

Public International Notice of Fraud by "Global Sovereign Monetary One"

By Anna Von Reitz

This Notice of Charges pertains to the entity and entities referenced as attachments to the World Bank and to the United Nations as herein self-described:

<https://ruskazna.su/en/rezolyuciya-019-en>

It appears that this fraud was initiated almost two (2) years ago by a person or persons unknown against the interests of the entire world population and the actual owners of the gold, silver, and other physical assets maintained in the referenced funds.

1. To my certain knowledge as Fiduciary of The United States of America, herein and throughout clearly meaning our unincorporated Federation of States, the gold and other assets contained in the referenced accounts (see link above) belongs to and is under the ownership of Demitrius Julius Shiva, a fully patriated South Carolinian, who is indemnified by this government;
2. To my certain knowledge as Fiduciary of The United States of America, then-President James Carter, committed gross fraud or error and acted in breach of trust in 1980 by transferring Birth Certificates attached to the estates of living Americans to the International Monetary Fund and pretending to have authority to declare the property thereby misrepresented as stateless abandoned collateral;
3. To my certain knowledge as the Fiduciary of The United States of America, certain officials of the Government of the Philippines have acted in similar gross fraud and breach of trust, by pretending to have authorities based on powers exercised by Ferdinand Marcos in his private capacity as an attorney for Severino Sta. Romano, and his powers exercised as President of the Government of the Philippines created in 1934 to act as Trustee for our gold transported by the U.S. Navy to the Philippines for safe-keeping in the years prior to 1934 and afterward;
4. To my certain knowledge as the Fiduciary of The United States of America, we are the presumed Donors of all such trust assets as well as the legitimate Beneficiaries and it is our Federation of States that owns all control over these assets in international and global jurisdiction by prior claim and reversionary interest under Operation of Law;

5. To my certain knowledge as the Fiduciary of The United States of America, Demetrius Julius Shiva lawfully obtained the wet-ink signatures of eighteen (18) other trust owners, heirs, and/or managers on permanent unlimited Powers of Attorney recognizing him as the lawful inheritor/Possessor of the assets, some of which have been listed in the offending and fraudulent claims of the so-called "Global Sovereign Monetary One";

6. To my certain knowledge as the Fiduciary of The United States of America, certain officers of the Central Intelligence Agency (CIA) conspired to extract Demetrius Julius Shiva from Eastern Europe during Soviet occupation and to re-settle him as a "permanent resident of the United States" so as to obtain an undisclosed and merely presumed to exist custodial relationship with him;

7. To my certain knowledge as the Fiduciary of The United States of America, no such custodial relationship was granted to the Municipal United States corporations, and the only actual government still standing then or now in international jurisdiction is the government provided by our Federation of States and the specific States of the Union;

8. To my certain knowledge as the Fiduciary of The United States of America, certain persons have sought to avoid the Orders of the Federal District Court of Illinois concerning the settlement of the estate of Severino Sta Romano and naming Demetrius Julius Shiva as the lone claimant/executor of the estate of Severino Sta Romano;

9. To my certain knowledge as the Fiduciary of The United States of America, the United Nations organization, the World Bank, the Global Federal Reserve System and the Bank of International Settlements have all been informed and have cause to know that Julius Demetrius Shiva is the lawful inheritor, that he is permanently settled in South Carolina, and that he is not subject to any custodial interest advanced by any Municipal Corporation or Municipal Corporation officers;

10. To my certain knowledge as the Fiduciary of The United States of America, over 5,000 private trusts have been illegally and immorally seized upon by these referenced Municipal Corporation Officers headquartered in the District of Columbia and misrepresented in Breach of Trust as abandoned heritage trusts and millions more individual trusts misrepresented as legacy trusts, have been misappropriated in a scheme to defraud the actual owners and beneficiaries and establish a world government ruled over by corporations;

11. To my certain knowledge as the Fiduciary of the United States of America, this circumstance is a long-term communist plan to overtake the lawful national governments which have been blamed for the war-mongering that has been promoted instead by unregulated and lawless commercial corporations --corporations that have been allowed to run wild by those authorities entrusted with the responsibility to regulate and discipline the legal fictions inhabiting the jurisdiction of the air;

12. To my certain knowledge as the Fiduciary of The United States of America, these lapses, misrepresentations, fraud schemes, assertions of custodial interest, thefts, unlawful conversions, and other white collar crimes indulged in by corporations and their officers are the responsibility of the Roman Curia and the Pope and all stand under Ecclesiastical Law;

13. To my certain knowledge as the Fiduciary of The United States of America, all general jurisdiction is granted on a permanent basis together with all interest in physical assets according to the land and soil bequeathed to each nation;

14. To my certain knowledge as the Fiduciary of The United States of America, all credit issued and based upon physical assets is owed to the grantees of the land and soil jurisdiction;

15. To my certain knowledge as the Fiduciary of The United States of America, the scope of the fraud herein described is unprecedented in the history of the world, yet it hinges on one theme: a concerted effort to misrepresent living people as things, whether those things are various kinds of corporations, or mislabeled as slaves, or "deemed to be" Genetically Modified Organisms, or otherwise deliberately denied their actuality and meaning for purposes of crime;

16. To my certain knowledge as the Fiduciary of The United States of America, the "Global Sovereign Monetary One" has no legitimate claim or authority over our assets and has not been appointed by myself or Demetrius Julius Shiva or anyone else having true and natural standing as owners or trustees of these assets to act as a substitute Trustee or Inheritor, nor have any right to determine the ownership, distribution, or use of the assets and trusts that belong first and foremost to the living people of this world, and secondarily, to their lawful national governments;

All the above is true, complete, and not contrived or damaged by any purposeful omission or misrepresentation. These charges are brought freely and without coercion from my position in general jurisdiction and with the authority of my lawful office. These wrongs must be righted and the Principals and Officers of the sea and air jurisdictions are hereby held responsible for correcting them without further obstruction or delay.

So said, so signed, so sealed this 30th day of [August 2023](#) in Big Lake, Alaska:
