

# No Dog in the Fight

By Anna Von Reitz

You have elected all these jokers in good faith, assuming that you were electing them to public office. They have occupied similarly named private corporate offices instead, and left the public offices vacant.

Read the Foreign Sovereign Immunity Act (FSIA) and the International Organizations Immunity Act (IOIA) for blatant proof of what they have done.

You thought you elected Fiduciary Deputies to conduct your business in Congress, but no, they redefined their role to be mere "representatives". They then "represented" you any way that padded their pockets and boosted corporate profits.

See their Amendment to their phony corporate "Constitution" published in 1868 that changes the accountability of "US Senators" making them only accountable to their peers in Congress. Being a Senator is as close to being "king" as it gets. They can't be recalled by the people who elected them. And you have allowed all this crap, because frankly, you and your parents and grandparents have been asleep at the wheel.

You have believed that the "federal government" was your government, but in fact, it has always been a foreign service vendor operated by British Subjects here on our shores to provide "essential governmental services". Read Article IV of The Constitution.

Go back and read the actual founding documents --- the Definitive Treaty of Peace, Paris, 1783 spells it out. There are two populations in this country and there always have been: "free, sovereign, and independent people of the United States" and the British Subject "inhabitants" loyal to the King, here on our shores to provide "essential government services".

The same treaty reveals that King George III remained the acknowledged "prince" and Arch-Treasurer of the United States after the Revolution.

That thing in Washington, District of Columbia, is not your government and it never has been. It is a foreign, self-interested--- and since 1868--- incorporated

entity that is in the business of providing governmental services under contract.  
Period.

It's the governmental services equivalent of Exxon.

Your states of the Union were its original customers. They agreed to receive and pay for nineteen strictly enumerated services spelled out in The Constitution----all of them carried out in the international jurisdiction of the sea.

But, corporations being corporations, they've drummed up business however they saw fit, often via extortion (IRS) and racketeering (Social Security, Obamacare, etc.) and theft (BLM).

The agents of the "federal corporation" routinely lie to you and tell you that you have to buy something or pay something or take some action (like signing up for Social Security) because it is a "government mandate" and you are stupid enough to go along with this, so they continue to get away with it.

They routinely criminalize normal activities of common right, like traveling from Point A to Point B or getting married, so that they can charge you for "licenses" and "regulate" your private business as "commerce". They consider all "United States Citizens" their slaves and all "citizens of the United States" are defined as criminals.

Read the 13th and 14th Amendments of their bogus corporate "Constitution" more carefully and you will see what has gone on.

In their 13th Amendment they abolished slavery---- except for criminals. In the 14th Amendment of their filthy look-alike, sound-alike corporate charter document, they made all "citizens of the United States" criminals. By definition. And then they have contrived to define all of us as "citizens of the United States" by any means fair or foul.

We have played unwitting host to the most vile, venal, oppressive, out of control crime syndicate in the history of the world, and we have mistakenly thought that this THING was our own dear government and paddled along like good little ducks, acting in good faith, doing whatever we were told.

Imagine that you are a magazine publisher and you can order 390 million people to buy three subscriptions or six subscriptions or a dozen subscriptions each....and the limit of this abuse is only what the victims will tolerate?

That's what you have going on in Washington, DC, but it is actually much, much worse than that.

These vermin have gotten away with their abusive profit-hunting for so long, that they have promoted violence and piracy and criminality throughout the world.

These people are all British Subjects and they are commandeered as such ---literally press-ganged and falsely identified as British Subjects--- the moment they take an oath of office or accept a federal job or are herded like sheep and coerced under false pretenses into accepting a "Social Security Number".

These British cons have hidden behind our skirts and used us as front men to carry out their dirty work, so that the Americans are being blamed for it all.

This is what comes from allowing foreign governments (both British and since WWII, French) to "share" your country's international jurisdiction and to dictate your trade policy and issue your money and wipe your butts for you.

There are two main (and many subsidiary) federal corporations providing you and their franchises operated as fake "states of states" with "governmental services".

The IMF has operated the UNITED STATES, INC. on our shores and that vicious fraud machine has finally been bankrupted and forced into liquidation. The FEDERAL RESERVE has operated THE UNITED STATES OF AMERICA, INC., and it has been forced into Chapter 11 bankruptcy.

So now we have Jacob Rothschild here promoting the NEW REPUBLIC, INC., as a replacement for these "governmental services corporations" and the UN Corporation, not the actual United Nations, is shipping in blue-helmeted commercial mercenaries from around the world to keep the peace while these despicable corporations are dismantled and taken down and their assets returned to their creditors.

The Big Problem has been that the Priority Creditors of these vicious crime syndicates have been absent from the table. Nobody has raised their hand or made a "Peep!" in behalf of the actual American nation-states and the living American people who have been the prime victims of all this chicanery, nor have they spoken up for the equally defrauded people of the UK, CANADA, AUSTRALIA, JAPAN, and so on and on.

