

Mother's Day Decrees

Alaska State Superior Court
c/o Box 520994
Big Lake, Alaska 99508

International Decree of Cease and Desist
International Decree Requiring Re-Venue and Release
International Decree Rejecting Claims On Abandonment

It has been brought to our attention that the State of Alaska Territorial United States franchise and its STATE OF ALASKA Municipal United States franchise, have been engaged in a repugnant form of crime on our shores and are guilty of violent trespass against their employers, the unincorporated Alaska State, which is owed The Alaska Statehood Compact, and the people of Alaska. See Alaska Session Law and AS 45.77.020.

The form of this crime amounts to strong-armed conscription of Alaska State nationals under false pretenses and imposition of coerced private adhesion contracts solicited under threat of kidnapping, which results in seizing upon the babies of natural Alaskan parents and presuming that they are: (1) wards of the State of Alaska; (2) abandoned property; (3) obligated to act as Municipal United States citizens and to donate their names and estates to the benefit of the State of Alaska.

This is a most venal form of international inland piracy and racketeering for which the State of Alaska is fully responsible, as it has employed and allowed the STATE OF ALASKA to be present and to trespass upon our soil as a consequence of its own contract with the Alaska State to provide "essential government services".

It is therefore Ordered that both the State of Alaska and the STATE OF ALASKA cease and desist all such solicitations of private citizenship contract, all pretensions that such solicitation is in any way a "government mandate" applicable to natural born Alaskans, all activities related to the continuance of this foreign and repugnant practice on our soil, and to immediately begin corrective action to bring remedy on the land and full cure and maintenance on the sea.

All people born on and from the soil of the Alaska State are Alaska state nationals at birth and the Alaska State claims them at birth without exception. Their Persons are defined as American State Vessels engaged in peaceful International Trade and as Protected PERSONS owed all guarantees of the actual Constitution for the united States of America whenever they venture into the realm of Commerce.

As employees of the Alaska State, both the State of Alaska and the STATE OF ALASKA subcontractor, are required to correct and return the Birth Certificates they have acquired by fraud and racketeering carried out under color of law on our shores and to also immediately return and re-venue the given names of Alaskans which they have unlawfully registered, patented, copyrighted, and trademarked without full or adequate disclosure, together with all land patents, titles, and other property assets and material interests owed to the Alaska State and people. All such purloined right and interest must be returned to the lawful Holders in Due Course.

It has also been brought to our attention that the parent corporations of the State of Alaska and STATE OF ALASKA operating similar "state of state" franchises in other land jurisdiction states have brought similar false claims of abandonment and "decendent status" against the people of the actual United States as a whole, and that natives of other states now living in Alaska as well as Alaskans are being threatened and defrauded by secondary creditors of the UNITED STATES, INC. and THE UNITED STATES OF AMERICA, INC. and the UN, INC., and E PLURIBUS UNUM THE UNITED STATES, INC. and E PLURIBUS UNUM THE UNITED STATES OF AMERICA, INC. and other Territorial United States and Municipal United States corporations.

The Alaska State Superior Court hereby extends the protection of these Decrees to all natural-born and lawfully naturalized nationals of all other union states living within its jurisdiction, which is established and defined by the geographic borders of Alaska, and orders the Alaska State Troopers and Alaska State Militia to intervene and prevent all and any presumptive enforcement actions undertaken by the STATE OF ALASKA or State of Alaska personnel based on the above-described undisclosed forced private contract and conscription process carried out by foreign corporations that are in fact employees of the victims of this scam.

All merely presumptive claims based on Birth Certificates, enrollment in Social Security, possession of Driver Licenses, Marriage Licenses, Mortgages benefiting the State of Alaska or STATE OF ALASKA and similar presentments are hereby released and all such documents are declared suspected prima facie evidence of crime subject to confiscation by the lawful authorities.

So declared and decreed this 12th day of May 2017 by Judge Anna Maria Riezinger, Alaska State Superior Court and witnessed by her signature and the Seal of the Alaska State Superior Court:
