

Dear Linda On Oregon - Part 2

By Anna Von Reitz

Everyone born in this country has been given an inestimable gift and great power; however, along with that power goes great responsibility.

Everyone who is honest (the root word is in common with "honorable") has the fundamental basis of being honorable and of acting in honor, but without honesty, there is no honor possible. That's why it is so cloying to hear people drone on about "acting in honor" and "standing in honor" when they are lying through their teeth.

Liars and thieves and con artists have no honor. None. Zero. Nada. By definition.

I have just presented you all with proof in their own words preserved on the Global Family International Trade Bank channel of Mattermost. Turns out that those "aggrieved" parties taking up massive amounts of time at The Oregon Assembly meetings bad-mouthing me and the Federation, have known all along that my bank wasn't involved and neither was I, but for months they've been *knowingly* blaming me and "my" bank for things they did themselves. And they have been deliberately lying to all of you.

Honor? Do people who do things like this have the right to use the word?

No thanks to them, even the PMA Credit Union is still standing, and the money is being returned to everyone, those who have urgent needs first, and then, first come, first served.

Honor? Integrity? Fairness? Truth? Self-Governance?

Accountability? None of them deserve to be in the same room with me, nor with any honest person seeking to restore the government owed to Oregon. If I were The Oregon Assembly members, I'd kick them out without a backward glance. They don't "have to" join The Oregon Assembly, and when they pull stunts like this, you don't have to retain them as members, either.

You have to ask yourselves, if they'd pull this with the banks --- what else might they do down the road? Who or what will be "targeted" next?

If they'd knowingly lie about me and "my" bank, wouldn't they also lie about you and anything you were doing?

The Oregon Assembly has plenty of reason and provocation to: (1) demand that only papered up and fully declared members be allowed to speak at meetings; (2) only papered up members get to vote; and (3) and the names of these liars be stricken from the membership rolls.

Everyone will be glad to know that the LRS files have been recovered and will be translated to the ILRS/LRO. As I said, I can't prove it, but the destruction of the LRS happened the same day that these miscreants started the bank run on their own credit union, and that's just a little bit too coincidental for me.

Thank you Anna von Reitz for your timely and thorough reply.

Thank you to the other Oregon Assembly members for your feedback, and reply.

I encourage other Assembly members standing in Oregon to take your time, and when if ready, you wish to encourage our group to stand up, and reconvene meetings, with (dare I say) the current rules of order as a first order of business, to be reviewed, and perhaps even in advance of the next meeting, (as yet not determined), any suggestions for “updating or refreshing” the meeting etiquette and conduct, could be submitted in writing BEFORE discussion at a meeting. This would save some time of discussion, and allow anyone with thoughts, suggestions, and feelings in the matter, to clarify, in writing, as the prompt for discussion and deliberation when we convene and HOPEFULLY MOVE FORWARD with meetings where more mutual and individual understanding is accomplished.

It would seem to me that all of us will be in the position in the future of contributing to an assembly environment and assembly esprit de coure that has room for the newer members and room for members who have not yet experienced, and thus had no need to experience Grievance that rises to the need to bring it to EVERY MEETING.

One more point of clarification. It may well be part of our assembly business to air and address grievance at our “weekly” assembly meeting, but again, in as much as it is possible, perhaps a written paragraph summarizing the grievance that is to be brought, and to whom it is specifically directed, would insure that all parties to the conflict are there, in attendance, and ready with their most informed response.

Finally, we might all have a different definition of honor, so, I find the following list pretty comprehensive as a definition for honor in my mind. What say you?

01. Pay a compliment
02. Treat others with respect
03. Be understanding
04. Be patient
05. Ask questions
06. Challenge assumptions
07. Overlook mistakes
08. Forgive
09. Show compassion
10. Celebrate accomplishments
11. Cheer someone on
12. Listen
13. Encourage
14. Learn from others
15. Help others
16. Find common ground
17. Appreciate your differences
18. Accept help
19. Be open- open your heart, open your eyes, open your mind

Thank you for your time and consideration in this matter,

Linda, Living on THE LAND

BTW, I am an Oregonian born and bred, with some time living in Ohio, and California. I have been, and always shall be a person that has that NorthWEST, Evergreen, Cascadia state of mind. It is FOREVER my honor to Call OREGON my destiny. Let us all be aware that it is a

remarkable accident of birth, or good fortune to call Oregon our home. Surely we can agree on this subject, and that is a start!

