

International Public Notice: This is Not Rocket Science

By Anna Von Reitz

Our British Territorial and Papist (HRE) Subcontractors lied to us out of one side of their mouths and lied to the rest of the world with the other.

After the Civil War they claimed that our American Government disappeared, was "in interregnum" and mysteriously "absent", and that they had been left as custodians and "representatives" guarding our assets for us.

Instead of telling the American people the truth, they ambushed, attacked, burned out, murdered, and forced all the leaders of the original American Government to flee --- simply hid their dirty deeds, and then stood around with their hands in their pockets, shrugging and winking and saying, "We don't know what happened. They just never came back into Session after the War."

These facts and the fact that there was no actual "war" but only an illegal commercial mercenary conflict, were all carefully hidden from the public, so that the people had no idea what was going on. The members of the Rump Congress appointed by Lincoln appeared to be conducting business as usual even with our flag hanging in the struck position in the Capitol Rotunda.

Grant, Sherman, Seward, Salmon P. Chase --- all of them owed "good faith service" and they all committed treason and murder instead.

It was the Mother and the model for all the other mercenary "changes of government" that have pox-marked the world's history for the past

160-plus years.

And it was done to us by our own precious Union Army in the name of ending slavery, but the same men stood by and let the Southern Democrats re-enslave the purportedly freed plantation slaves -- crookedly abolishing private slave ownership and institutionalizing public slave ownership instead.

These men were criminals and con artists of the worst kind and they were helped and promoted in their criminality and deceit by Big Business and the Central Banks.

So.... they slid into their self-created role as our "caretakers" and illegally occupied this country under conditions of deceit and color of law.

And they have sat there like toads, promoting every kind of evil ever since.

Their financial frauds began with the Greenbacks Scandal, in which they offered high rates of interest on "1040 Bonds" and then insisted that investors pay for these with "Greenbacks" --- their own paper military scrip. Investors exchanged their gold to buy Greenbacks, used them to buy the "Government" Bonds, which weren't issued by our government, and when these bonds matured the investors came back expecting to be paid back in gold plus interest. Instead, they were only given back Greenbacks, because that is what they used to buy the bonds.

These investors were swindled into giving up something of actual value and substance in inequitable exchange for paper. So the pattern of deceit, manipulation, and swindling began and it only picked up speed.

Now we are facing the imminent collapse of the Clearinghouses, the DTTC and DTC, which will collapse the financial system worldwide. Why?

Because these institutions were the worldwide hub of the greatest financial swindle and human trafficking crime in world history.

The Bounders deliberately misidentified six generations of American babies as British Territorial U.S. Citizens --- stole our names, stole our identities, stole our birthright political status as Americans, and used undisclosed, unconscionable contracts to do it.

These Clearinghouses accepted the "Birth Certificates" issued in our names and facilitated "our" transfer as indentured servants, British Territorial U.S. Citizens owing service to the British Queen in the foreign jurisdiction of the sea. Later, they accepted and facilitated transfer of another second BIRTH CERTIFICATE into the jurisdiction of the air, and poof! We had a foreign Municipal ESTATE trust named after us, and our name, having been laundered into something unrecognizable in this process, was deemed a "citizen of the United States" and saddled with all the debts thereof.

So what is happening here is a crime known as a Personage Scheme combined with Human Trafficking, in which the victim is impersonated as someone or something else and their identity is deliberately trafficked into a foreign jurisdiction and subjected under a foreign law --- without their knowledge or consent.

This "set up" is then used to coerce the confused and helpless victims and another crime ensues when Agents of the Perpetrators of all this come forward and knowingly make False Claims against these Legal Entities that they have named after you -- a crime known as Barratry.

Nearly everyone in the Western World has suffered deliberate Personage, Human Trafficking and innumerable crimes of Barratry, but it began in England and America in the 1860's and proved so profitable as a white collar crime that the corporate Perpetrators were able to finance the British Raj in India and similar "occupational forces" in The United States and the British Commonwealth.

They swindled their own people in England, Ireland, Scotland and Wales into first indentured servitude and next into abject slavery, did the same thing in The United States, and then throughout the former Commonwealth, then used their ill-gotten gains to finance World War II, occupied Japan and seventeen western European countries, took over and occupied countries in Africa, and aimed to do the same in the Middle East and Asia.

