

Jacob Rothschild = The New Republic = La Neu Republique

By Anna Von Reitz

Everyone needs to get real sober, real fast. Especially Jacob Rothschild.

Mr. Rothschild has performed a worthy, albeit, self-interested public service. He has bought the debts of the International Monetary Fund in sufficient quantity to stave off World War III, but the quid pro quo is that he and his new "governmental services corporation" calling itself "The New Republic" inherit the service contract created by The Constitution for the united States of America and get to provide (and charge us for) the nineteen enumerated federal services.

The problem is and has been (for 150 years) that we are the States of America and we get to choose who provides services for us and we also rule the land jurisdiction of this country, so there is a new contract to be negotiated. And this time it is going to be negotiated by us, not by service providers making deals behind our backs among themselves and then pretending to "represent" us.

We were not impressed by the service provided by earlier Rothschild companies that were bankrupted under false pretenses. And we liked the service provided by the Rockefellers and their partners in crime even less.

So any idea that we are under any obligation to accept Mr. Rothschild's company doing business as "The New Republic" as our federal service provider is to say the least, premature. We have accepted some services on an as-needed, temporary basis---- and we thanked Mr. Rothschild for his willingness to provide them, but we have made no commitments and have not allowed him or his corporation to assume anything but a pay-as-we-go position.

The perps in DC have caused a real problem for us and for the rest of the world. And those perpetrators are NOT Americans. They are all British Subjects and always have been. The "United States" they represent is not The United States that belongs to us as a birthright forever.

All the fraud and all the banking and legal chicanery in the world won't change the facts and we have adequately demonstrated the facts and objected to any self-

interested interpretation of them before the Suprema Tribunale--- the Vatican Chancery Court.

The official international contact for the American States at this point is the American Native Nations, and the indigenous American delegations that include the Athabascan and Lakota nations at the United Nations, not the Neu Republique, which is just more European meddling in our business.

We have acted as the Priority Creditors of the Federal Reserve and documented our claims with twenty years of Due Process and Recorded Claims and international Liens in behalf of the living people and the actual American States.

We are the Priority Creditors of all 185,000 corporations registered in this country including national corporations like "JAPAN" and "AUSTRALIA" and "CANADA" and all the corporations standing under their auspices, too.

In that capacity we have discharged all our debts and everyone else's, first by mutual offset credit exchange, and second by debt forgiveness. There is no excuse for any bankruptcy schemes or probate fraud and no excuse either for any Secondary Creditors or Bankruptcy Trustees to show up on our doorsteps claiming that we owe any debts to anyone.

Such false claims and racketeering will be promptly rebuffed and recognized as commercial war crimes.

The American States have been officially re-conveyed to the jurisdiction of the land and are under the protection of all the international treaties and guarantees owed to them. The King of Spain has been duly notified and he has taken up position to make sure that the Queen and Prince William get their paws off our assets and stop usurping against our lawful government.

Mr. Rothschild's role in all this is not resolved in that he and his organization are welcome to offer their services, but acceptance of those services on any long term or continuing basis has not been agreed to by the Fiduciaries. The New Republic employees are being paid month-to-month. And any attempt to confiscate the assets of the Federal Reserve by The New Republic would certainly be a crime and an act of war recognized by the entire international community.

Our country is finally undergoing the reorganization that should have happened at the end of the American Civil War, 150 years ago. As part of that reorganization we have a great deal of catching up to do and our people have a lot to learn about their actual history and about the organization of the rest of the world, banking, and a great many other things. America, in a sense, is finally growing up--- and however difficult and painful a process that has been, we have survived our Mommy, Dearest relationship with Great Britain and emerged on the other side of it.

We entertain Mr. Rothschild's assistance and are grateful for it, but it should not be taken as any long term contractual agreement to receive services. Our people must be fully informed and any such contract must be fully disclosed and appropriately administered from now on. Our states must be properly organized and new Fiduciary Deputies trained and sworn in and bonded. A true Continental Congress must be assembled and many issues must be addressed including who gets the federal contract and if there is to be a federal contract.

Alone among the great nations of the world, America has tolerated "sharing" its international jurisdiction with foreign nations--both Britain and France. Our experience with this arrangement has not been good and after more than two hundred years of European chicanery on our shores, many of us feel that America has outgrown it. We are ready and willing to discuss new agreements and to undertake complete responsibility for the conduct of our business and yes, to take our rightful place among the nations of the Earth--no longer playing the part of an immature adjunct of Britain or France.
