

Yes, I Am Angry -- Joint Chiefs Complicit

By Anna Von Reitz

Let's take a little walk down memory lane. Let's go back to 1975.

Wisconsin was still reeling from the then-recent memory of the Milk Riots, where farmers acting in support of the National Farmers Organization (NFO) dumped millions of gallons of milk on the streets and down the storm drains of Milwaukee and other cities in protest of rigged commodity markets and rigged bank loans that were forcing the farmers to operate at a loss and causing the loss of family farms to agricultural conglomerates throughout the Midwest and the Western States.

Let's go back to the round oak table in my Mother's dining room and General Roy Schwasinger sitting there with a cup of coffee in his hand and a very intense look on his face as he said, "It's all a con game."

The Joint Chiefs of Staff had "cause to know" that something was desperately wrong in this country in 1975. They were told. They did nothing.

In 1980, SCOTUS was also told. They agreed that General Roy and the Farmers were correct in their claims and charges, but since those claims and charges were addressed to a bankrupt corporation, they claimed that they could do nothing to provide remedy, so the findings were useless in terms of remedy or relief, and were promptly "sealed".

Again, the Joint Chiefs of Staff had "cause to know" and did nothing.

As a result, millions of Americans have lost their homes, farms, and businesses. As a result, millions of Americans have suffered broken marriages and broken families. As a result, millions of Americans have received faulty substandard educations. And millions more have languished in jail for crimes they didn't commit and for victimless "crimes", and have suffered under forms of law that never applied to them. Millions more paid large portions of their earnings as "income taxes" when they didn't have a penny of "Federal" income to tax, and paid 7.5% of their gross earnings as "Social Security Taxes" because they were "mistakenly" enrolled in a "Federal" pension insurance scheme they were never eligible for in the first place.

Millions of Americans have been impersonated and mischaracterized in flagrant violation of both the Hague Conventions and the Geneva Conventions and this has been going on full bore under the noses of the Joint Chiefs for over fifty years and they haven't done a goddamned thing to stop it.

Millions of Americans have had their constitutional guarantees denied and stomped on by District Courts operating in ways that District Courts are not allowed to operate and addressing "subject matter" that District Courts are not allowed to address under any Constitution--- and the Joint Chiefs have sat there like so many toads and they have done nothing to stop it.

Instead, they have profited themselves from it.

Our military leaders have proven to be dishonest, worthless, disloyal, incompetent, sanctimonious shills in 1865, in 1907, in 1933, in 1953, in 1975, in 1988, in 2008, in 2014, and as far as I can see, are still sitting on their velvet rumps making excuses now.

I read the "Memorandum" these men sent out to all branches of our military, talking about how they support the Constitution --- and I wanted to throw up.

If the Joint Chiefs and their Predecessors had supported the actual Constitution and done their jobs, then our country would not be in crisis now. We and the rest of the world could have been spared two World Wars and countless mercenary conflicts. All the millions of Americans who have been harmed and denied their constitutional guarantees could have lived in the peace and the safety that they are owed by these big, fat, bloated, useless Toads.

And we would not be listening to a bunch of sanctimonious crap from men who are duplicitously acting as Municipal Officers when in fact the Municipality of Washington, DC, and its "Government" have grossly usurped against both the actual Federal Constitution and The Constitution of the United States of America.

These "Municipal" Joint Chiefs are phonies. Fakes. Not occupying the offices they are supposed to be occupying. They are dodging their actual duties owed to the actual people and States of this country ---- again.

Out of respect for their calling and their years in grade, I might be inclined to "respect" them and "trust" them, but I have history staring me in the face, and at least fifty years of my own direct experience with these yahoos, and I know what they are doing and I know what they should have done a long time ago and what they failed to do ---- and what it cost us all.

So I am not trusting them and I am not respecting them. I am calling them on the carpet as their employer and demanding immediate action to put a stop to any further usurpation by the Municipal Government, and failing that, I am declaring the Joint Chiefs in Mutiny against the lawful government of these United States.

When you are aware of a crime against humanity and against Public Law and against the Constitutions, and you don't do anything to stop it, you are an accomplice to the crime. Every man who signed that Memorandum has "cause to know" what his actual duty is. Every single one of them has "cause to know" that the Municipal Government has acted outside its constitutional role and authority to the detriment of this country and its people.

The obligation of the Joint Chiefs to stand against crime applies to them just as it applies to anyone else, and under international Military Law, these men are trading the fine line of treason, piracy, and a host of other exceedingly serious crimes.

So this is our message back to the Joint Chiefs this morning: you owe your allegiance to this country and your service is under The Constitution of the United States of America, not The Constitution of the United States.

Get your rumps in gear and do the right thing, or you will be identified as part of the problem and removed from office without further ado.