They used our sons and daughters as cheap mercenaries and of course, never told them that that is what they'd be doing and serving; no, they sang Yankee Doodle all the way to guarding poppy fields in Afghanistan and stealing oil in Iraq.

This said, the problem began in England under the reign of Queen Victoria and her Consort, Prince Albert of Saxe-Coburg-Gotha; they were both Germans, and when they married in 1840, the Royal Finances came under the management of German financiers--- firmly tying Royal Family fortunes to Continental European business interests. Not British.

This has remained the central core problem ever since, and it has festered already into two World Wars and is threatening to erupt into a third such travesty.

All this fraud and personage and embezzlement, all this barratry, all this human trafficking and war-for-profit, all this identity theft, bankruptcy and probate fraud -- all this evil -- has to come to an end, and the actual Cause has to be addressed.

The Cause is not in America.

This criminal "system" was imported under conditions of deceit and breach of trust and color of law. It didn't come from America and we have, instead, been victims of it. From our standpoint it came from Britain.

The original Perpetrators in our case were the bankers and paid-off

politicians backing Benjamin D'Israeli as Lord of the Exchequer and later, Prime Minister.

However, we should know that this entire set up is much, much older, having its first whiff during the reign of the Roman Emperor, Justinian. It is a reprise of an earlier financial debacle that was pulled out of the attic and re-run using modern business corporations and central banks and, of course, the British Navy.

All roads going backward from Benjamin D'Israeli lead to Rome, the Lords of the Admiralty, the French and English Rothschild bankers, Greek shipping magnates, and certain disgruntled German Bankers who were swindled and set up to be scapegoats in another racketeering scheme.

None of this is difficult to trace from any number of data sets and disciplines, but, unfortunately, those most likely to see the data and read the Tea Leaves are also those who have licenses and careers at stake, or are small fry who can be bullied and paid off.

Blackmail and money and murder have had their way with America and virtually every other western country.

Which brings us to today.

The Perpetrators sucked up our public assets and put them in State Trusts; even though they never owned these assets, and had no permission from us, they took over as self-appointed Trustees. Similar measures were taken to cashier our public utilities and roads, our soil and water resources, and other natural resource assets. The British Title System was imposed and Americans were charged British Property Taxes even though the Americans were the actual landowners.

Americans were similarly swindled into paying vast mortgages owed by the British Crown and (Roman) Municipal Trusts operated in the names of the Americans who had no idea what was going on.

As already noted, our gold and silver was swindled away in inequitable exchanges for paper "notes" promising to pay later, as in the Emergency Banking Act of 1934, where Americans were coerced to exchange their Silver Dollars for paper Federal Reserve Notes on a one-to-one basis using coercive Legal Tender Laws that never applied to us and should never have been present on our soil. In one particularly criminal exercise, the President of the U.S.A., Inc., Franklin Delano Roosevelt, ordered hired Federal Agents to go house to house and loot any privately owned gold they found.

He later admitted on film that he had collected 20 Metric Tons of gold from the American people --- gave six MT as a grubstake for the Federal Reserve Banks, and split the rest between the World Bank and International Bank of Reconstruction and Development. All that is owed back to us with interest from the banks that received it, or their Successors and Lessor Creditors.

The Perpetrators then used our assets as collateral for them to borrow against, and issued Federal Reserve Notes backed by the labor of all their indentured servants --- the U.S. Citizens, both those that were actually U.S. Citizens by birth or by employment, and all those millions of American babies who were mischaracterized as such.

In the next round the Municipal Subcontractors did the same thing, issued a BIRTH CERTIFICATE and dubbed us "citizens of the United States" and while the first scam latched onto our Good Names and labor, the second one made us responsible for all the debts of the government and proposed to hold us as public slaves --- that is, federal municipal trusts created under foreign Municipal Code --- forever.

A similar fraud has been practiced against the people throughout the British Isles since the reign of King Henry the Eighth, only using Baptismal Certificates instead of Birth Certificates --- an earlier revival of the fraud taking place between the reign of Justinian and

modern times and only affecting Christian Church members, Catholics and Protestants alike.

