

International Public Notice: Mr. Trump -- The One Issue of the Age

By Anna Von Reitz

That one issue is the future of corporations.

Will men be ruled over by nameless, faceless, unaccountable bureaucrats and the corporations they work for?

Or will we wake up from our stupor and realize that corporations aren't even real?

Will we find the strength of mind to say, "No."---?

No, we won't be ruled over by corporations; corporations will be accountable to us, and we will master them or destroy them at our will.

Criminal corporations have no right to exist. They can only be organized for "lawful purposes" and they consistently fail that simple benchmark requirement in actual practice.

Which is where we come in, because we do have the power to collapse any corporation or incorporated entity that fails to conduct its business in a lawful manner.

Now, Mr. Trump, Mr. Putin has bravely exposed the \$45 Billion dollar Murder Contract that the World Economic Forum posted on the international Dark Web for your death; are you finally ready to face the actual Enemies?

A contract of that magnitude will easily mobilize mercenary "armies" to come after you.

As the CEO of a corporation you have no power or ability of your own to lawfully convert criminal corporations --- because your corporation is just another corporation like all the others.

The situation is made worse, because the authority that is supposed to keep corporations in order, the Office of the Pope, has disappeared in a flash of fire and smoke, and is now called "Patriarch of the West"--- and that office that has no such duty or authority under Ecclesiastical Law.

What to do?

You can do the right thing, Mr. Trump. You can call upon the people of this country, the ultimate employers of your corporation, and the other living people of the world, for help.

Unlike your corporation, our unincorporated sovereign governments do have the lawful standing and power to "lawfully convert" corporations that are criminal in nature --- a process that can "nationalize" these corporations and place them under Land Law, or liquidate or reorganize these corporations for cause.

We can bust monopolies on the land or at sea or in the air; we can dismember corporations that obstruct trade or engage in false advertising. Most importantly, we can strip the veil right off of corporations that harm living people and utterly destroy them and those "persons" responsible for abusing humanity for profit.

And we are not dependent upon any phony, foreign, self-interested judicial system to do it.

Our research indicates that the vast majority of World Economic Forum Members have been organized under French, Belgian, British, German,

HRE/Italian, Japanese or "United States" auspices, while we stand as the Inheritors of most of these stocks and shareholdings.

This means, Mr. Trump, that we, the actual American Government, hold the key to disciplining and if need be, lawfully converting or liquidating these offending corporations.

All you have to do is recognize the fact that our American Government has "returned from over the sea" and has been in Session for five (5) years already. Fulfill the contract that your corporation is Successor to, and we have the standing and substantive rights to put an end to the criminal members of the WEF.

Together, we can give these criminal-minded corporations more to think about (and spend money on) than scheming to murder their competitors, creditors, and innocent people.
