

Letter to JP Morgan Chase

By Anna Von Reitz

March 12, 2022

Chairman William B. Harrison, Jr.
CEO Jamie Dimon
JPMorgan Chase Banks
270 Park Avenue
New York, New York 10017

Dear Sirs:

I am the lawful Fiduciary for The United States of America --- Unincorporated, and have recently inherited similar duties worldwide.

All British Crown copyright claims and similar attachments have been overturned and the Crown is under prosecution and investigation for crimes of unlawful conversion, personage and breach of trust against the American people and other nations worldwide.

My standing is already established, recorded, accepted, and absolute in all jurisdictions of the law.

I have the signature and donor authority over the 1,181,336,675 metric tons of gold administered for The United States of America under Certificate of Entitlement by the Central Bank of the Philippines-- which was delivered to Chase Manhattan Banks.

We have the appropriate Federal District Court Orders.

Ferdinand Marcos was our Trustee in this matter; Ferdinand Marcos had no individual right to or interest in our assets, and he could certainly not convey a

right that he himself did not possess to his relatives, including Tiburcio V. Marcos.

As the Donors, we have the controlling interest in these and all other physical assets held in trust, and as the Public Government, we are the lawful owners and protectors of all American assets in international and global jurisdiction.

Some people have advanced the idea that when the Federal Republic ceased to function in 1861, its powers devolved upon the British Territorial United States or reverted to the Municipal United States Government, or some combination thereof.

In fact, all powers vouchsafed to the Federal Republic returned by Operation of Law to the Delegator of those Powers --- our unincorporated Federation of States, doing business as The United States of America since 1776.

It is our role and responsibility to clean up this mess, take control of the assets, define the monetary standards, and issue both coin and credit.

You presumably realize this, having a long history of involvement in the Civil War and its aftermath, including the issuance of "Greenbacks" and all the way to the present day credit crisis. You know, or have cause to know, that none of the Congresses that have convened ever since the fall of the Federal Republic actually had the power to issue coinage or credit, and merely claimed to "represent" us. It's time to correct all that and get this show on the road.

I have all the original American-side records, receipts and manifests, so there is no point in arguing or fighting. This is simply a correction that has to be made, and it is best made in public and with full cooperation on all sides.

It is my understanding that you have, as of 2017, acquired the trademarks and names of the FEDERAL RESERVE and the FEDERAL RESERVE BOARD OF GOVERNORS respectively, and have been instrumental in the settlement of the bankruptcy of the Federal Reserve System.

Thus your cooperation in reassigning and using the American gold and silver assets and in negotiating the role of the FEDERAL RESERVE and status of THE UNITED STATES OF AMERICA is both requested and required.

As the responsible Fiduciary, I don't wish to cause undue disruption; I am not interested in any court battles --- those are already won; I wish for a prompt and amiable resolution of all differences between the banks and the actual asset

owners, and I call upon you to work with me to help prevent an unnecessary worldwide economic collapse.

Your prompt response is appreciated and highly desirable under the current circumstance.

I can be reached at (907) 250-5087 or via email at avannavon@gmail.com.

Time is of the essence. Notice to Agents is Notice to Principals, Notice to Principals is Notice to Agents.

By: Anna Maria Riezinger, Fiduciary
The United States of America
