

International Public Notice: There Better Not Be Any "Boom"

By Anna Von Reitz

There had better be a peaceful and rational and orderly procession to the negotiation table and the negotiation that needs to take place is about the money and the credit and public elections and cessation of occupation.

Nothing else. No grandstanding. No excuses. No heroics. No blowing up landmarks. No nonsense at all. Just clean up the actual mess that the U.S. Military and other military organizations have caused, either by ignorance or collusion, and be done with it.

The hired U.S. Military is culpable for the illegal occupation of this country for over 160 years, plus all the resulting misadministration, abuses, and theft that has been experienced by our general population.

They are not responsible for the voter fraud that occurred in 2020, and in fact, that fraud isn't even actionable, because the popular vote doesn't count.

So everyone can stop wondering why the Perpetrators of the fraud haven't been strung up and also stop wondering why the Victims haven't been able to successfully press charges.

People all over the world are astonished, but the fact is that the U.S. President is not elected directly by popular vote and never has been. The U.S. President -- the office that Donald J. Trump is still occupying -- is elected by the Electoral College.

So all that smoke and mirrors sideshow known as the Presidential Election, all the debates, the whistle stop campaigns, the photo opportunities --- it's all just for show, to make people think that their vote counts and that this "race" for the Presidential Office is a big, big deal ---- when in fact, they have never had a vote that counted.

Ever.

Not since the founding of the government.

The Office of the President of the United States, Inc. is a corporate presidency; so is the Office of the President of the United States of America, Inc.

And both of these corporations are foreign to this country.

The underlying organizations haven't always been corporations, but they have always been foreign, and the results of their elections of these foreign Subcontractors have always been the result of votes cast by foreign shareholders known as "Electors" who are members of the Electoral College, not the people on the street.

These are private elections, not public elections.

The idea of the political parties and all the immense drama promoted to give people the idea that these elections were their public elections was purely deceit to prevent people from waking up and understanding the facts.

These political party elections are just popular straw polls that do nothing but show which candidate is most popular with the public. They have nothing to do with the actual election results.

Some Electors in the Electoral College may be swayed, and may vote in sympathy with the public, but that's it.

All that frou-frou-rah is for nothing but "show".

Put in context and in another way, what we should be witnessing is the public election of The President of The United States of America, that is, the President of our unincorporated Federation of States, and what we are witnessing instead is the election of the "President" of our British Territorial Subcontractor, the United States of America, Incorporated.

What we should be witnessing is the public election (properly styled since 1851) of The President of The United States, not the President of the United States, Inc., instead.

Political Party-sponsored elections are just another British con job, another Roman deceit, another Big Blarney on Steroids fraud against the American people, who innocently troop to the polls in November, and sit up late waiting for the results --- of a straw poll.

This is why Donald Trump can get no traction on the election fraud issue. There is no law against rigging straw polls because straw polls don't count. There isn't any requirement for the security of such "elections".

You might as well go on YouTube and "vote" for which brand of toothpaste you prefer.

Is this fraudulent misrepresentation? Yes, of course, it is. But, technically, they have advertised the role of the Electoral College from the very beginning.

As for the military that has overseen this entire horror show and benefited itself and done nothing credible to expose it or change it, a military that has taken their paychecks and evaded their contractual obligations to us --- it has nothing to crow about and no role to play, except to come home and do the right thing.

No more wars by proxy in Ukraine. No more "war" against civilian populations in the quest for oil profits in Gaza. No threats to blow up 34

landmarks all over the world in an effort to distract attention from their own misdeeds.

At this point, the fraud has been ongoing for 164 years. Nobody inside or outside the military who started this fraud is alive [today](#). Ulysses S Grant is long dead and gone. So are Abraham Lincoln, Salmon P. Chase, and William H. Seward.

The men who inherited the fraud from them are all gone, too. "Colonel" Mandell House, Woodrow Wilson, Franklin Delano Roosevelt --- long gone.

The best advice came from Yehoshua -- let the dead bury the dead. Be done with it. Come home. Clean up the mess. Have the good grace to realize what you have been involved in and seek amnesty from the people you have wronged.

Don't add to your sins and errors, just collapse the tent and come home. We won't blame good men who have done wrong things by being misled, but we will hold bad men accountable.

Anyone who claims to be a "White Hat" had better be standing for truth, peace, and life, not more of the same-old same-old.

The only "Boom" we want to hear in July is word that the debts of the United States, Inc. and the debts of the United States of America, Inc., have been transferred to the actual Federation of States and the people of this country as credit.

We want to hear the same thing about Australia, England, Germany, France, Japan, and all the other countries that have been similarly abused and defrauded by foreign Territorial and Municipal corporation franchises in the business of providing "essential government services".

We wish for all the bogus "State" trusts to be dissolved and returned to the people and to the control of their lawfully elected deputies. We wish for the

State of State Legislatures to be educated about the limitations of their actual powers. Ditto the Territorial and Municipal Congress members.

We wish for good faith and assistance in conducting our own lawful public elections. Not more British Territorial slime bucket excuses and subterfuges. No "booms" in July; nothing "totally unexpected" and no more nasty surprises at all. No more "open borders". None of it.

We wish for the orderly adoption of the American Federation Dollar and the recoupment of Federal Reserve Notes and the issuance of lawful prepaid credit certificates.

The people of this country and every country on this planet wish for peace and prosperity, freedom and brotherhood, a healthy, clean environment, joy, creativity, and a place to call home.

Consider it your business--- your only business--- to respect the diverse races, cultures, and religions of the Earth, and to promote the happiness, wholeness, and self-governance of every living man and woman.