Instead, we and our assets have remained on the table as the Feast prepared by the Evil Ones for their Secondary Creditors--- the banks and foreign investors they have defrauded in our names without our knowledge or consent--- at the same time they have been robbing and defrauding us.

Which is why I and numerous others have labored for many years to bring forward the claims of the American States and people. We saw the crap the rats pulled during the bankruptcy of the United States of America, Inc. and we haven't sat on our thumbs for another round of it. Instead, we have spent twenty-plus years of our lives documenting the debts owed by these corporations to the actual, factual states and people.

Is this going to cause dismay and disruption? Will it require an armed invasion of Washington, DC? If so, we should be standing shoulder to shoulder with the "Blue Hats" and helping them flush the sewers of the Beltline, not shooting at them---but to be honest, we don't have a dog in this fight.

These corporations are not---repeat, NOT--- our government. They never have been. Both the UNITED STATES and THE UNITED STATES OF AMERICA are just foreign, corporate vendors of governmental services gone horribly wrong.

Our interests are best served by flying our own peacetime Civil Flag (vertical stripes, blue stars) or a simple white truce flag, and minding our own business while the odious debts accrued against us and other nations are wiped away and the criminals are removed.

And, most importantly, we need to wake the @\$@\$ up.

There is no reason for Britain or France or any other foreign interest to control such vital functions of our government as the issuance of our money or dictate our international trade policies or command the deployment of our Armed Forces under color of law.

It's time to renegotiate the contracts, i.e., treaties, to correct this situation and to reorganize our own thinking and assumptions to deal with the truth.

Now that you know the factual and long-standing truth--- that the organization operating "as" your government isn't actually your government and that it is a foreign, self-interested commercial corporation that has not functioned as it is obligated to function---you can get on with the business of operating the government that you are owed: a government of the people, by the people, and for the people.

Our rights and property, which we hold dear, are not being wrested from us by any foreign invasion. They can, however, be lost if we fail to step to the plate and do the job of self-governance mandated by our actual Constitution.

For months now, I have been telling people Coast to Coast to organize their local county governments and to operate as unincorporated associations, because the moment you incorporate anything you remove it from the land jurisdiction and place it (and its operations) under the Law of the Sea and in the international jurisdiction of the sea.

Can the land be represented by the sea?

I think not.

All these incorporated counties and "states of states" are operating in a foreign and improper jurisdiction. They have all been seduced by federal corporation racketeering kickbacks called "federal block grants" and have been taken over by the criminally mis-administered federal corporation(s) and run as franchises, just like Dairy Queen franchises.

The only actual, true, legitimate government standing on the land jurisdiction of this entire country is vested in me and you and the unincorporated organizations that we operate on the land jurisdiction---- the actual county government and the actual state government owed to us is of the people, for the people and by the people, not of the corporation, by the corporation and for the corporation.

So it is imperative that while the international community deals with the bankrupt and criminal corporations that have been operating out of the District of Columbia--- and with the British and French governments which are responsible for those corporate miscreants-- that we, the American people, do our own dusting and cleaning.

The Colorado State is not the State of Colorado.

The Colorado State is the lawful business agent of the Colorado Nation and its people. The State of Colorado is a franchise of a bankrupt foreign corporation.

Now that we have all that sorted out --- please understand that we don't have a dog in the fight that is coming to Washington, DC. Please also be aware that you and your property interests have been properly and faithfully protected.

You need to understand that you are an American state national--- one of the peaceful, honest people of America---not a war-mongering British Subject called a "United States Citizen" or "citizen of the United States" bent on piracy and promotion of corporate colonialism.

If what you want is your country back in your control, with all its peace and property intact, all its constitutional guarantees being honored, then it is time to take the following actions: (1) Record your "Expatriation Act" formally stating that you are a peaceful American State National reclaiming your birthright political status; (2) Organize your local Jural Assemblies; (3) Elect your local government officers--- judges, sheriffs, assembly men, etc. -- to operate the land jurisdiction government owed to you; (4) Pay no attention to what happens to the federal corporation(s) or to the incorporated counties or states of states.

These things aren't your government. They are actually none of your concern. They are just foreign corporations like Target here to provide governmental services to your States, and so long as you have sense enough to realize that that is what they are and maintain your identity as an American State National, not a "US citizen" of any stripe, all will be well with you and yours and the country you love.

Jacob Rothschild is making an offer to buy these bankrupt corporate entities and boot up a new organization calling itself the New Republic. This is calculated to maintain some infrastructure and keep the peace--- but now that you know the truth, you will realize that the "New Republic" is just a re-branding and new management for the whole federal corporate apparatus, and is not your actual government at all. It's just a new "governmental services corporation" coming on board --- and it does not have a contract. It is just offering its services and temporarily providing them.

As with any consumer contract, you aren't any under obligation and neither are your States, beyond paying for actual stipulated services received on a month by month basis.

It will be up to you and your properly elected and actual Fiduciary Deputies to determine whether or not the New Republic gets the service contract and it will also be up to you to operate your own land jurisdiction government quite above and separate from their activities undertaken in behalf of actual British Subjects who are legitimately "United States Citizens" and in pursuit of their duties under The Constitution----the actual one.

