

# International Public Notice: "Our" Illegal Occupation of Europe?

By Anna Von Reitz

Like most aspects of the work done by the Death Cult, the message is diabolical; our friends are our enemies, and our enemies are our friends.

That's because we aren't ourselves anyway --- we are being (mis)represented by foreign Federal Subcontractors, structured as corporations in the business of providing us with "essential government services".

The end of World War II left 17 western European countries in the grasp of the Allies. What has happened since then? Nothing much. They just settled down and began paying all the defense costs of these countries and "administering" their affairs, using the same British Raj model as they have used in The United States and elsewhere.

The notion that their countries are occupied by hostile mercenary forces would come as a shock to most Europeans, but it is nonetheless the truth. Just look at the history of South Africa and Cecil Rhodes. Look at the history of the British Raj in India.

Same thing in The United States. Same thing in the British Isles. Same thing in the former Commonwealth.

A foreign corporation called "FRANCE" has been running the French Civil Service. A foreign corporation called "France" has been providing French military services. The actual government owed to the people of France is nowhere to be seen.

Same thing in Germany and fifteen other supposedly independent sovereign nations. They've been taken over. Occupied. Their entire government apparatus is administered by foreign corporations in the business of providing "essential government services".

The Americans appear to be at the bottom of this, but no, it's not the Americans. It's the British Territorial Government, substituting itself for us, using our Title IV Flag as their storefront.

Here's a newsflash -- Donald Trump isn't operating as an American, nor as an American President. He's operating as the "President" of the United States of America, LLC, registered in London. It's a British Territorial Office and a British Corporation.

We are reposting the article below, not because the author got everything right, but because he adequately explains why Britain has never been our ally nor our friend, and why most European countries have been tweaked under sub rosa British influence to function in the same way with respect to America.

America isn't known for bullying. Britain is.

There is a reason for Europe's resentment, but it doesn't have anything to do with us. Not really. It has to do with the British Territorial Corporation "representing" us and its continued illegal occupation of seventeen countries in western Europe.

And while it's probably true that these European franchises are helpless and being "paid back" for their resistance to their parent corporation, it doesn't mean that they are wrong. They have rebuilt. They have begun paying back their debts.

Somebody, somewhere, should wake up and realize that the USA, Inc. is collecting those debts on behalf of American Guarantors who aren't receiving the payments. Imagine that?

British Territorial entities, misrepresenting themselves as Americans, are collecting on loans that came from Americans, but the receipts are going into British Territorial pockets instead.

## **From Puppet Masters to Powerless Peasants: Europe's Epic Collapse.**

This quote sums up part of the picture very neatly:

..."Biden's so-called Inflation Reduction Act (IRA) didn't just create inflation—it also gutted Europe's economy, luring EU industries to America with massive subsidies. The IRA offered \$369 billion in subsidies and tax credits for green energy, electric vehicles, and advanced manufacturing—but only if produced in America."

Trump's Tariffs only exacerbate this problem from Europe's standpoint.

"The IRA was marketed as an "Inflation Reduction" bill, but functioned as a massive industrial heist—with Washington poaching Europe's factories, capital, and jobs while hapless EU leaders stood around with their hands in their silk-lined pockets. It wasn't great here either, but Biden's IRA deindustrialized Europe."

What did Europe do?

"The so-called "Five Eyes" intelligence network—the combined deep states of the U.S., U.K., Canada, Australia, and New Zealand—played a central role in fabricating and amplifying the Trump-Russia collusion hoax. British intelligence was involved from the start, with former MI6 agent Christopher Steele authoring the now-debunked Steele Dossier, which falsely painted Trump as a Russian asset using literally unbelievable tall tales like the so-called "pee tapes."

Meanwhile, British-aligned Australian diplomat Alexander Downer conveniently "overheard" a drunken George Papadopoulos in a London bar, ran to U.S. authorities, and—just like that—Crossfire Hurricane was born.

It wasn't just the U.K. and Australia. Italy hosted the mysterious Maltese professor Joseph Mifsud, the operative who fed Papadopoulos the now-infamous claim that Russia had dirt on Hillary Clinton. At every stage, foreign intelligence agencies—mostly European—conspired with Trump-deranged operatives in Washington to roll it all up into a giant ball of

destabilizing chaos: they laundered lies into investigations, inflated investigations into illegal spying, spun spying into double impeachments, and zoomed the impeachments into a zombie horde of criminal prosecutions.

