

## International Public Notice: International Crazyness

By Anna Von Reitz

We do not like to comment on rumors, but the long term "reporting" on people being convicted of treason and sedition and similar crimes and even being hanged by military tribunals at GITMO and other offshore locations deserves comment.

The most recent report says that United States Ambassador Linda Thomas-Greenfield has been detained, tried, and sentenced to hang for suggesting that the Biden Administration ask for UN peacekeeping forces to be on hand at polling places in November to provide secure access to voters.

Although her purported answers for her motives indicate political concerns and a strong bias against MAGA and Trump, her suggestion on the face of it isn't a crime. It's no more or less than various U.S. Administrations have called for and implemented in other countries under similar circumstances.

If it's fair and good for the U.S. to butt it's nose in and promote UN polling place security in, say, Argentina, to make sure that the people have the opportunity to vote in safety --- why is it a crime to suggest the same thing here under similar circumstances of polarized politics and accusations of election fraud?

Seems to us, that at least in this case, Thomas-Greenfield was not given a fair trial, if a trial occurred at all.

The supposition that these requested UN polling place peacekeepers would instead be used to interfere in the election or gain a beachhead for other

purposes wasn't actually proven or even directly addressed in the reports we received --- and that would be the basis for charges of treason.

Also, in Thomas-Greenfield's reported answers, she reportedly said, "It's our turn." and that was not appropriately interpreted; from 1937 to 2015, the two corporations acting as Federal Subcontractors --- let's just call them "US, Inc." and "USA, Inc." --- have been taking turns holding the vacant American Presidential Office belonging to the American Federal Republic.

That was part of the quid pro quo established under The Declaration of Interdependence of the Governments in The United States.

The Democrats would get to play "President" for a number of terms and the Republicans would get to play "President" next, neither group, of course, having any actual right, reason, or authority to do any of this usurping.

At any time, either one or both the Municipal Corporations in the District of Columbia could have told the truth to the American People, and the whole situation could have been resolved. Any of the "Presidents" or the leaders of the political parties could have done the same.

Instead, all these officers and corporation officials stayed unaccountably mum, and continued on with the charade of "entering upon" vacant Public Offices owed to the American People, while acting as Agents of foreign governments.

We don't know all the details, but that sounds more like treason and shellacking and fraud and insurrection than anything proven against Ambassador Thomas-Greenfield.

Remember, political party elections are foreign. They are part and parcel of the great "Bait and Switch", substituting their foreign corporation "Presidents" for the American President(s) we are owed, and it does not matter to us which Municipal Corporation is holding our Office and wielding our power under False Pretenses.

The other aspect of this particular conviction that doesn't smell right is that Ambassador Thomas-Greenfield has been (reportedly) held to the ultimate account for advocating the use of foreign peacekeeping forces to oversee elections that don't have any proven, actual result.

The political party-funded "Presidential Elections" are just straw polls, also known as popularity polls. There is no guarantee that they will influence the actual Electors who are members of the respective Electoral Colleges.

So it is all basically fraudulent occupation of vacant American Public Offices by people adopting foreign citizenships and working for foreign corporations, and on top of that, the "election" isn't even an actual election.

It seems that the "pot is calling the kettle black" and that the officers of both District of Columbia municipal corporations have been equally in cahoots and acting in treason against the people of this country and against the interests of our actual government.

It looks to us like both of these District of Columbia municipal corporations have colluded (1937-2015) in willfully commandeering our Public Offices, especially The President of The United States and our office of The President of The United States of America as part of an illegal occupation of our country, all resulting from a Mercenary Conflict 164 years ago, that was palmed off as a "War".

From our perspective, all of this is both crime and treason against the lawful government and the people of this country.

That's why we keep saying that these people all need amnesty. The vast bulk of them are totally unaware that they are doing anything whacky or wrong, though in fact they are guilty of both.

It's whacky to convict a woman of "treason" over suggesting something you have suggested yourself with respect to other countries-- unless you wish to establish precedent that you have committed treason yourself.

It's both whacky and wrong to convict anyone of any crime over a straw poll --- capital punishment for such an offense would surely be deemed cruel and inhumane punishment.

Whether people interfere with it or not, the so-called Presidential election sponsored by the political parties is still just a straw poll having no provable known effect on the outcome of the actual decisions of the members of the Electoral College.

So, could we please all return to some degree of self-circumspection and sanity?

The fact that the President of either Municipal Corporation is elected by their corporation's Electoral College and not by popular vote, is a well-known, well-established, well-documented fact that does not need to be further demonstrated or documented.

We can also stop talking about "election fraud" related to these straw polls, because they are not actual elections.

And we can stop hanging people over such nonsense, if in fact, these Military Tribunals are in fact ongoing at GITMO, and it's not just another grotesque and sophomoric psychological warfare operation being foisted off on the public.

Please note that the only part of the U.S. military forces that may still have standing as military and not mercenary forces, would be the U.S. Navy on the High Seas and Navigable Inland Waterways, and at Port in the US Possessions and Territories --- hence the need to conduct these Tribunals offshore, where their truly foreign character is restored.

Also note that the U.S. Navy is a foreign British Territorial military branch, not American, and that they have tried to "cover" the other branches of the services with a coating of propriety by deputizing all the other officers in the other branches as Naval Officers.

This is a well-thought out but Gross Breach of Trust and Contract.

It's also a fraud as all those other Officers did not agree to join the U.S. Navy and have been suborned after-the-fact.

So what we have here are officers of two foreign municipal corporations arising in the District of Columbia, both accusing each other of treason and sedition and other crimes, and both being guilty of these crimes and worse against each other and against the American People.

It's past time for all this craziness and foreign mercenary intrigue to stop and for the world to recognize what these bilkers have done --- and time for them to recognize it, too.

Suggesting that the U.S. take a dose of its own medicine-- a remedy that it has imposed on numerous other nations ever since the days of Jimmy Carter, is hardly tantamount to treason or insurrection, either one.

If the U.S. Navy has a stronger case against Ambassador Thomas-Greenfield, it has certainly not been presented in the reporting -- real or imagined -- related to the case.