Respectfully, in honor of you, and on my honor,

LINDA WENKER ©

Dear Linda Standing On Oregon:

The very first thing you have to understand is that "the ASN Bank" hasn't even opened its doors yet, so all this talk about people depositing money in it and having it "stolen" --- is sheer lunacy and lies.

The second thing you have to know is that I am involved in building an entirely new banking system which is in competition with both the Rothschild and Rockefeller banks, which makes me and "my" bank a target.

The third thing you need on your dashboard is that neither I nor "my" bank had anything to do with the California Credit Union Fiasco these people are gossiping about --- but one of the members of the Oregon Assembly, Darla Hamblin, was a key Perpetrator.

She has done everything in her power to blame me for something that she did.

The fourth thing you need to know is that I have just published proof that Darla and the others knew what they were doing and knew all along that it had nothing to do with "my" bank.

The bait they used was "my" bank and the switch they made was to a Private Membership Association (PMA) credit union. The proof is plain to see on the Global Family

International Trade Bank channel on Mattermost, so go look.

One of our folks smelled a rat and asked why she would have to join a PMA to have an account with our international trade bank?

Go see what you'll see and remember that I am not even a member of the PMA.

The whole thing was a set up, but not by Hunter Aki and not by me.

I can't prove it (yet) but I believe that the same nest of instigators collapsed the international Land Recording System (LRS) on the same day they started the bank run on their own credit union.

This is all standard operating procedure and it is all counter-intuitive. Why would they work so diligently to build up a credit union and get everyone they could to join it by fair means or foul ---and then, purposefully try to destroy it?

It wasn't their credit union. It was ---and is--- Hunter Aki's credit union. They were targeting him ----and me, too, by association.

They wanted to discredit us both and undermine "my" bank before it even opened its doors. They have done what the rats always do --- they have blamed their victims and accused their victims of doing what they've done themselves.

So when you hear the Hypocrites droning on about "standing in honor" and acting aggrieved ----know what you are dealing with.

All the hand-waving about Tricia is just more of the same disruption-and-destruction agenda. You will find that Tricia has done nothing wrong. Her only "sin" is that she stands between them and their objective, which is the hostile takeover of the Oregon Assembly by a group they have been grooming in the background, the so-called Oregon Statewide Jural Assembly (OSJA) headed by Ron Vrooman.

By playing upon people's public school indoctrination and the assumptions that they have about our government based on that indoctrination, they have been able to gather quite a crowd of people in a short time. All their grandstanding about seating Grand Juries and issuing warrants, etc., attracts those who have suffered injustice at the hands of the British Territorial Courts.

So, their plan is to bring in their OSJA members and overwhelm The Oregon Assembly with numbers -- commandeer it, and substitute their organization for ours, after the Federation and the people in Oregon have worked almost five years to organize The Oregon Assembly. It's another kind of Bait and Switch / Substitution Scheme --- just like the Brits came in after the Civil War and substituted their Territorial States-of-States for our American States-of-States.

And that is why we called a "time out". We don't intend that they will succeed.

We especially won't stand by and let them associate their OSJA organization with The Oregon Assembly.

They would predictably pretend to "be" us, and proceed to take reckless, possibly violent, actions "in our name" --- for which we would be blamed. That would provide the excuse for the Federal Agencies to come in and arrest a whole lot of innocent people and a few rats, who would be quietly released after doing their job ---which is to infiltrate, implicate, and provide the excuse for violent suppression. Their agenda is to build it up to knock it down, similar to what they have tried to do with the bank affair described above.

Tricia has done precisely the right thing to protect you and everyone else from that eventuality, and only those who stand with Tricia and maintain the separate status and identity of The Oregon Assembly will be recognized by the Federation and kept safe.

For several years now, I have tried to explain the simple and self-evident fact that the Jural Assembly, Militia, and International Business Assembly are all subsets of the General Assembly.

Those three functions are performed by members of the General Assembly, not some separate organization or contractor like the OSJA.

