

## International Public Notice: Lincoln's "Nation"

By Anna Von Reitz

Notice to Principals is Notice to Agents; Notice to Agents is Notice to Principals

It was my Grandmother who first rolled her eyes toward the heavens and squinted when I brought home an invitation to a "Lincoln Day Dinner" --- a potluck, being hosted by the local Republican Political Party as a fundraiser for their candidates.

She didn't like Lincoln. No American who actually knew the man did, and everyone winced at his nickname, "Honest Abe", because it was a cynical comment on his true character, which was the exact opposite of his sanctimonious public persona.

[Today](#) marks the 215th Birthday of this consummate Swindler, and to this day, even Wikipedia tells us that he was born at "Sinking Spring Farm, Kentucky, U.S."

This is a veiled disclosure of what every American should know about Lincoln. He was born as a Territorial Citizen -- a U.S. Citizen, an Englishman here under the auspices of the Residence Act. Not only that, in 1834, he was admitted as a full member of the Illinois Bar Association.

Lincoln was completely, fully, admittedly, in your face a Brit, a devotee of her Royal Britannic Majesty, Queen Victoria of England --- and had been since birth.

Abraham Lincoln came from an old English family whose Hallmarks still stand in Lincolnshire in England; they made no bones about where they stood during the Revolution ---they were avid Tories who fled to the hinterlands of Kentucky to escape persecution after the Revolutionary War.

This is who Abraham Lincoln truly was, yet virtually nobody in America knew this about him; it was certainly never exposed in any of his electioneering efforts, nor discussed during his Presidency. It has been firmly suppressed ever afterward, but Lincoln himself made no big secret of it.

He was, after all, a registered Bar Attorney, and he remained so all his life. Like Hiram (Ulysses S) Grant, his favorite General, Lincoln was a Queen's Man from Day One of his life.

His position as a Bar Attorney also clearly discloses the nature of his "Presidential Office" as that of a President of a foreign British Territorial Corporation that was already running as "the United States of America, Incorporated" prior to the Civil War --- the same corporation that Lincoln bankrupted in 1863.

We say this because Lincoln's position as a Bar Attorney disqualified him from serving as either the Federation President or the President of the American Federal Republic created in 1787. Bar Attorneys were prohibited from holding these offices by the Titles of Nobility Amendment added to the American Federal Constitution following the War of 1812.

So the only "Presidency" Lincoln could hold was as President of the first version of the United States of America, Incorporated -- a British Territorial Corporation.

Jefferson Davis clearly knew all of this, though he was under pain of death not to speak about it, when, after the surrender of Lee's Army, he said, "The truth will out." -- and it has, almost a hundred and sixty years later.

That this Great Lie has survived for sixteen decades and six generations of Americans is a testament to the black depths to which the "Cloak of Secrecy" has been maintained by the Officers and General Staff of the occupying U.S. Army, the British Government, the British Crown, and the Popes ever since.

Grant, like Lincoln, came from an old British family of Tories who fled to the wilds of Ohio after the Revolution, so the two men had much in common, including a long list of inherited family grievances.

Lincoln's early poverty, like Grant's, was due to their -- in Lincoln's sardonic phrase -- "failure to inherit" the land and other property once owned by the families.

They were both precluded from ever actually owning land in America by the changes wrought by the Revolution and had to be content with having their property consigned to a Public Trust held by the British King, who, as it turns out, claimed all right, benefit, and interest as they were considered his Wards, owing him everything they owned as war reparations for his expenses conducting the British side of The War of Independence.

Curiously, neither Lincoln nor Grant appear to have understood that it was King George III who actually reduced their families to penury, not the victorious Colonists.

The former Colonists were only acting under contract to collect King George's war debts from his Tory supporters, which made it look like the cruel impositions and losses visited on the Lincolns and the Grants were caused by the Americans -- when in fact, they were a result of the greed of King George III.

Be that as it stands, Lincoln and Grant both grew up on stories of all the vicious things that happened during the eight long years of The War of Independence and all the terrible losses of property and social status their families suffered as a result.

Lincoln watched his Mother die in terrible poverty, knowing that less than a hundred years before, she would have been a grand lady with vast swaths of land and cattle and every sort of wealth, if only the Americans hadn't won the war.

Nobody knows why Hiram Grant changed his name to "Ulysses S" Grant during his tenure at West Point, but it is actually clear enough. It renders his name using initials as: "U.S. Grant" -- an obvious reference to the loss of British Territorial United States land grants suffered after the Revolution. The "S" doesn't actually stand for any name, like Solomon. It's just an "S" and "U.S. Grant" is a nom de guerre in a private war seeking vengeance against the victorious former American Colonies.

To this day, an immense portrait of Lincoln stands in the Middle Innes of Court in the Inner City of London and he is one of the most famous members of the British Bar Association, as a result of his service in America -- serving to bring our country back under the British bootheel. The entire Lincoln Memorial is a further testament to the gratitude of both the Queen and the British Crown.

They didn't really win any "war", because the whole dreadful misery of the so-called Civil War was a Mercenary Conflict; but, it gained the Perpetrators what

they really wanted -- a disguised foreign British Territorial occupation of our country by what appeared to be our own military forces.

Like everything else that Abraham Lincoln accomplished via semantic deceits and constructive fraud, he had unlawfully converted our American Military Forces into Mercenary Forces, to be bought by the highest bidders, with no apparent changes to the insignias, training, or storefront mission.

And now, all this fraud and force has come to roost for what it is: crime.

Abraham Lincoln's most famous and high-sounding doggerel, The Gettysburg Address, turns out to be an insulting and ultimately deceptive screed when read from Lincoln's own standpoint as a British Torey.

