

International Public Notice: To the Joint Chiefs of Staff

By Anna Von Reitz

You have known for the better part of ten years that this day was coming. We don't accept any offer to continue "business as usual" with United States personnel. The IRS and Internal Revenue Service can no longer continue to operate as if they had any public function at all, can no longer prosecute innocent Americans, can no longer use the postal service to solicit payments under color of law.

Ditto the Selective Service and other agencies that have been hired to do dirty work over the years. It's over. The "war" is over, and any pretense of keeping it going by paying the bills of the old United States, Inc. and "accepting" their debts "for" us, isn't going to work.

We made it clear that the new US Notes are debts owed specifically to us because they are predicated on our assets which are improperly being held in your possession; we wish these notes" to be redeemed upon issuance and reissued/redefined as prepaid credit notes.

We are dealing from the other side of the ledger now.

We are not going to pay for any unnecessary interest charges.

Please contact the Office of the Fiduciary for further instructions.

Our aim is to gradually reduce the scale of the Federal Government as it has existed to date, down to the essential services enumerated; and, at the same time, stimulate the economy to put former Federal workers back to work at new and more positive jobs.

The only rightful role assigned to the government, ever, at any level, is to protect the people and their assets. If you are doing anything else, it's time to stop.

We repeat, the so-called war is over, and cannot be prolonged by force-funding derivative debt.

The RV can proceed when and if there is a meeting of the minds.

Please proceed with closing our borders, establishing peace, arresting George Soros and any other Perpetrators who contributed to the so-called pandemic, funding the 2020 riots, and otherwise promoting genocide, civil unrest, illegal immigration, and other evils that have been foisted off on the general population of this country.

Issued by:

Anna Maria Riezinger, Fiduciary

The United States of America
