear the brunt of supporting and paying for the defense of all these other countries. This is why we have had to pay the cost of over 950 military bases scattered all over the globe.

This is why we have been oppressed and "disciplined" and kept from enjoying the freedoms that we are guaranteed under the service contracts of these yahoos, who have picked our pockets for their wages, and purloined our assets as collateral backing their wild spending and to finance their opportunistic wars for profit.

These are the facts, Ma'am.

And even though these are private mercenary forces engaged in illegal activities, they have pretended to be our lawful and legitimate national military.

They have used and abused our Title IV wartime flag continuously from 1860 to [today](#), even though our country has not once declared war in that entire span of history.

Any and all "declarations of war" made between 1860 and [today](#), have been made by their own corporation officers and their "Territorial" Congress, and have the same standing at law as Coca-Cola declaring "war" on Pepsi.

Every single bloody "war" we've fought has been an illegal mercenary war, known as a "conflict".

We've all been stumbling around in the dark calling these conflicts by the name "war", and they have certainly looked, smelled, and felt like war ---- but no, these were not wars. These were all mercenary conflicts fought by businesses and corporations --- and banks.

There was no American Civil War. No World War I. No World War II. No Korean War. No Vietnam War. All these and innumerable smaller less publicized "wars" were not wars. They were mercenary conflicts.

And we, Americans, were certainly not the heroes and not the purveyors of peace, justice, and the American Way. We weren't even there to peddle British Territorial "democracy". We were there to reap profits for foreign business interests that were lying to our sons and daughters and using them as cheap mercenaries.

We were there to protect foreign business interests. French rubber plantations in Vietnam. British opium fields in Afghanistan. Higher tobacco profits for Philip Morris. We were there to sell McDonald's hamburgers, Bayer Aspirin, Coca-Cola, and Hollywood. We were there to plunder and pillage and illegally confiscate natural resources. We were there to find local patsies who would work for us in puppet governments.

The U.S. Army like the US ARMY are foreign corporations in the business of war. They are for-hire operations. Foreign governments hire them to do the dirty work. And so they do. They literally get paid by foreign governments and then,

they charge their expenses and the cost of the occupation of all these countries, including our own, off to you.

That's how this works and how it has worked for over a hundred and fifty years. This is why we have been kept in a constant "state of war" for decades on end. This is how Americans have earned a reputation as evil-doers and violent killers, aggressors, criminals, and thieves.

And all this while, we have been conned, duped, misinformed, and misdirected, by all these British Bunko Artists in nice suits. Our sons and daughters have gone to their deaths and buried each other, believing that it was all for some noble cause, or because they were "defending" their country from some threat.

But the entire time, they were being lied to by men and women they trusted and respected and misidentified as their own American government.

Abraham Lincoln, a Bar Attorney prohibited from holding any public office in our actual government, substituted the American Congress with a British Territorial Congress. And who were they and who were they representing?

They were Federal Employees, foreign Subcontractors hired to provide "essential government services" under the provisions of their service contract --- The Constitution of the United States of America. They were also Tories, British Subjects, allowed to be in this country under the provisions of The Residence Act.

And that is, ultimately, how SERCO, a British Crown Corporation, became the Paymaster for "our" Armed Forces.

So now that we've belatedly discovered all this, the people who have been misled to think that it was the Americans promoting all this war and havoc, have been invited by the Perpetrators, to enter our country illegally --- by the millions --- and join in doing to our country what was done to their countries, and to kill (in their minds) the ones causing all the war-mongering and misery.

They are welcome to have their way with the phony "Territorial" Congress and with the District of Columbia, Fleet Street and Hong Kong, Geneva and Bern and Brussels, too, Rome and Naples, Istanbul, and Tel Aviv, because that's where the problem lies. They can have Nancy Pelosi and Governor Newsom, too.

Wherever you find a traitor to America, you find a traitor to mankind. Wherever you find those who have misled, lied to, and misdirected Americans and American resources, you find those who have done the same to everyone else --- and they have done it for one reason: profit.

The joke is, that in the end, they've been lied to and misled, too. And they've sold their souls in the bargain.

Reading this, they will laugh in their snarky, arrogant way and sniff at the old-fashioned idea of a "soul" and the suggestion that they have one to sell. Their wake up call is coming.

We woke up at the Eleventh Hour, but they are still asleep, still churning away, still operating like zombies, taking orders, killing for Christ and doing all sorts of other insane, illogical things. At this point, by rights, they should have no faith in their own leadership.

Trump and Biden both went along with the "Pandemic".

This, our unincorporated Federation of States, is the lawful government of this country. Each member State is owed the provisions and guarantees and limitations established by The Constitution of the United States of America. Each declared and provenanced American is owed the same.

It's time for the illegal occupations and all the False Presumptions related to them, to end.

Notice to Agents is Notice to Principals; Notice to Principals is Notice to Agents.