That is the way it has always been, and if you have any common sense, it's the way it has to be --- otherwise, you'd have groups of people claiming authority and acting as vigilantes and setting up "courts" and issuing orders enforced by groups of thugs, all acting as "Jural Assemblies"

that aren't associated with and aren't answering to any actual State Assembly. I have just described what Ron Vrooman has been pushing for the past three years --- a dissociated "Jural Assembly".

We have the absolute guaranteed right to peaceably assemble. We also have a Supreme Court decision agreeing that when our State Assemblies "peaceably assemble" and provide us with American Common Law Courts, the foreign Territorial and Municipal courts must stand down.

We have to do it ourselves, we have to do it with the right standing, and we have to do it within the framework of the American Government our ancestors handed down to us. We all have to educate ourselves and agree among ourselves and do the work of our Government in a thoroughly responsible, even-handed, and non-violent manner. And we have to know and stay within the limitations of our own jurisdiction, treaties, and contracts.

The Federation works hard to help the Assemblies to get assembled again after a 150-plus year hiatus ---- and serves to protect and guide and educate the Assemblies and their members during the assembling process, but we are not a top-down government and the Federation, though it works for and must represent the best interest of the sovereign states, is not a sovereign entity.

Tricia stepped forward as a volunteer, all on her own. The Federation didn't "choose" her, we called for volunteers who were willing to undergo training and vetting to act as Go-Betweens --- shuttling back and forth between the Federation and Assembly and working with both to "stand up" The Oregon Assembly and make sure that it is

competent to perform the functions of an Assembly--- that is, hold meetings and conduct business in-State and internationally, provide American Common Law Courts, and field a "well-regulated" State Assembly Militia.

And bear in mind that the entire time that the Federation is standing in as Oversight for the assembling process taking place in the national jurisdiction --- and making sure that the Assemblies are American Assemblies and are not commandeered or corrupted at birth or making gross, possibly dangerous errors --- we still have all our own normal jobs and responsibilities, plus more, in international and global jurisdiction.

It's a miracle that the Federation is still here, still able to function, still willing to function. We have done so without any payment or consideration from the individual States of the Union for over 150 years and we are still standing up for America and guiding the Ship of State forward. It's the States that are supposed to pay the Federation, not the other way around. It's the States which must ultimately grow up and guide the Federation, not the other way around.

All those who sincerely care about the fate of Oregon and your own safety and standing as a lawful Assembly -- need to rally around Tricia and accept the guidance of the Federation. You won't get through the Rothschild Tag Team any other way.

And you, as a new member--- you are doing fine. You are focused on the things that need to get done, that need to be learned, and that need to be overcome in order to move things forward. You have an instinctive grasp of what's

sensible and honorable, which should ultimately lead you to what is true and good.

The actual Oregon Assembly known simply as The Oregon Assembly will reconvene as soon as all this nonsense settles down and it will resume in official standing only under the guidance of Tricia and/or additional Coordinators. It's up to you all how long it takes to be fully reinstated.

On [Tue, Aug 1, 2023](#) at 7:25 AM Linda Boubody wrote:

This is sent to half mailing list, as I am unable to send to all in one email. Will send to other half and thus twice to you Anna.

To fellow Oregon Assembly members, and Anna von Reitz,

My family are very recent new members of Oregon Assembly. This email is sent to offer the voice and impression of someone at the front end of the learning curve. A primary reason we have chosen to become an ASN in Oregon is due to our knowledge from members in other States, for example, California and Nevada. Our process to join has been administratively slow, but steady. I have attended nearly every Oregon meeting for the past 4-5 months. Explaining my journey in acquiring knowledge and understanding is only so you all might appreciate that this strife, and the manner in which it is handled has been quite a challenge. Many members of Oregon Assembly have expressed a lack of trust in AVR, and the current coordinator, Tricia, and every meeting without exception has been quite bogged down in "process", with many people in (thus far) a perpetual state of "offended", and plenty of accusation that some of their financial arrangements within the ASN bank were at best a disappointment and worst some nefarious fraud.

For my part, I have rarely spoken, since I am still in the learning phase. The offended parties have DOMINATED most of our meetings, in unending efforts to persuade the members present at the meeting to their perspective.

It would seem The Oregon Assembly has rules of conduct, during the meetings, that needed review, and we even got bogged down in how to move votes forward in our meetings.

With this version of events, as summarized by a very new member, I ask that everyone consider the following:

To be in “honor” is it not best to take the grievance directly to the party that created the grievance.

