

International Public Notice: IRS Masterfiles

By Anna Von Reitz

Virtually all Catholics, all Protestants, and a good share of Jews on Earth (not just this country) have IRS Masterfiles, or the equivalent thereof in their particular country. This is because they are all being taxed by the Holy Roman Empire and certain privately owned and operated Jewish banks that act as the debt collectors for the HRE.

This system took root during the Middle Ages when in 1135 C.E. in France, the Roman Catholic Church first levied a once-a-year tax on income called "Peter's Pence" on the Faithful and all "Others" residing within the territory controlled by the Holy Roman Empire. It was collected on [April 15th](#) by black-robed members of the Dominican Order, otherwise known as The Inquisition, and enforced under The Law of the Inquisition. The purpose of this tax was to pay for the cost of the Crusades.

Nothing has changed. The tax is still collected under the Spanish Law of the Inquisition by Jewish Banks acting as private Debt Collectors for the Pope, collecting from the Estates of Puerto Rican U.S. Citizens --- who, mysteriously, just happen to have the same names and addresses as millions of Americans living in the mainland States of the Union.

It's a swindle, like "Killing for Christ" is a swindle.

Each "US Person", that is, US CORPORATION --- a federal municipal estate trust domiciled in Puerto Rico -- has an IRS Masterfile.

Some years ago we filed Freedom of Information Act requests to obtain the IRS Masterfiles of ANNA MARIA RIEZINGER, JAMES CLINTON BELCHER, and

several other names belonging to Americans. We also had to request the IRC Masterfile Code Book to be able to dope out what information these encoded IRS Masterfiles contained.

After a couple months of playing with the Flash Gordon Masterfile Decoder Book, we learned that ANNA MARIA RIEZINGER (INC.) was working as a middle manager of a rum distillery on the Island of Barbados, and JAMES CLINTON BELCHER (INC.) was running guns in South America. He apparently took up the slack for Ollie North.

We suspect that JAMES CLINTON BELCHER (INC.) has since "died" because the only quasi-public record now available about "him" is a 1963 US Air Force induction photograph.

After decoding several of these IRS Masterfiles we noticed several alarming things --- other than the fact that these IRS Masterfiles all concerned the names of living Americans and all appeared to contain blatantly False Narratives about them.

1. All the activities that these "US PERSONS" were engaged in were offshore -- taking place in other countries or in US Territories or Possessions.
2. All the activities described in these IRS Masterfiles were related to the sale, manufacture, or international transportation of alcohol, tobacco, or firearms.
3. All of these purported activities are subject to Federal regulation and taxation.
4. None of the Americans whose names were attached to these "US PERSONS" were actually engaged in any of these activities and never traveled offshore to these locations.
5. We concluded that these Puerto Rican shell corporations named after us were being used for purposes of money laundering and offshore tax evasion and were owned as franchises by Federal Corporations housed in the District of Columbia.
6. We immediately objected to the U.S. House Oversight Subcommittee responsible for overseeing the operations of the Internal Revenue Service, but at that time, we didn't know that the Internal Revenue Service is a completely different operation apart from the IRS, and that two separate Jewish Banks were in fact involved in directly taxing two different "American" corporation franchises

named after us. The Federal Reserve was taxing "Anna Maria Riezinger, Inc." for the privilege of extending credit to the U.S. Congress, and the IMF was taxing "ANNA MARIA RIEZINGER, INC." for the privilege of extending credit to the UNITED STATES CONGRESS.

7. The U.S. Congress House Oversight Subcommittee was the appropriate place to bring a complaint about Anna Maria Riezinger, Inc., and False Claims against "her" by the Internal Revenue Service, but not the right baileywick to complain about ANNA MARIA RIEZINGER, INC., and False Claims brought against "HER" by the IRS. That required the attention of the UNITED STATES HOUSE OF REPRESENTATIVES OVERSIGHT SUBCOMMITTEE, instead.

8. The world can now begin to better appreciate the complexity of the criminal web spun around the identity of each and every blissfully clueless American, and the difficulty we have faced when attempting to cut through these layers of impersonation and misrepresentation.

9. Everyone can better understand, too, the False Information that Federal Government Employees have been relying upon. If Janet Reno had examined the IRS Masterfile concerning ANNA MARIA RIEZINGER (INC.) in 1995, she would have had grounds to treat "HER" as a "dangerous foreign operative engaged in federally regulated activity" ----and also failing to report taxable offshore income derived from this activity.

10. The information contained in these IRS Masterfiles is all false and these False Narratives are constructed specifically as a groundwork to bring False Claims in Commerce against Americans on the equally False Presumption that these Americans are engaged in all these regulated offshore activities --- when in fact they are just minding their business in places like Big Lake, Alaska. This is deliberate, malicious, constructive fraud and it has been enforced against millions of Americans by these foreign corporations which are supposed to be providing us with "essential government services" and doing so in "good faith".

11. These False Narratives also provide the basis for the IRS to get its sister agency, the Bureau of Alcohol, Tobacco and Firearms (BATF) involved in IRS prosecutions of their clueless, impersonated American victims.

12. This is important and deliberate on the part of the IRS, because the IRS was never granted any "armed enforcement" powers, so the IRS has to get BATF,

which does have armed enforcement powers, involved, in order to carry out the violent armed attacks that the IRS is famous for.

13. The IRS brings its "Masterfile" to the attention of the BATF, the BATF "deputizes" the IRS Agents, thereby loaning them enforcement powers never actually granted to them, and then they all bring out the flamethrowers and tanks and fully automatic machine guns and drones and all the rest of their military grade equipment and --- acting under their own False Narratives --- murder mothers and children huddled in church basements, as they did at the Branch Davidian Compound in Waco, Texas.

14. The criminal nature of all this activity by our erstwhile public employees and Federal Subcontractors doesn't really have to be explained further, it simply has to be stopped by those organizations and officials responsible for it. This includes the dissolution of the courts that have been responsible for enforcing all this criminal nonsense and the misguided "federal agencies" that have provided the muscle for it.

15. For the international public record, these two Americans known as Anna Maria Riezinger and James Clinton Belcher, have never engaged in offshore commercial activities related to the international (interstate) sale, transport or manufacture of alcohol, tobacco, or firearms. We owe no duty to any foreign franchise corporations named after us, but they and their Principals do owe us the Usufructuary Duty to hold us harmless from any charges or liabilities resulting from the existence of these foreign corporate franchises named after us.

And we hold them to it.
