

## Sample of a Mandatory FSIA Notice

By Anna Von Reitz

I am getting a lot of frantic people who have been approached by the vermin who can't figure out how to do a simple (but mandatory) FISA Notice, so I concocted an "example" of how such a Notice might appear to give them an idea.

Obviously, this is just an example that would need to be re-worked for each individual and each individual case. People need to put their own names and data into such a Notice, their own addresses, etc. This just shows the basic form of how such a Notice can be done.

This is the first thing that needs to be put in place the moment people are approached by the hired Help, including any of the foreign municipal or territorial courts. This is the reply to make to their services and summons. Flag them off by making a reply (so they can't say you evaded anything or showed them contempt) and giving them proper NOTICE that you are not "acting as" or in the capacity of one of them.
