Our National Probate v. Their National Bankruptcy

By Anna Von Reitz

The UCC filing above was done in 2011 by Everton Rocha. I have never met him, but I understood immediately what he was doing. He was covering his butt. I immediately did the same thing, with a twist--- I covered my own and everyone else's butts, including the states of the union, all the way back to 1860.

I don't know what is so "mysterious" about this document for so many people. To me it is plain as day. The named Debtors owe the original Treasury the entire amount of the so-called National Debt, plus penalties.

Everton filed and gave notice that he was extracting his ESTATE out of the giant slush-pile. I gave similar notice and step-by-step retrieved and extracted everything all the way back to the original States of America, which means: California, Vermont, Florida, Wisconsin, Alabama.....

In international jurisdiction there are no real people, there are only "persons" and "beneficiaries" of persons who may be named as creditors or interest holders. This is why your actual states (not any corporate franchises operated as states of states) have sovereignty in international jurisdiction both on the land and the sea.

Now, remember that thanks to The Definitive Treaty of Paris 1783 and The Constitution for the united States of America, these international "powers" of your states were granted first to the unincorporated entity known as The United States of America, and then nineteen enumerated "powers" were further delegated to The United States operated by the British King.

Also remember that when you operate in this strange people-less international jurisdiction of the sea you must do so via a "person"----either unincorporated or incorporated.

These "persons" are named like ships are named and they operate either as trading vessels or as commercial vessels depending on where they are domiciled.

A vessel domiciled on the land of an American state is by definition unincorporated and must be recognized as an American vessel engaged in peaceful international
trade. Such vessels fly the Civil Peacetime Flag of the United States, which has distinctive vertical stripes.

A vessel domiciled in the federal territorial jurisdiction or the federal municipal jurisdiction has to be recognized as an incorporated franchise—a U.S. commercial vessel that is engaged in perpetual warfare. All these vessels fly the Wartime Flag of the United States known as the Stars and Stripes.

Your peaceful American states are known simply as Wisconsin, Alabama, and so on, and their unincorporated businesses are known as the Wisconsin State, Alabama State.... et alia. Your peaceful Trade Name domiciled on the land and having the form: John Jacob Johnston can also serve as the name of a trading vessel on the sea--- a peaceful American Trading Vessel.

But, if you fly the wartime flag of the United States, your vessel can easily be mistaken as a US Commercial Vessel operated as a Foreign Situs Trust by the federal territorial United States as "John Jacob Johnston" or the municipal United States as "JOHN JACOB JOHNSTON".

FDR took advantage of these unknown facts to betray and enslave and saddle everyone in America with the debts of a private, mostly foreign-owned governmental services corporation merely calling itself "the United States of America"----Inc. And his swindle worked. He let the bankruptcy trustees loose on the unsuspecting American public and these evil men simply "presumed" that everyone using a name in the form: John Jacob Johnston (Upper and Lower Case) must be a U.S. Foreign Situs Trust, liable for the so-called "National debt."
They just didn't mention which nation--- ours or theirs.

We wound up paying for all the debts of the Territorial United States wracked up by the United States of America, Inc., and at the same time, the Municipal United States government, another corporation merely calling itself the UNITED STATES picked up the service contract and created a whole flotilla of Cestui Que Vie trusts named after us---- JOHN JACOB JOHNSTON, MARY ALICE COMPTON, LILIAN MARIE GROSSKREUTZ.....

So now the UNITED STATES is in Chapter 7 bankruptcy, and our ESTATE vessels gratuitously created "for" us by the US DEPARTMENT OF COMMERCE and "removed" to "Puerto Rico" for "safe-keeping" without our knowledge or consent, are again being "presumed" to be chattel property and unclaimed accounts belonging to the UNITED STATES---- and being subsumed into the bankruptcy and liquidation of the UNITED STATES.

Mr. Rocha saw that coming and put up his hand--- "Not my ESTATE! My estate belongs to the living man---the one with hands and legs! Extract ME out of this mess and recognize the actual creditor who is owed the entire debt!"

I did the same thing, only I expanded on it---- and made the claim for each one of the States and all the living people not only against the Debtors named in this document but all the other DEBTORS and Debtors, too---- against the STATES OF STATES and the States of States, against MICHAEL DAVID DOE and Michael David Doe, U.S. Foreign Situs Trust, and MICHAEL D. DOE, a U.S. Public Transmitting Utility and MICHAEL DAVID DOE a bankrupt CITIZEN ORGANIZATION and so on and on and on.
And I just kept rolling it all back so that layer by layer, the actual states of the Union and the actual living people of the land jurisdiction were established as the Paramount Security Interest Holders and Priority Secured Creditors of the whole rotten shebang.

This took hundreds of filings. This was all done and all carried out at my own expense and the expense of a few other Americans who served notice and established liens—both non-UCC and Agricultural Liens for every state and every American.

Then we published the Private Registered Indemnity Bond covering all the actual states of the Union. Taken all together, we hold Title, Lien, and Bond for every state and every American.

OPPT did something similar.

Unfortunately for OPPT, it is not and does not represent the actual Paramount Secured Interest Holders, nor is it a Priority Secured Creditor. We are. The American States and People.

OPPT is a Secondary Creditor representing the interests only of the Territorial and Municipal Citizens, people like Bar Attorney Heather Tucci-Jarraf.

My husband and I are actual people who live on the land jurisdiction of the United States. All our "vessels" (names) are domiciled permanently on the land and soil of our respective birth states of the union—and we have the family histories and public records fully establishing that: (1) our families have been here since 1609; (2) we are free sovereigns in our own right; (3) the "National Debt" and all penalties related to it are owed to us and to our actual states of the Union and our countrymen. Not our bankrupt spendthrift employees.

So when we show up at the Foreclosure auction and the Bankruptcy proceedings and we tell the Bankruptcy Trustees that we are the Paramount Security Interest Holders and Priority Secured Creditors presenting our selves and our own interests without reference to our employees----guess what?

That throws all the Secondary Creditors into the backseat, where they belong. They are welcome to discharge the debts of their Persons/PERSONS in bankruptcy, but as for us, we are owed not only the discharge of debts accumulated by any federal "persons" operated in our names without our knowledge or consent, but the return of all our purloined assets, free, clear, and unharmed.

Thus a giant national bankruptcy of the Territorial and Municipal United States is underway at the same time that a giant national probate releasing the assets of the actual United States is owed.

And that is what the mysterious filing by Everton Rocha and all the various follow-up filings accomplished by me and my team are about---extracting our states and all our good names out of the bankruptcy slush pile and bringing forward the claims of the victims of all this fraud reclaiming their Cestui Que Vie ESTATES.
We have done all this in support of you. What have you done in support of yourselves? In support of our effort? These vermin tried to take everything you have via another swindle and nobody stood up, but us. The Pope? Too busy covering the guilty Church's butt. The Queen----? Our "Trustee" on the "High Seas and Navigable Inland Waterways"?---- too busy reaching for her smelling salts. The Lord Mayor of London who owes us "perpetual amity and friendship"?-----snarling behind his filthy red dragon and the green, black, and white dragons, too, for all the good it will do him.

Come now, wake up. Wake up all the way. Get motivated. Get moving. Spread the word. We have the weather-gauge and are bearing down, but it is up to each and every one of you to educate yourselves and your families and your friends and your communities countrywide. It's up to you to support us and the work we have taken on. All this had to be done by just a few volunteers using their own resources. Now we need all of you to weigh in and shove.
