

There Are No Contracts Under American Common Law

By Anna Von Reitz

The immediate result of the foregoing fact is that no contract applies to any American.

Remember how I explained the advent of the King's Equity Law in the 1750's, and the creation of "Special Admiralty" provisions under the direction of Lord Mansfield, and the resulting pollution of British Common Law with Admiralty Law?

This relatively new form of law was called "Equity Law" or more properly, "King's Equity Law" ---- basically, the King claims to own you and your property, and his thugs and bill collectors get a cut of whatever they can steal.

The freedom to contract arises under that law, and is a pillar of The Constitution of the United States of America, and the British Territorial Government in general. The creation of Special Admiralty courts to serve British Subjects acting as federal Subcontractors was made possible by the Judiciary Acts in the early 1790's.

Their freedom to contract into and to stand under the British system was thus preserved, and anyone wishing to act as a British Subject and claiming their substance under The Constitution of the United States of America was welcome to do so.

But Americans do not claim our substance or political status from any provision of any Constitution, and do not subject ourselves under British Equity Law -- which makes it impossible for the Brits to pillage us, until and unless they establish a claim that we are British Territorial U.S. Citizens and have exercised our "right to contract" into their system and accepted their citizenship obligations.

They have attempted to do this and to establish contracts with us while we were still babies in our cradles. This results in a thoroughly "unconscionable" contract --- one that we could not possibly be aware of, but which left uncontested, stands by default.

So millions upon millions of Americans have been conscripted and press-ganged using this thoroughly despicable and undisclosed process and they have been "deemed" to be British Territorial U.S. Citizens under contract and under subjection to the King's Equity Law --- meaning the King's Equity in your person and your assets, which is also deemed to be absolute.

And the Hired Jurists of the King lose no time in taxing and harassing and fleecing the victims blind.

Americans, however, have the equal right not to contract.

We function entirely by simple and honorable agreements ("Let your yes be yes and your no be no.") and thus avoid the specter of conflict created by contracts.

Our Common Law does not allow for such things to exist, because we wisely admit our inability to guarantee contracts and even our limited ability to stand by honorable agreements--- owing to the fact that we are mortal and presently subject to death and disease and misadventure and disability.

The King's Henchmen have pretended that our right not to contract disappeared with the inoperable American Federal Republic, but that is self-evidently false; the incompetence of a subcontractor in no way impairs or changes the rights and prerogatives of their Employers.

Following their initial "bid" to own us and to claim that we voluntarily contracted into their foreign system as babies, they foist off a bunch of adhesion contracts by making improper demands under color of law.

These demands include but are not limited to: demands that you obtain a Social Security Number as if you were a Federal Employee, demands that you obtain a Marriage License as if you were a slave who needed permission to get married, demands that you get a Driver License as if you were engaged in making commercial profit off the public roads, demands that you get a vaccination as if you were a cow or an experimental animal, demands that you wear a mask because they might get a cold, demands that you pay Federal Income Taxes when you don't have a shred of "Federal Income", demands that you pay mortgages owed by the King.... and the list goes on.

All this fraud hinges on your right to "voluntarily" contract into their system, but as we have demonstrated, Americans have no reason to contract into their system and do not stand under the King's Equity Law.

So all of this is nothing but fraud against you and that means fraud against their Employers. They are usurpers who have deliberately and under color of law created and pillaged public trusts operated in your names as a means to divest and defraud you of your rights and assets.

No amount of shilly-shally can deny the wrongs that have been perpetuated against innocent gullible Americans and millions upon millions of other people throughout the world via the use and misapplication of so-called Equity Law which by definition is no law at all but the judge's "discretion" concerning how much he or she can get away with, without exposing the fraud and misapplication of this foreign "law" to Americans.

The cat is out of the bag and the history of it, too. Any Hired Jurist playing this game with our people will be up for more than getting sacked for it.

As of [November 5](#) of this year no American will be liable for any contract.

Your homes and houses will be yours, your land and soil, also. Your Good Names will be returned, unharmed, and you will not be harassed under any False Legal Presumptions going forward.

But you must declare your standing as an American. You must uphold your birthright political status and you must record your interest in your Good Name and identity as an American.

We have by dint of hard-slogging established and proven the lawful standing of every State of the Union, and also the standing of our Union of States and our Federation of States.

A complete restoration of the American Government including the reconstruction of our Confederation and our Federal Republic stands upon the horizon.

If you wish to live as free men and women, the gateways stand open and you know what you have to do: exercise your right not to contract.
