

John Leake Findings

By Anna Von Reitz

Immediately below, I am reposting a brief article by John Leake titled, "Covid 19 Hiding in Plain Sight since 2015". I am reposting it because so many people seem confused about something that is exhaustively documented at this point. Covid 19 is a bioengineered weapon that was developed and patented here in The United States. When the research supporting it was outlawed in 2014, the National Institute of Health under Anthony Fauci continued to fund research and development of Covid 19 offshore at the Wuhan Laboratory.

The research had been outlawed and defunded by Congress, but Fauci and the NIH evaded their prohibition and developed it anyway, in anticipation of billions of dollars in profits for themselves and the Big Pharma corporations that the NIH and CDC are dependent upon. So give a quick review of the facts and rejoin me for a crucial explanation at the bottom of the page:

Covid 19 Hiding in Plain Sight Since 2015 by John Leake
<https://principia-scientific.com/covid-hiding-in-plain-sight-since-2015/>

The lab origin of SARS-CoV-2 was published in 2015

One of the most striking features of the corrupt pandemic response is that its innumerable elements of fraud, deception, malfeasance, unconstitutionality, and negligent homicide are NOT concealed.

Because these criminal elements are not reported by the mainstream media, they remain unknown to most people. Like pebbles tossed onto a recently mown lawn, they are not immediately visible, but would be to anyone who looks a little closer.

This is not actual concealment; it's just a matter of not drawing attention to something. Nevertheless, such systematic omissions result in ignorance for those accustomed to obtaining their information from the mainstream media.

This ignorance is reinforced by the consumption of daily mainstream news, which diminishes awareness of any particular story that develops over a period of time.

A stunning form of this deception by omission is when public officials, scientists, and the media pretend not to notice extremely harmful and even criminal conduct that is detectable for anyone who bothers to look.

Public officials and news reporters have no excuse for not looking because it's their job to look. Their omissions are analogous to a police investigator choosing not to look at a video surveillance recording of a bank that has just been robbed by a man not wearing a mask. Those who have committed dangerous and even criminal acts are, in this way, allowed to hide in plain sight.

A striking example is the histrionic debate over whether NIH grant recipients conducted Gain-of-Function research on bat coronaviruses.

The pinnacle of such theater were the jousting matches between Senator Rand Paul and Dr. Anthony Fauci at Senate Health Committee hearings, at which Dr. Fauci vehemently insisted his agency did NOT fund Gain-of-Function research on bat coronaviruses.

Apart from Senator Paul, few in the Senate, and few if any in the mainstream media, questioned Dr. Fauci's assertions.

And yet, to see that the NIH was, in fact, funding Gain-of-Function research on bat coronaviruses, one need only to read the 2015 paper titled **A SARS-like cluster of circulating bat coronaviruses shows potential for human emergence** by Veneet Menachery, Zhengli-Li Shi, Ralph Baric, et al.

This study plainly states that the authors conducted Gain-of-Function research on bat coronaviruses in order to make them infectious to primary human airway epithelial cells.

Towards the end of the paper, the reader comes to the following section:

Biosafety And Biosecurity.

Reported studies were initiated after the University of North Carolina Institutional Biosafety Committee approved the experimental protocol (Project Title: Generating infectious clones of bat SARS-like CoVs; Lab Safety Plan ID: 20145741; Schedule G ID: 12279).

These studies were initiated before the US Government Deliberative Process Research Funding Pause on Selected Gain-of-Function Research Involving Influenza, MERS and SARS Viruses (<http://www.phe.gov/s3/dualuse/Documents/gain-of-function.pdf>).

This paper has been reviewed by the funding agency, the NIH.

Continuation of these studies was requested, and this has been approved by the NIH.

Note that the reason for pausing Gain-of-Function research was the determination that its risks outweighed its potential benefit. The legalistic assertion that this particular Gain-of-Function research was authorized to continue flies in the face of the risk assessment.

Such research was, in 2014, deemed to be too dangerous for mankind, and in fact (as we now know) it **was** too dangerous. That Professor Baric's research was approved before this negative risk assessment was made is immaterial.

The 2015 paper and other documents show that Ralph Baric and his Chinese colleague, Zhengli-Li Shi, were indeed engineering SARS-like bat coronaviruses in a lab at the Wuhan Institute of Virology in order to make them highly infectious to humans.

Today we learn that Dr. Andrew Huff, former EcoHealth Alliance vice president and scientist, has just published a book titled **The Truth about Wuhan: How I Uncovered the Biggest Lie in History**.

We welcome Dr. Huff's report, though we suspect that he won't reveal anything we don't already know.

Anna's comment:

The way that they have worked all this without being prosecuted is the same impersonation that they have used throughout The Great Fraud. Remember that it is perfectly legal to kill, maim, plunder, murder, rape, or pillage a corporation. That's why they have been at such pains to redefine people as corporations which can then be harmed and preyed upon at will and also owned as slaves.

This deceit and process of lies has recently been discovered and the wheels of justice are now turning, but be aware that just as this impersonation scheme has been falling apart, the Perpetrators have been trying to run another scheme by which they can claim ownership of living flesh ---- the U.S. Supreme Court allowed genetic research organizations and individuals to patent and profit from genetically engineered organism, so the Vermin have attempted to "redefine" humanity by introducing patented scraps of DNA into the human genome and claiming that the victims are now "Genetically Modified Organisms" owned by the patent holders.

Our American Government has already taken action as of **January 2020** to outlaw all such claims in this country and we encourage people throughout the world to do the same. The Supreme Court was clearly not considering the potential evil contemplated by the pharmaceutical companies and men like Anthony Fauci.

If successful, the patent-holders would literally own people as property and could dispose of them and mistreat them at will; there would be no recourse to any Natural and Unalienable Rights nor any Human Rights or Civil Rights, because there are no "GMO Rights" extant.

It is all just another ploy to continue the practice of slavery almost a hundred and fifty-seven years after slavery was supposedly abolished in this country and 96 years after slavery has been outlawed worldwide (1926).

The Source of this Nastiness is the Roman-affiliated Municipal Governments operating as "independent, international city-states" worldwide and its British sycophants which have created caste and class systems for generations for the purpose of dividing and conquering their victims and continuing the evil practices of elitism, colonialism, and economic peonage and enslavement under new guises, using new excuses for the same old evils.

Today's Serfs enjoy fewer freedoms and pay a larger percentage of their earnings to the Perpetrators of these evils than our ancestors in the Middle Ages, and if they are allowed to get away with any more of this process of "redefinition" we will all live in a planetary pig farm, where the vaxxed will be farmed like pigs and the unvaxxed will be defined as enemies of the "state" --- however these vomit bags define the words.

It's time to be resolute and organized and put an end to these "programs" and insidious practices and failed institutions.
