

International Public Notice: No Drones Policy for The United States, Ending the FBI, the UN, Inc., and Illegal Mercenary Occupation

By Anna Von Reitz

For some years a controversy has been growing about the experimental uses of drones, both small and large; drones have been developed as toys, spy cameras, delivery vehicles, high and low altitude survey and detection devices, and even as armaments.

These things fly more or less silently through our skies and can be remotely guided from undisclosed locations by unknown operators and used to cause havoc, drop bombs, fire bullets or missiles and perform kamikaze missions by flying them into other aircraft.

All of this has become increasingly surreal and game-like, with the drone guidance systems mimicking popular cyber games.

We do not believe that the development of this technology has been pursued in a responsible fashion nor do we believe that proper oversight has been applied to it by the U.S. Military, DOD, or FAA, facts which have again been underlined by recent swarms of U.S. Government drones sweeping the East Coast of The United States, apparently deployed to detect a missing shipment of enriched Uranium and/or "dirty bomb".

A False Flag of this kind would allow the Biden Administration to potentially stay in power longer and could be used to create an "emergency" justifying overt rather than covert martial law, which has long been the standard in this country as a part of an illegal mercenary occupation stemming from the so-called American Civil War.

As the foreign (District) corporatocracy supporting this has grown and become more corrupt and as public employees have forgotten who their actual employers are, the "privatization" of government duties and functions has accelerated until CEOs like Bill Gates, Albert Bourla and Elon Musk have taken over and directed not only what appear to be government activities, but policies, and have aligned them with their own corporate profitability, political leanings, and even psychopathy.

The end result is an Unseen Oligarchy of largely technological corporate interests and defense contractors being in de facto control of what is supposed to be our government; the U.S. Congress has become little more than a den of thieves and ignoramuses that readily admit their failure to read the "laws" they are passing and don't consider the appropriations of our credit that they are making "for" us during our purported "absence".

They recently apportioned themselves \$5 million each, to spend however they wish, with no accountability to the American Public.

The absence of our American Federal Subcontractor in no way damages our own ability to perform the delegated functions and does not render our government absent overall; nor, does it provide any excuse to our European Federal Subcontractors to abuse our hospitality and credit in this manner. The so-called privatization of their traditional duties and functions has led to disorder and disgraceful abuses of power and breaches of trust.

Our policy is to shut down the airspace over the States of the Union and conduct forthright investigation announced to the public in the event of a False Flag or actual potential attack involving missing enriched Uranium or bomb technology. The eyes and ears of millions of alerted Americans are infinitely more effective in detecting suspicious activities and containers than fleets of radiation sniffing drones.

It is thought that the current False Flag, as with most False Flag activity in this country, is being pursued by elements of the misguided Federal Bureau of Investigations under the direction of individuals loyal to Christopher Wray, recently resigned head of the FBI.

For some years now, the Federal Bureau of Investigations, has been privately owned and operated, and it has been misguided and misdirected by its successive

leaders and board members to engage in illegal and immoral activities outside the traditional role of the FBI and even outside the jurisdiction of the FBI.

These activities have included assassination of political leaders and dissidents, numerous politically-motivated False Flags, spying and surveillance activities, and direct politically-motivated interference as agent provocateurs, as in the January 6th Protests, in which plain-clothes and/or costumed FBI agents stood down Capitol Police, opened the Capitol to the crowds, and encouraged people to enter the buildings.

This same renegade and privatized "federal agency" has also taken part in such atrocities as Ruby Ridge, Waco, and the murder of LaVoy Finicum.

The FBI was recently complicit in the attacks on California, Hawaii, and seven states impacted by the weather warfare-induced Hurricane Helene. They were also caught directing the DOJ and IRS to conduct punitive investigations of Federation personnel and setting up the shooter who came very close to assassinating then-candidate Donald Trump. In the more distant past, the FBI colluded with MI6 officers in the assassination of President Kennedy, Robert Kennedy, and Martin Luther King, Jr.

The purported public mission of the FBI is to prevent crime, but due to private control and misdirection of this agency, it has gone rogue and been used to perpetuate politically and economically motivated crime throughout this country for decades.

The Federal Bureau of Investigations, Incorporated, needs to be disbanded and replaced by our unincorporated Continental Marshals Service, which operates transparently in the service of the public and in the Public Interest of the people of this country.

We are sorry that it has become necessary to make these issues public and to disclose them internationally, but these and other misuses and abuses of what are supposed to be public resources by private interests have to be exposed for what they are.

So must the illegal quasi-military occupation of our country by British Territorial government interests be exposed and ended. These charlatans have promoted a vast crime amounting to a National level Identity Theft, not only in this country,

but in numerous other countries as well. These are crimes of state and the government(s) of Britain and Rome are fully complicit in them.

Today, the reckless and unauthorized spending of the British Territorial U.S. Congress is supporting no less than two dozen proxy "wars" --- mercenary incursions, including the genocide taking place in Gaza at the hands of the State of Israel, Incorporated, the silent genocide taking place in Syria at the hands of the Turkish Army Mercenaries being paid with transferred Roman Catholic money, and the genocide taking place in Ukraine.

No Ukrainian government that gave a damn about the country or the people of Ukraine would be willing to continue a senseless struggle that ruins the land and has already killed more than 600,000 Ukrainians. The proof against Mr. Zelensky, CEO of the Ukraine, Incorporated, is in the pudding.

Likewise, the UN, Inc. is on the chopping block. As we have pointed out, there are no "nations" in the United Nations, only corporations, a fraud which in and of itself demands the dissolution of the UN, Inc.

As we have also pointed out, the UN, Inc., has grossly failed its purported mission and has repeatedly failed to control the violence and peace-breaking of Israel. By the same logic that disbanded the League of Nations for failure to promote and enforce peace, the United Nations and the UN, Inc., have to go.