It will also be up to you and your actual Fiduciary Deputies whether or not the current oddball arrangement in which foreign corporations get to dictate your foreign policy, your trade policy, issue your national currency, and perform other vital functions that a mature nation should undertake for itself---endures. It has obviously not worked for us and has caused great damage to other nations, so its continuance is not--- in my opinion---desirable for us or anyone else.

We have indeed "spawned a new nation" in the words of Benjamin Franklin. It's time for us to take our place among the nations as a fully functioning part of the world community, instead of playing the role of the Infant Terrible, being jerked around by foreign interests and used and abused to in turn use and abuse other nations.

The British and since WWII the French Governments have used the American people as bullies and commercial mercenaries and have done so in Breach of Trust. They have plundered our assets and mischaracterized us as British Subjects and hypothecated debt against our assets and made false claims against us. They have undermined our lawful government on the land and used legal chicanery as an excuse not to honor their obligations to us in the international jurisdiction of the sea.

Britain, like Cronos, the Father of the Titans, has attempted to eat all its colonial "children" and France has been seduced by the lure of easy money and power to follow suit. Their criminal mis-administration of their faithful, if gullible, Allies stands as a grim warning to the entire world regarding the dangers of letting any incorporated profit-motivated entity provide governmental services.

And now we come to the end of this saga.

The New Republic is just the latest re-branding and new management ploy of the same old perpetrators and though it may be better managed than the old federal corporation, it is what it is, and it is NOT your government, not your Republic---- which you are owed.

In order to enjoy the blessing of your Republic, you have to get off your butts ---and thanks to British chicanery--- reclaim your birthright political status as American State Nationals: Coloradans, Virginians, Texans, etc. Having made that choice very clear, you need to organize your own local Jural Assemblies and elect your own local American Common Law court officers and local county government officials to run the counties owed the land jurisdiction of this country.

The only way to have a government of the people, by the people, and for the people is to accept the responsibility of self-governance. You cannot just "hire" someone to do it for you.

The United Nations and the Vatican Chancery and the Pope and the other governments involved in this fiasco and Jacob Rothschild and the Bank of International Settlements have all been given plenty of Due Process Notice regarding this whole circumstance.

They have Cause to Know that literally billions of innocent people--- not only Americans, but Brits and Canadians and Aussies and Japanese and French and Germans and Indians and.....have been victimized by this criminality in Breach of Trust and contract.

They have Cause to Know who the actual Priority Creditors of these criminal corporations are. Competent Fiduciaries and Witnesses have informed the Heads of State and the Central Banks and the Divine Trust officials.

Your claims and the claims of your states of the Union have been properly brought forward and your assets have been re-conveyed to the land jurisdiction where they

are owed every jot of the original and actual Constitution---and where they stand under the protection of the Spanish King and are not subject to any self-serving "presumptions" by Queen Bess in international jurisdiction.

Slowly, but surely, the same machinery that was abused to press-gang and defraud the living people to enrich the governmental services corporations is being employed and brought to bear to liquidate the offending corporations. That they are being dismantled and their assets seized and re-distributed to their creditors should be a cause of rejoicing and not any cause for bloodshed, strife, or even unrest.

As the Priority Creditors of all these various corporations the American States and the American People are in the cat-bird seat and have proposed both ways and means to provide for peaceable settlement that puts the power of the purse back where it belongs---- in the hands of individual people and unincorporated government structures operating in the best interests of the Public Good.

So, as far as the Blue Hats are concerned----don't be overly alarmed. Some elements of the old governmental services corporations may have to be removed. There may be mass confusion. Jacob Rothschild may be tempted to try to usurp position and pull another sleight of hand by pretending that his "New Republic" is your actual lawful government----but as long as you know the truth and do your part to assemble your unincorporated land jurisdiction government, any action against you and your efforts would be instantly recognized as more corporate fraud.

The Central Bank and Government of France does not want to be accused of willful commercial fraud. They are already in enough trouble for their failure to maintain oversight on the IMF and its operations on our shores as the UNITED STATES, INC. Ditto the Central Bank and Government of England and the Central Bank and Government of Westminster.

So, no worries. Just work to do. And a better, more clear-eyed vision of the future and the world and your own role and responsibility in it. If you see UN Troops move into Washington, DC-----yawn and go about your business. It's not your concern. It's not your government. The "UNITED STATES" they are liquidating is just a corrupt and evil and bankrupt foreign commercial corporation being liquidated for cause.

It has nothing whatsoever to do with American State Nationals peacefully residing on the land.

Your own government resides within you and among you and in the organizations you create and operate on a local level --your own counties and states owed the land jurisdiction of this country.

Bottom line---- We, the People, have no dog in this fight and don't be stupid enough to make a fight where there is none.

Let Lord Rothschild earn his money and clean up the mess his Government created. And keep an eye on the crooks so that you don't ever get defrauded and mischaracterized again.
