

International Public Notice: Liars to the End

By Anna Von Reitz

It should not surprise anyone that the Liars who have been lying for 300-plus years, are still lying. It's what they do best. It's basically all they contribute to the world.

So, don't be surprised that their bought-and-paid-for media moguls are trying to spread the lie that only 213 bodies have been found as a result of Hurricane Helene, when just one (1) contingent of search and rescue helicopters in one day in North Carolina transferred 357 bodies.

There are thousands of bodies. We estimated 250,000 dead at the beginning of this travesty, and we have had absolutely no reason to decrease our estimate.

So, if you have been lulled into complacency and think, ho, hum, it's just another storm..... Helene was not just a storm. It was an attack using weather warfare technologies that are well-known. And it is now an ecological disaster of unimaginable proportions.

It will take years of hard work and pollution remediation to salvage the damaged land and save the people. It will take actions by millions of Americans over a long period of time. And it will take courage, because we are facing ruthless European and Chinese business interests.

Those interests have already tried to use FEMA as their bully boy and failed, so next they expanded "use of force directives" to legalize the use of former DOD personnel as a mercenary army against the people in the disaster area.

We caught them at it both times and squelched both initiatives, but perhaps more interesting, is the way that the British Territorial U.S. Congress, Inc., has bought the services of these defunct "federal" Agencies, simply by extending their funding for three months beyond the end of the UNITED STATES Chapter 7 Bankruptcy.

So which members of the British Territorial U.S. Congress, Inc., voted for this additional service contract?

Those people are guilty of genocide and purposefully planned to use these former Federal Employees as cheap mercenaries to create this disaster and make it worse.

That service contract which started [October 1](#) facilitated: (1) cloud seeding of Helene; (2) guidance of Helene into the heart of Appalachia; (3) FEMA's interference and obstruction of search and rescue; (4) everything that has happened since.

Except that they are working for the British Territorial U.S. Government, Inc., there is nothing "federally connected" to these former Agencies or their personnel.

Lucky for us all, that the Supreme Court of the United States recently removed the fangs of all Federal Agencies in two recent landmark decisions that underscore a third Supreme Court decision from more than a century ago: *Norton v. Shelby County* (1896).

So, despite appearances, these agencies --- DOD, FEMA, BATF, etc., are no longer "federal" in any sense. They are private mercenary free-agents that have been employed by the British Territorial U.S. Government, Inc. (another corporation) to create this disaster, and make the impact of it worse.

And all those poor people streaming in through the Southern Border?

Many of them have been hired to clean up the Mess, and are standing in polluted mud and silt digging for whatever they can find.

Why? Because they are anonymous. When they get sick and die from exposure to radiation and poisonous chemicals and the filth from thousands of dead people and animals, they don't exist.

They are being used to clean up the mess because they are expendable and anonymous. When they die, they are just more "unidentified" victims of the flood.

The members of the U.S. Territorial Congress are guilty of this genocide and deliberate murder, too. These people wouldn't even be in this country to act as slaves and cheap mercenaries, if not for the British Territorial U.S. Congress.

Bill Gates gave the Chinese 60,000 surveillance satellites as protection money for his agendas, among other gifts and emoluments. Those satellites and land-based broadcast emitters were used to plunk a Hurricane in the middle of Appalachia.

And now, China is preparing for war:

China has a guilty conscience. China sees that Gates is a madman, and they are complicit in his scheme to "depopulate" our Blue Ridge Mountains and raze them for the rich silicon and lithium and Rare Earth minerals they contain. They figure it's just a matter of time until we deal with our traitors and come for them.

Other countries are taking legal action:

We call upon all other peaceful nations to take similar and extra-territorial action to apprehend and prosecute this known international and indeed, global, criminal: William Gates, Jr., former CEO of Microsoft, Inc.

The members of the British Territorial U.S. Congress, Inc., who colluded with Gates to create the so-called Covid 19:Great Reset, are just as guilty as he is, and they enjoy no state immunity or diplomatic immunity, as they are working for a British Territorial Corporation -- not an actual government at all.