I currently have no grievance (that I comprehend) with anyone in my state or any other, with regard to ASN, or The Oregon Assembly.

Is this assembly open to and interested in growing membership for people who wish to join, stand on THE LAND and learn all that one can about how “we the people” and “I the person” have significant rights, and responsibilities, and “non corporate” status to RECLAIM? I ask because The Oregon Assembly meetings been enlightening, but have not moved the “grown and welcoming of new members forward with virtually every meeting bogged down in a perpetual state of “grievance”.

I have attended “learning sessions hosted by ASN from other states, and found them a treasure trove of “information” on some of the rights, responsibilities and methods to claim non-corporate status and HOW TO embrace and claim of the and on the land status.

Curiously, I have only recently attended opportunities to listen and learn what Anna von Reitz has to say, and have had time to read and review previously recorded presentations by AVR. My learning curve continues.

As for my fellow Oregon Assembly members, I am not offended, I do not know any of you well enough to comment, but I am certain, we are all members, and everyone starts with my trust, and everyone still has “honor” from my perspective. Many of you might reconsider the subjects you wish to discuss during our assembly meetings, with the basic understanding that our assembly indeed, has self determination, BUT wouldn’t that include referring to which standard of conduct , or previously agreed upon rules of order for conducting our meetings?

Perhaps I am uninformed, regarding the goal and desire for Oregon to steadily grow our assembly? With all due respect to all the long standing members, has your conduct at the meetings been “in honor” and respectful of EACH members right to express their views? While I do not yet have the meeting rules of conduct (as in how to call for a vote, etc.) firm in my mind, it seems clear from recent meetings that even voting procedures are not fully understood by members in attendance.

It is an absolute gift to all of us to even have the structure that exists to stand up ON THE LAND, represent our unique and collective perspectives and opinions, be a member of The Oregon Assembly, and have the generosity of members across the country in many states, having forums, clinics and recorded lectures on how best to embrace and utilize the Rights and responsibilities that HAVE LONG EXISTED, but also LONG been refuted and “legally (NOT legally) stolen from each of us by the “government” that exists today, and that was “taught” to us during our childhoods.

So I say to Anna, I say to Tritia, and I say to all our members, LET US stand up...spend some time at meetings reviewing the existing “rules of order” to bring newer members of the Assembly along, refer directly to the rule you are invoking when you say “may I” and express your views.

To this day, I would still like everyone to clarify EXACTLY what Tritia did, which rule of the Oregon State Assembly was breached, and by whom, and for what reason. If any one

of us has a banking relationship with ASN, or with our own Oregon State Assembly account, this can be a personal issue, or a matter of public disclosure. It IS NOT and CANNOT be both!

Finally, while many have been very generous sharing their knowledge, and many of you have been patient with members newer to Oregon State Assembly, the brutal truth is, this perpetual state of “Offense and questions of other members honor” is not confidence instilling for a newer member.

Speak you peace, then stop hammering away at criticisms of any and all the long standing members Including AVR, as each person’s honor is their own, and there have been several members who opening and criticize other ASN members who are NOT present at the meeting to respond. This does NOT seem to me to be a positive way to move YOUR HONOR forward, and it does NOT MOVE YOUR GRIEVANCE forward either.

I look forward to learning more, about all of it, reading the Oregon State Assembly rules of order, more thoroughly, and putting all of this “in fighting” behind us.

If some in Oregon Assembly are not happy with ASN and Anna von Reitz speaking, writing and knowledge bank, please know, you are not required to listen, read or write to her. For those of us that are still wishing and wanting to hear and read all assertions , and opinions, SO BE IT. It seems to me, the current “parallel government” described as United States Government is the perpetual grievance source we need to all be aware of. Infighting with in our American Government does not move us toward our goal, individually or as the Oregon State Assembly.

Anna, and Tritia, reconsider your edict that our assembly “needs a time out”, and for the record, exactly WHO designates the “coordinator” for our Assembly? We the members, or AVR and the Federation of States? I welcome a break, where perhaps meetings would occur every other week, but SHUTTING DOWN when decided by anyone but WE the actual members of The Oregon Assembly does not sound fair and just for WE, the MEMBERS, of The Oregon Assembly!?

Respectfully, and in honor,
LINDA WENKER. © LW
