

Masks and Criminals

By Anna Von Reitz

There are tons of data points and research studies telling us that the cloth masks people are wearing are ineffective as a barrier to viruses.

There are more data points and scientific studies proving that masks cause health problems for otherwise healthy people by collecting bacteria and by recycling carbon dioxide.

So why is anyone wearing a mask?

CDC and NIH are not public institutions and they aren't associated with the government. They are subcontractors of the government corporations, but that's not the same thing. Both these organizations are in the business of developing and selling vaccines. Ditto Dr. Fauci.

So why are we listening to them, as if they were disinterested and reliable authorities?

There is another point everyone needs to take in.

Masks cover the faces of criminals, and we are dealing with criminals.

Some of you already saw this analysis from State of the Nation: <https://stateofthenation.co/?p=24296>.

It demonstrates why Joe Biden is permanently barred from holding public office as a result of his self-admitted influence racketeering in the Ukraine, but it neglects three very important points.

- (1) The Municipal Government never adopted Federal Code, except for Title 50.
- (2) "President of the United States" -- the Municipal Office -- isn't a public office.
- (3) And finally, the Pope's Municipal Government is an unaccountable rogue oligarchy run by the members of Congress (See Article 1, Section 8, Clause 17).

If the members of the US Congress (the Municipal Congress) want to function as a crime syndicate, they can do so with impunity.

The Municipal Government of Washington, DC, is an independent, international city-state, ruled over by the members of the Municipal Congress acting as a plenary oligarchy.

The Municipal Government works for the Municipality of Washington, DC, which is a completely separate city-state and nation unto itself, complete with its own flag (white with three red stars), and it counts the Federal Civil Servants, US Corporations, and Federal Welfare recipients as its "citizenry".

All of these people and corporations are designated as US CITIZENS permanently domiciled in the Municipality of Washington, DC, and held in the thrall of this criminal "government within a government".

Many of you have been confused and feeling uneasy. Things just don't add up. And we aren't just talking about the virus and masks or even about Federal Code violations.

The Municipal Government continued to function after the Civil War and because we "fell asleep" and didn't show up to work, the vermin in Congress usurped more and more power unto themselves using the city government of Washington, DC to do it.

They've been running their own covert and criminal government in competition with our government and with the British Territorial Government, too, right under our noses.

These Pikers are foreign enemies with respect to us, and domestic enemies with respect to the Territorial District Government, a fact that is becoming more and more clear every day.

And they are all being run into the ground by the Pope, who owns both bankrupt governmental services corporations.

Now, think of the convenience of having all your henchmen and women wearing masks in public? Ready to attack the vulnerable and confused people of this country?

In most states, it is a felony level crime for anyone who is carrying a concealed weapon to wear a mask.

Think about it. And throw away the masks. They aren't helping anybody's health, but they may be hiding criminals in broad daylight.

The greatest threat we now face comes from the people sitting in the US Congress, and the odds are not good. By my count, a third of them are mentally incompetent, and two-thirds of them are criminals.
