

## International Public Notice: Oh, Puerto Rico

By Anna Von Reitz

Our hearts were troubled as we watched the video, "Puerto Rico is Dying", because we were able to connect the dots between the history of Puerto Rico and the history of so many other States and Countries throughout the world.

The pattern of abuse by our incorporated Federal Subcontractors has been the same since the nineteenth century.

The same Modus Operandi has been used by usurping "governmental services corporations" to asset strip, denigrate, impersonate and pollute all around the globe.

The same form and fabric of cronyism has been established, the same unfair taxation systems, the same abuses under the Jones Act have impacted the globe, not just Puerto Rico.

Puerto Rico is not alone.

But while Puerto Rico has suffered a fate common to many other States and Countries, and at the hands of the same perpetrators, too -- we believe that Puerto Rico has been especially and uniquely abused because of its unique political statuses.

It is at once a "U.S. Territory" and British Commonwealth, a "United States Possession" which fraudulently placed them under Municipal Rule, and that in turn, subjected the people of Puerto Rico, meaning, "citizens of Puerto Rico", under the Spanish Law of the Inquisition.

In other words, Puerto Rico was used as a pirate base for these criminals, and it was administered --- deliberately --- to maximize coercive power of the corporations that have operated as a replacement colonial power.

Long after the rapacious and disgraceful Colonial system was supposed to be dead and buried, we find that our British Subcontractors have merely switched up jurisdictions, and continued their Colonialist operations using more coercive and militarized forces and foreign forms of law to create a new form of government: Corporate Feudalism.

It is this form of law that the World Economic Forum is attempting to foist off onto the rest of the world, and which many people are calling "Globalism" or "Transnationalism".

It uses corporations to impersonate living people, thereby defrauding and denigrating the living people ---and allowing the Perps to prosecute us under forms of law intended to govern corporations.

It has also allowed the Perps to "legalize" and continue practices such as press ganging, enslavement, peonage, and state murder which have been outlawed for 200 years.

Why? Because there is no law against raping, pillaging, robbing, or murdering a corporation. A corporation is merely a legal fiction, and the Perps have used this pretense as the basis for "legalizing" their deeply criminal acts.

Puerto Rico, the living people of this country, the actual Americans, have been kept unaware of your plight. That thing in Washington, DC, is one of our run amok Federal Subcontractors, a foreign corporation in the business of providing "essential government services".

As a foreign corporation it has usurped against us and violated the terms and conditions of its own service contract. The evils that were visited upon you in our names, were not a result of our malice or intent. These same Perps were imposing upon us at the same time, if not to the same extent.

Please know that help is on the way and that you should all be considering how you want to organize yourselves, what kind of government you want, what services you need, and all the other questions that need to be answered.

Please also know that you can establish your presence as men and women standing on the land and soil of Puerto Rico and have an account with our Global Family Bank and receive assistance through the new Bilateral Bank System like any other American who has been harmed.

You, too, are owed back prepaid credit. You, too, have an inheritance of gold.

The corporations that have done this to you and to your island are due our reckoning, and you will not be left to suffer.

Notice to the appointed "Government" of Puerto Rico: you have no right to misrepresent yourselves as any form of "United States" and must vacate any pretense of operating in our names or under our delegated powers or having any authority under any Federal Constitution whatsoever.

The Federal Republic assets that your parent corporation illegally latched onto on February 2nd 1871, belong in fact to the States of the Union and are administered by their lawful and unincorporated Federation of States, The United States of America.

The fraud and deceit has been fully discovered and objected to. There is no statute of limitations on fraud.

Notice to Agents is Notice to Principals; Notice to Principals is Notice to Agents.
