

International Public Notice: Impersonation of an Officer

By Anna Von Reitz

Some members of the public and members of the present mercenary forces posing as our military, are having trouble choking down the truth.

We have even been contacted by various governments around the world trying to maintain the idea that conflicts fought by corporations are subject to the The Law of War.

They are not.

Mercenary Conflicts are lawless. That's why they are illegal.

If you stop a moment and observe, anything that is legal has to rest upon a Law. There is no Maxim of Law condoning savage thuggery in the name of unjust enrichment, so "warfare" of this kind is --- and has always been --- illegal as well as unlawful.

When mercenaries wear the uniform of an honorable military service in the employ of a lawful government, it just makes the crime worse, because then, these commercial and/or municipal mercenaries are impersonating military officers on top of it.

Imagine that it is 1928. An employee of a French manufacturing firm working as an armed mercenary, knocks a German officer in the Wehrmacht unconscious, takes his identification papers, and puts on his uniform.

What have you got? A French mercenary wearing a German Officer's uniform, in possession of a German Military ID.

Is the French mercenary transformed into a legitimate German soldier by putting on the uniform?

No.

Is he now magically a German because he possesses the other man's ID?

No.

He is a French mercenary pretending to be a German soldier.

The Frenchman is committing a crime known as impersonating an officer.

He is deliberately hiding his nationality and his civilian status.

He is deliberately securing an appearance of authority (at least in the German military) that he doesn't in fact possess.

We assume that this French mercenary is unlawfully converting the German Officer's identity and authority for his own use.

Why else would he knock a German officer over the head and put on his uniform, except to impersonate him and abuse his rank, his credit, and his identity?

Exactly the same kind of impersonation and unlawful conversion happened here in this country, only it happened to our entire military.

Nobody but Abraham Lincoln and a handful of Generals were the wiser.

Our Armed Forces were unlawfully converted in April of 1861.

They wore the same uniforms, but suddenly, they were redefined and redirected and working as British Crown mercenaries, and so, they were also, by definition, impersonating American Military Officers.

Just like our French civilian in a German's military uniform, these men were unlawfully converted to the status of British Territorial Mercenaries, literally while they were standing there, wearing their American Military uniforms.

It was the perfect cover for this deception. No need to change uniforms, emblems, or commanders.

Lincoln gave the order so everyone thought they were doing the right thing, but literally, in an instant, these new British Territorial Mercenaries began unwittingly impersonating the American Army Officers they had been.

They assumed the character and appearance of the American Military without a ripple, and perfectly impersonated our Officers, too, but they were no longer operating as our military and no longer working for our government.

Our military was secretly and unlawfully converted into a civilian mercenary force in the employment of a foreign commercial corporation doing business as the United States of America, Inc.,

That was 163 years ago. The Americans were never told. Our soldiers and sailors were never told.

It had to be kept secret -- for obvious reasons.

The American people would be unlikely to join, pay for, or support the activities of a foreign commercial corporation engaged in illegal war-for-profit.

Speaking of profit, this all goes to the shareholders of the United States of America, Incorporated ---- the same British-owned entity that went bankrupt in the 1750's and caused The Seven Years War, aka, French and Indian War.

This is the same incorporated entity that was created by and owned by British Investors who split off from the original unincorporated American version, The United States of America (Trading Company), founded in Kentucky before the Revolutionary War.

During The War of Independence, this humble unincorporated American Trading Company from Kentucky was restructured as a Holding Company and Trust doing business as a collective instrumentality of the several sovereign states ---- The United States of America, (Unincorporated), is the doing-business-as-name of our Federation of States.

These British Bunko Artists have been deliberately confusing their incorporated British Crown version, the United States of America, Incorporated, with our unincorporated American version, The United States of America, ever since.

They and their Undeclared Foreign Agents --- the Bar Attorneys especially --- Abraham Lincoln among them, engineered this substitution fraud and the unlawful conversion of our honorable American Military, entrapping them under conditions of non-disclosure, deceit, and color of law, to unknowingly serve as British Crown Mercenaries, instead.

The Pikers are still trying to get away with this.

These crimes of fraud, unlawful conversion, and impersonation of our officers have resulted in Gross Breach of Trust and violation of their Service Contract ---- all acts willfully committed by the Principals, shareholders, officials, officers, board members, and personnel employed by the United States of America, Incorporated.

This Gross Breach of Trust and the Violations of their Service Contract have resulted in an endless proliferation of wars for profit -- mercenary conflicts deliberately mislabeled as "wars", genocides, and most recently, the preposterous and monstrous pandemic.

This one criminally-inclined corporation under the influence of evil and deluded men, has done all this damage to the world, and it has been allowed to get away with it for almost two hundred years.

This "United States of America, Incorporated" was never an American corporation to begin with and it still isn't.

This British Crown Corporation calling itself "the United States of America, Inc." does not profit us, it preys upon us; and, and it defrauds us and racketeers against us and misrepresents us every chance it gets.

This thing calling itself "the United States of America, Incorporated" is not American. It's a British Territorial entity. It's staffed by "U.S. Citizens" not Americans.

This foreign corporation is supposed to be here acting as a Federal Subcontractor and providing "essential government services" under The Constitution of the United States of America.

Self-evidently, this corporation is not doing its job, and has undertaken many direct and indirect measures to evade the duty owed to us, all while secretly and unlawfully converting our military to their mercenary service.

These "service members" who have been used and abused as cheap mercenaries are in need of amnesty. They have committed many crimes and usurped many authorities without knowing their true status and role, and without being told any of this.

Now that it has been brought forcefully to their attention, and to the Joint Chiefs of Staff, they no longer have any plausible deniability.

They have to convert their status back to serving as a lawful military service of our American civilian government, and accept amnesty, or be recognized worldwide as criminals willfully engaged in war for profit. Crime, in other words.

As for the offending British Territorial Corporation dba "the United States of America, Incorporated", it needs to be lawfully converted and all the unjust enrichment under its control needs to be returned to the living people and lawful owners that the assets belong to.

We can hear the howling in Fleetstreet and Westminster from several thousands miles away, but we are not inclined to care; they acted as criminals and betrayed our country and our trusting countrymen for their own unjust enrichment.

They set things up to use us as the Fall Guys and scapegoats, deliberately making it look like "the Americans" were the aggressors and encouraging people to blame us, even as we were being victimized ourselves.

The BBC never misses a chance to blame everything on "the Americans" when it's actually British Territorial U.S. Citizens acting as the aggressors---- and being misdirected by Whitehall and Westminster to do so.

As for us, we are done with evil in all its forms and we passed over that Rubicon a long time ago.

The Perpetrators have always known that the lies, self-interest, betrayals, word games, impersonation, and scapegoating would have to stop someday.

Today is that day.

It's time for the Americans to come home and for the "Royals" and Westminster and all their corporations to pay the Piper.
