

Mis-Focus

By Anna Von Reitz

While everyone's attention is focused on the Circus Maxima taking place in Washington, DC, complete with the pot calling the kettle black, and all sorts of "investigation" intrigue taking place all over the world --- it turns out that the "Russian Collusion" was actually about Joe Biden, Nancy Pelosi, John Kerry, and Mitt Romney, all four, very gainfully employing their children in what used to be called Russia -- the Ukraine.

Name games, again.

Apparently, leaders in BOTH political parties are compromised for the same sins and likely to be painted with the same brush of corruption once the dust settles, so that's why Romney and his RINO buddies are trying to justify impeaching Trump with no credible evidence of wrong-doing on his part at all.

Ukraine was just such a honey pot, they couldn't resist.

And now, they are scared.

With the lowest unemployment rate in 50 years and lower and middle income families gaining net income for the first time in a decade and average life expectancy in this country on the rise, and many other indicators of Trump's success physically hitting home throughout America, all their lies sound increasingly hollow.

So, what do they do? They unleash the deadly and naturally occurring Nipah virus and the Corona virus engineered by Bill Gates, at the same exact time, in China, to signal their displeasure with the China-Trump Trade Deal.

Reminds me of little kids getting mad because they can't win a softball game, and taking their bat and ball and going home. If they can't bilk China, and extort racketeering and protection money from China, then nobody else is going to be able to do business with China, either.

Unfortunately, their home is here, in America---- and we have the responsibility of dealing with these Infant Terribles. Sooner or later, it's going to come down to dragging them out of the halls of Congress, out of St. Peter's., and out of the banks and military as well.

We have to do it, and there is nobody here but us chickens.

So, we need to wise up our Democrat friends who are still in a daze from decades of glutting at the trough and assure them that, yes, the dirty laundry is in full view. The Unions, the Mob, the Oil Companies, Blackwater, Vanguard, Homeland Security, both the RNC and DNC, the FED, the "Marshal Plan", the banks ---- all of it.

Turns out that Wells Fargo was Crime Central in the time period between the Twin Towers and the 2008 Meltdown. They and Lloyd's used a three-partner fraud scheme using off shore trusts to generate fake accounts and then created fake mortgages, securitized these as "mortgage backed securities" and sold them to investors on

Bloomberg..... Wells Fargo and Wells Fargo N.A. and Merrill-Lynch in America, Lloyd's BIL, Bank of Scotland, and HBOS, PL in England. Same scheme. They bilked the public and the SEC and the IRS for billions with a "B".

And they weren't even breathing hard; all it took was a couple real con men and offshore "trusts" in Jersey and Puerto Rico.

Now the cows are coming home and millions of innocent Americans and Brits are again being dunned for debts they don't owe--- debts that actually belong to foreign corporations that folded their tents a decade ago.

And the courts are again turning a blind eye to all this and pretending that they have such a thing as "the Rule of Law" which is only the rules of the court, which the court gets to determine on a "local level" ---- i.e., they make it up as they go along.

Don't take any wooden nickels and don't mistake a securities corporation operating under the trademark of a bank for a bank. Also, don't mistake "the Rule of Law" for any actual Law, Public or Private. It's all up for grabs now, and every man or woman for themselves.

This system is going down, on the sheer weight of its own criminality and refusal to correct. What comes after is being determined by those of us who are awake and moving forward to restore the actual and lawful government of this country.

Do not delay taking action to declare your political status and get your claims in place.

In Ancient Egypt they had the "Book of the Dead" and the "Book of Life". These correspond exactly to the Register system (Book of the Dead) and the Recording system (Book of Life).

Be sure that you move your Good Name out of the jurisdiction of the "dead" corporations. Keep your nose to the grindstone and your eye on the ball, because sure as I am sitting here, all this fraud and corruption is coming to a head.

All those who are "dead" and written in the Book of the Dead and who have not made the effort to reclaim their "live status", will lose their identity and their inheritance. The Evil Doers fully intend to feast upon these "abandoned" estates and to profit from their own deceits and disgusting practices.

It's up to you to make up your mind and pull your own chestnuts out of the fire, but if I were you, I'd be moving at light speed to rescue my good name and my identity as a lawful American Person and making sure that it gets recorded.