The hoary nature of the fraud fully recognized, the meat of the issue is and remains ---who actually owns all the trust assets? We do.

Who then is legitimately owed all the credit derived from those assets? We are.

Therefore, who is the United States National Debt owed to? That would be us, too, the Americans, the Preferential Creditors.

All those Federal Reserve and United States (Promissory) Notes are owed to us, the hapless Americans, who've been harassed and milked and bilked and kept in the dark and fed horse dung for six generations by our own public employees and their hired agents.

So, they already owe us the assets and they owe us the value of all the promissory "Notes" they've been printing and passing around, and because we have given them valuable goods and services in inequitable exchange for paper I.O.U.s equal to the so-called "National Debt", we have a prepaid National Credit that is exactly equal to their National Debt.

If proper bookkeeping and permissions had been applied and our National Credit was balanced against their National Debt, there would be no debt and therefore no interest due on any such debt.

The negligence in this matter by our purported Trustees and the Banks involved resulted in billions upon billions of dollars of unjust enrichment for all the other Parties thanks to them collecting interest on a non-existent debt ---- and as they were palming off their debt on us via a different mechanism, it also meant more debt being attached to and held against our assets.

Not their assets. They never had any assets. They used our assets as

the collateral backing their debts while pretending to be our Caretakers and Custodians providing us with good faith service....without any contract or agreement from us.

They owe us all our assets back and they owe us the gold and silver they purloined in inequitable exchange, all the land they subjected to False Titles and foreign Taxes we Americans never owed, all the mortgages we paid "for" them and their franchises, all the Property Taxes that they collected under False Pretenses, all the gold FDR stole under color of law and they owe the entire value of their "National Debt" plus all the "interest" paid on it, plus all the "investments" they made "for" us and all the "labor contracts" they collected, all the insurance policies they collected on us and our assets, the value of all the bonds they placed upon our names, such as all the cured Social Security Bonds sitting in the New York Federal Reserve Bank, plus the return of the value of all the securities they issued in our names, plus interest.

Faced with the enormity of the crime and the debt, all these banks and these "government services corporations" will want to enter bankruptcy and charge off their bankruptcies against us, too, but we say that after all this, the Foreign Principals responsible for these organizations, are in default, are owed no protection from their acts, and we own not only all their debt, but all their corporations and everything else of value belonging to them, too, right down to the Inner City of London, the Crown Jewels and the American trusts that were lumped together as part of the "Global Collateral Accounts" and which are also presently underwriting virtually all of the world's Central Banks.

We've discussed this situation with the banks and the treasuries and now we are discussing it with the Public,

We have ordered the United States to liquidate its debt to no avail; we have explained that doing so will pay off their "credit cards" and leave them with room to borrow against, but they continue to obstruct

this solution to their dilemma and cling to their leg-irons.

We need no further proof that they are not responsible for this crime.

If they were smart enough to pull this vast criminal enterprise off for 160 years, they would also be smart enough to recognize a way out of it, but the Privy Council and Janet Yellen and the rest of the Party Hearties are responding to reality like catatonic zombies and remain paralyzed in the face of the imminent collapse of the clearinghouses, the securities markets, the stock markets, the major insurance companies, and yes, the banks.

Considering that individual Americans are the owners of the underlying deposits that underwrite virtually all the central banks on the planet, and not the banks, and not the other Principals, and certainly not the bankrupt corporations that are merely in the business of providing "government services" ---- it's past time to return all these assets to their actual owners and issue the prepaid credit that we are owed.

Whereupon we are exercising all our cured liens against the guilty Principals and their Corporations and issuing prepaid credit certificates to everyone who has been hurt by this completely mind-boggling crime against humanity -- so long as they are willing to live in peace and work for a better world.

As we technically own all the Federal Reserve Notes issued against our assets and own the debt they represent as a debt owed to us, plus seven to ten times that much in secondary credit issued under the fractional reserve banking system, and are owed the return of all mortgages paid by people who actually are Americans, ditto all property taxes, income taxes and bonds, insurance interests, stocks, etc.

We are requiring the Federal Reserve and the U.S. Treasury Department to release the Federal Reserve Notes and other stockpiles of uncut

Kennedy Dollars for immediate exchange with our prepaid credit certificates.
