

# International Alert: No State Immunity Is Available for Corporations from Corporations

By Anna Von Reitz

July 15th 2023

We have noted that legislation does not apply to living men and women, but rather applies to corporations and "persons" --- the officers, elected and appointed, and employees who work for corporations.

The only way that any of us are obligated by any legislation is by private contract. No contract, no obligation.

Furthermore, all corporations are limited and bound by the same rules and constructions and limitations.

The idea that legislation promoted by one corporation can be used to grant state immunity to another corporation is self-evidently flawed by the fact that one cannot grant what one does not possess oneself.

No incorporated entity functioning as a government, i.e., SWITZERLAND and/or Switzerland, Inc., has any state immunity nor ability to grant sovereign immunity, also known as "state immunity" to itself or to any other corporation, such as the UN or GAVI, or the WEF.

This is important to note, as these lawless mercenary corporations will try to claim any advantage possible for themselves and their co-collaborators in crime. Note that SWITZERLAND has attempted to create a safe haven on Swiss soil for the enemies of the Swiss people as of 2007:

However, this is neither legal nor, by definition, is this legislation lawful.

If any Municipal Corporation is allowed to claim sovereign immunity a situation will be engendered whereby every criminal enterprise on Earth can be perpetuated with impunity,

leading to a complete collapse of civilization. Likewise, in the instance of any Commercial Corporation claiming such a right.

In a sane world, nobody and nothing stands above the law, and that goes double for nameless, faceless, unaccountable corporations which have no natural right to exist.

We call upon the Holy See and the Vatican Chancery Court to answer for this and liquidate SWITZERLAND and Switzerland, Inc. and all would-be Successor organizations responsible for this opportunistic and misguided "Act".