The sacrifices at Gettysburg were never about black plantation slavery in Lincoln's mind; they were about birthing a new "nation" -- a British Territorial nation, with franchises in every State of the Union.

In view of the content of the last three International Public Notices regarding Identity Theft by Substitution, Parts 1,2 and 3, it should be apparent just how successful Lincoln and later, Grant, have been; the part that the BAR and Bar Associations and their members have played, the compromised position of the "U.S. Army", the British Scheme to impose British Territorial Regimes (equivalent to the Raj) on all the other countries they could subourne, and the ultimately criminal means they have used to secure their positions by means of fraud, human trafficking, impersonation, and "courts" that are not judicial courts, are abundantly clear.

All of this has been promoted by pretense of war.

The leaders of the Bar Associations were informed by Lincoln that they were at war. Similarly, the leaders of the Bar were informed in the same way, by Franklin Delano Roosevelt, that they were at war in the early 1930's. They were given to understand that this war required them to entrap, enslave, punish, and otherwise wreck havoc on us, and that their actions would be protected as exigencies of war.

In actuality, there was never any war; there has been instead an endless stream of Mercenary Conflicts, something that Secretary of Defense Robert McNamara finally admitted in public during the "Vietnam Conflict".

Thus, our nation and our public have been criminally and infamously undermined by a foreign nation and a foreign public under contract to provide us with "good faith service".

We, ourselves, have been deliberately misidentified, falsely registered, impersonated, obligated and persecuted under these false and unconscionable pretenses under color of law by the same foreign governments and corporations that have perpetuated these practices and these gargantuan fraud schemes against the living people of every country and nation.

The late Queen, Elizabeth II, served as the "Chair of the Estates" created by these criminal practices of constructive fraud and impersonation.

Not only our country, but many others have suffered the predation of this consortium of corporate and mercenary interests.

Mahatma Gandhi, a trained British Barrister, smelled the stench of this corruption in India, which led to the ouster of the British Raj, but somehow did not alert the rest of the world to the existence of this same criminal misadministration and misappropriation in other countries.

What happened to us and to India has happened to many other countries, as transnational banks in league with these corporate interests have supported the constant fomenting of war for profit and political usurpation for profit throughout the world.

To date our country, all former members of the British Commonwealth, all of the illegally occupied (still) countries of Western Europe, Japan, many countries in Africa, and several countries in the Mideast, have been affected and infected by these same criminal actors and their practices.

This has led to illegal monopolization of information, currency supplies, natural resources, labor resources, and commodity markets worldwide.

This same group of British Bunko Artists and their colluding monopoly of Central Banks designed to rig supplies of all important commodities including money, are even now sponsoring upwards of thirty (30) wars for profit, most infamously the genocide taking place in the Gaza Strip, the War in Ukraine, and the travesty taking place on our southern border, but let us not forget the twenty-plus "wars" and incursions in Africa, incipient wars in the Middle East, and more wars slated

for Indonesia, the Philippines, and Australia, where they hope to wipe out up to 90% of the population preparatory to "giving" the Continent to China.

We would like to know by what possible right or rationale any of these actions are being taken and supported by anyone with either a brain or a heart?

These are criminal acts undertaken by criminals misdirecting mercenary forces populated by men and women who don't even know that they were hired as mercenaries.

We have requested a validated accounting of all assets on deposit with the member central banks of the Bank for International Settlements -- all accounts belonging to this country and our people must eventually be accounted for, but for starters, we are claiming and demanding the survivorship interest in all accounts owed to The United States of America and all the Code F.L.A.T. accounts owed to one of our Nationals, Julius Demitrius Shiva, also known as Julius Demitrious Shiva.

These assets and accounts have been misrepresented as belonging to the phony constructive "Estates" and "ESTATES" created in our names as described in our three prior International Public Notices: Identity Theft Via Substitution, Parts 1, 2 and 3 -- purportedly in the absence of unknown heirs or missing parties and as "abandoned assets" left on deposit -- and these False Claims have been asserted by the same characters who have brought all the rest of the misery and calamity on this planet to fruition.

This commandeering of our private survivorship interest in the Global Collateral Accounts and the accounts belonging to this country's actual Government, is one of the primary ways that the colluding banks, corporate interests, "warring" Bar Associations, and misdirected military efforts, have been funded.

These corporate crime syndicates have been unlawfully, illegally, and immorally locking down our assets and misusing them under all these False Pretenses, illegally securitizing our living flesh and labor assets via semantic pretenses, and generating huge amounts of credit for themselves by pretending that our assets are part of fraudulently constructed and unclaimed Public Trust Accounts and similar fraudulent private trust accounts promoted by the "secular side" of the Roman Catholic Church.

The Bank for International Settlements and its member banks, have all knowingly or unknowingly, participated in these fraud schemes against us, and are now being called upon to come clean.

The Americans in the various "United States" Military Forces are being called to honor their Oaths to protect and defend us against "all enemies, foreign and domestic".

The world's International Courts and Tribunals, the members of the International and National Bar Associations, the members of the National Governments that remain, all the living people of this planet are being called to take action to bring an end to this insidious evil in our midst.

Members of the Bar Associations -- you have been lied to, used, and betrayed. Justice has been betrayed. These corporatists have made a mockery of your calling and used you to inflict crimes of infinite variety on innocent people who never owed the British King or the Pope a dime.

Members of the world's Police Forces -- these criminals have likewise made fools out of you and risked your lives in the cause of injustice and criminality.

People of the world, arise and awaken, you have been the victims of murderers and thieves posing as your lawful governments.

Just as Gandhi observed, so we observe, that the Raj organizations infesting our nations really have no right or cause to be present here. Just as in India, the British Bunko Artists are here by virtue of a residency agreement (Residence Act) allowing them to be here to provide specific services, and they have grossly imposed upon our hospitality.
