

# Whoa! Information for the United Nations and NATO

By Anna Von Reitz

Why, exactly, is there a war in Ukraine?

It's because certain immature jerks in the DOD and Washington, DC, thought it would be cute to export all their nasty illegal bioweapon activities offshore, and put them right next door to Russia.

And certain corrupt Generals in NATO and corrupt Ukrainian leaders on the take, didn't see anything wrong with that.

That's why there is war in Ukraine. It's a combination of witless criminal activity by the NATO and DOD confab, combined with the corruption of a Ukrainian puppet government installed via bloodbath by the same NATO and DOD criminals.

Not surprisingly, Vladimir Putin didn't like the idea of having over a dozen illegal bioweapon production facilities right next door.

And now, we hear that emails 'scrubbed ' from Hunter Biden's infamous laptop, included correspondence with Ukrainian officials detailing the investment of millions upon millions of dollars into these illegal bioweapon facilities as a Black Op of the criminals.

What, exactly, don't people understand about the word, "illegal"? Bioweapons are illegal. They are outlawed. They are not supposed to be produced. Like Mustard Gas, they are verboten.

So why are European governments sending weapons to Ukraine?

Ukraine was in the wrong. Ukraine was doing something criminal that threatened life on this planet, even though they were doing it at the behest of and with funding provided by NATO and DOD.

Logically, NATO and DOD are the greater problem that isn't being addressed, but Ukraine let itself be used by these idiots. Together, they planted the seeds of war, and there you have it.

It's not Vladimir Putin's fault, but he is cleaning it up.

So now you've got Erdogan from Turkey, with his million man Turkish Army, playing toggle switch in the arena, trying to broker a peace. Well, anyone's effort to broker a peace is much appreciated, but we note that the real problem is NATO and DOD,

It was never the Ukrainians nor the Russians at all. Both those nations were at peace absent NATO and DOD funding and meddling and the self-interested Black Ops efforts of the Obama-Biden team.

So, let's deal with reality for a change.

Let's sit on NATO and DOD. They are the problem. Let's solve it.

We, the Americans, and the American Government, have a peace treaty with the Russians that the Russians have always honored. It is called the American and Russian Alliance of 1858. It establishes peace between our countries and provides for mutual protection in time of war.

Let me spell that out for Joe Biden and Donald Trump and NATO and DOD ---- we are not going to war with Russia, we aren't allowing the use of equipment we paid for, ammunition we paid for, or anything else that we paid for, to be used to make any kind of war against Russia. Not a dime's worth.

We aren't allowing our men and women to be used as foreign mercenaries, either. You know what our contract says. They are defense forces only. Not to be used for any purpose other than defending the American homeland.

From now on, the DC Vermin, NATO, and DOD need to employ "truth in advertising" in their recruitment activities. They need to say, "Hey, we are recruiting foreign mercenaries to go fight in wars for profit!" And they need to pay mercenary wages out of their own pockets, too. Not ours.

No more misrepresenting us and no more misdirecting our armed forces. No more conscripting and press-ganging Americans. No more "draft" and no more "Selective Service". Our country isn't at war and we are not going to war at their behest anymore. They aren't our bosses, we are their bosses.

Me, Employer. You, Employee. It's that simple.

Until Vladimir Putin breaks our long-standing Treaty with Russia, we keep good faith with him and with them. And Joe Biden who was instrumental in causing this problem in the Ukraine can just go blow.

While I am on my rant this morning, let me share this, too -- I get all these groups soliciting help for "our" troops in the field, men and women who are wearing the

uniform and waving our flag and going without such basic things as boot socks and lip balm.

Whiskey Tango Foxtrot?

Remind me again? How many trillions did Donald Rumsfeld lose on September 10, 2001?

Those responsible had better put on their best cast-iron codpieces. And run. Fast. It's bad enough that these Americans have been lied to, abused, experimented upon, impersonated, endangered, and used as cheap mercenaries by a bunch of Euro Trash, but when Mom has to send socks from home, it's time to pull the plug and bring all those Americans home and fill them in on what has actually gone on here.

A first year Merc makes a minimum of \$250,000, plus insurance, plus medical benefits, plus, plus, plus. The wages for a PFC or Airman First Class haven't been raised since 1973. Now you know why they have to apply for Food Stamps.

If you are even half as mad as I am about this, feel free to kick the ever-loving out of every Congressional switchboard from here to Maine. They aren't our Congressmen, that's true. But it's our sons and daughters being presumed upon and ensnared with undisclosed cheapskate contracts dreamed up by some useless POS attorney with nothing better to do.

Let your message be short and sweet -- no war with Russia, we won't pay for it, and while you are at it, raise wages for the military to keep up with inflation for every year since 1973, retroactive for every veteran and every active duty service member. Restitution not subject to taxation of any kind,
