

## International Public Notice: Our Opinion for Our Military

By Anna Von Reitz

Those who want to return to the honorable estate of an American National Military --- not a British Territorial National Military --- must be very careful to draw the line and not be fooled, for the men that pulled all these other deceits, including converting our lawful national military into a mercenary force, are Masters of Deceit.

They changed Equal Rights (referring to our God-Given Natural and Unalienable Rights) into Civil Rights --- a mere privilege offered by bureaucrats, didn't they?

They changed American babies --- and not just street waifs, but all American babies --- into British Territorial U.S. Citizens and Subjects of their Queen, didn't they?

They misrepresented the entire Mercenary Conflict of 1861-1865 as a war, didn't they? The American Civil War?

They misrepresented business organizations known as "States of States" or "Confederate States" as actual States, didn't they?

They misrepresented their mercenary services as your own national military, didn't they?

They sold you into indentured servitude on the cheap and sent you to defend French Rubber Plantations and fields of Afghan Opium Poppies, didn't they?

They told you that the War in Iraq was to search for and destroy "weapons of Mass Destruction" when they were actually on the hunt for priceless ancient artifacts, didn't they?

Their tongues would snap off if they tried to tell the truth.

You need to take a new Oath and that Oath or Affirmation needs to be like this: "I shall provide loyal and good faith and lawful service to the American Nation-States and people of these united fifty nation-states, and I shall defend them against all enemies, both foreign and domestic, to the best of my ability throughout my term of service."

Notice that when you are serving as a real soldier or sailor, and not as a British Territorial Mercenary (akin to the French Foreign Legion) your service is lawful, not legal. Notice that as part of an American Military Force, your loyalty is to the States of the Union and the American people, not whatever other customers come knocking at your door. Notice that when you engage to serve a "tour of duty" it is for a limited time called a "term of service" and once you finish that obligation, and "term out", you are free to declare your lawful and natural political status as an American State National, such as a New Yorker, or Californian, or Virginian.

Notice that there are fifty such States of the Union at this time, and if an actual "Fifty-first" or "Fifty-second" State is to be added, it must go through the process dictated by the Northwest Ordinance, and then must be officially enrolled as a State of the Union by vote of the other Fifty States already thus enrolled.

It can't be just a business merger promoted as a corporate take-over of "governmental services corporations" like CANADA, INC. that have been masquerading as the actual government of Canada.

The people who live in these foreign nation-states have to agree to the enrollment of their land and soil as a State of the Union and the present States have to agree to it, too.

At each stop and in every process, these wordsmithing Masters of Deceit will attempt to gain by fraud what they could never gain by force of arms.

Beware those talking a good talk about "the American Republic" and pretending to be an American Republic, when the men saying this are U.S. Citizens --- operating in the status of British Territorials, not as Americans.

The only kind of Republic such men can create is a British Territorial "Republic" and the only sense in which it could be considered "American" would be because it was plopped down on this Continent as a means to Usurp against the lawful government of this country --- which you are supposed to protect.

This Notice is a Complete Notice to Agents and Principals; Notice to Agents is Notice to Principals; Notice to Principals is Notice to Agents.
