

International Public Notice -- There Are No "Confederates"

By Anna Von Reitz

Notice to Agents to Principals, Notice to Principals is Notice to Agents

To All to Whom These Presents Come:

It has come to our attention that some misguided Parties in the international community -- having been deprived of the oxymoron "sovereign citizen" in their efforts to label dissenters -- have now hit upon the idea of calling anyone who disagrees with their program a "Confederate".

This is only slightly better than an oxymoron, in that a "Confederate" could exist, however, none does -- at least, not in this country.

A "Confederate" would be a member of a "Confederation" and as we have been at pains to explain for several years now, our Confederation of States-of-States no longer exists.

It was rendered inoperable in 1861 and has never been Reconstructed by the actual States, which also leads to the Federal Republic which was operated by the Confederation being in similar condition.

Both the Confederation of States and the Federal Republic remain as vacated parts of our Government, and owing to their nature and definition, they cannot be repopulated without action by our actual States of the Union.

Even if the American States-of-States were to be reconstructed, there could be no presumption about the political disposition of newly elected delegations acting in a completely different time and place.

That is to say that the label "Confederates" used to invoke the idea of a militarized enemy force still engaged in the paradigms of the Civil War, would be ludicrous even if our Confederation of States-of-States organizations was fully restored.

Please discourage the use of this label as well as the oxymoron "sovereign citizen" and promote the correct respect for the Inheritors who take against the Will of others.

Our people are born as free men and women and are not obligated to fall in line like so many dominoes. They have no citizenship obligation at birth and are not natural donors of the Unum Sanctum Trust.

Any attempt to mischaracterize our people, label them, or trespass against their Natural Rights, is an attempted crime and violation of our Laws and Customs; such activity also violates the constitutional contracts and associated guarantees established in support of our Laws and Customs.

Let all foreign Service Providers be properly educated and informed, and be taught from now on to render their services in good faith.