Europe didn't just interfere in America's election—they actively fabricated the mechanism fueling a soft coup against our elected president."

It wasn't our purported enemies, China and Russia, seeking to undermine the federal government and Trump in particular; it was our equally purported "friends" --- members of NATO and the Five Eyes Coalition.

A stark review of history reveals that this has been the condition of our relationship with Europe for generations. They have always pretended to be our friends and always promoted the idea that China and Russia must be our enemies.

Think a moment.....

The Pope functions as an Absolute Uber-Monarch in the Monarchy System. All the crowned heads of Europe are crowned by who? The Pope or his functionaries. This particular form of government -- monarchy -- is the natural antithesis of the American Government, and so is the social caste system and elitism that goes with monarchy antithetical to the American Government and American Principles.

Our relationship with the monarchies of Europe is a mongoose and snake relationship by nature, but we have been mistaking the viper for another mongoose, based on words and ignoring both nature and facts.

Realizing this early on, the Popes and their British Monarch lackeys developed a strategy in which they demonized Russia and China, for fear of the Americans joining forces with either one.

Think about it again....

Our traditional populist government "of, for, and by the people" has far more in common with the worker-based governments of China and Russia than it does with European monarchies.

The stuffed-full-of-themselves European monarchies deluded generations of Americans into trusting them and aligning with them and, in essence, working for

them, "gifting" them with vast amounts of resources, paying them "tribute and taxes", and most, important, going to war over and over and over again.

Why? Because war-profiteering is how the Monarchy System makes money. They finance both sides of every war. They collect "war reparations" from every war. They create wars, deliberately, to profit themselves, and we have been their unwitting Bully Boys for six generations, under the de facto "command" of the British Monarch's Man in America, the President of the British Territorial "United States of America, Incorporated".

Sad but true.

Realizing that traditional monarchies have run their course, the Popes and European Monarchs after WWII embarked on a new plan, seeking to promote a new form of monarchy, using Corporations instead of Kingdoms, to enforce what we call "Corporate Feudalism". The results of this can be seen by examining the World Economic Forum and its activities and agendas.

As we speak, Donald Trump and his Administration are trying to broker a peace deal between Russia and the Ukraine, while the European nations are buckling down and scheming to continue their Proxy War in Ukraine by any means possible and Mr. Zelensky -- while listening politely to Trump --- has been working hand-in-glove with these same venal war-mongering European interests to derail any possibility of peace with Russia.

In all these actualities, America has been a pawn, betrayed by self-interested traitors and misled by gullible politicians by turns. As Mr. Trump has noted, Europe has used us like a nose-wipe for generations, relying on our resources and abusing our trade policies and suckering us into supporting them in their immoral wars for profit with monotonous regularity.

Meanwhile, the living people of Russia and Ukraine are, like the people of Gaza, paying the Butcher's Bill for these snake-like old charlatans, coiled up safe in Rome and London, spinning their endless lies and deceits into narratives we are supposed to believe.

The parallel between abused children being told how much they are "loved" by those raping them, and our belief in European friendship comes to mind.

It was Europe and especially the British Government, which has been our actual enemy all along. It was Europe and our own gullibility that led us into two World Wars and countless mercenary actions ever since. It's Europe right now, promoting Corporate Feudalism as a means to continue their oppressive and elitist system on a worldwide basis. It's Europe scrambling around, trying to snare us into opposing Russia in Ukraine, undermining Trump's peace process, singing Mr. Zelensky a siren song of support.

The Truth is that Europe owes us up the wazoo already and the mismanagement of the Pope's UNITED STATES Corporation and the British Territorial "United States of America, Incorporated" by European interests, combined with their misuse of our friendship to promote war-for-profit, has ruined the good name and reputation of our country and cost our country trillions of dollars and millions of lives.

It's not "our" illegal occupation of Europe --- it's the illegal occupation of our country by Rome and Britain that has resulted in the illegal occupation of the European countries seized upon by the Allies after World War II, the illegal occupation of the former Commonwealth countries by incorporated British Territorial (Raj) forces, and so much more.

Deluded and defrauded, we have been the "Muscle" for Evil in High Places --- which we now repudiate and repent.
