

# International Public Notice: Our Citizenship

By Anna Von Reitz

Throughout the rest of the world, people are citizens at birth. They owe a responsibility to their national government the moment they are born. In many countries, that obligation is lifelong with no escape.

People born in, for example, Germany or Mexico, immigrate to this country and become Americans, but so far as their birth country is concerned, they are still Germans or still Mexicans, whether they like it or not.

This non-consensual Dual Citizenship is not under the control of The United States and cannot stand as a bar to lawfully immigrated people preventing them from participating in the government here.

All forms of "citizenship" imply that the individual is required to serve the government, instead of the government being required to serve them.

Our country stands alone on the Earth in being the only country where the individual has no obligation to serve the government at birth or at any other time. Beyond keeping the peace and causing no harm to others, we are free -- as Americans who are part of the native population of each nation-state.

However, the present problem is that Britain, as usual, got greedy, and circa 1921, their Territorial Congress started registering British Territorial babies born in America....and then, they just started registering everyone as British Territorials. It was a creeping, undisclosed usurpation.

In this way they slowly, one by one, secretly and illegally converted the political status of these American babies from their native political status to that of a British Territorial Subject.

British Territorials are part of the whole Romano-British Caste System I have recently described. They agree to act in the capacity of Humans (indentured servants) and as British Subjects (slaves) for life at birth, which is one of the things that we, Americans, fought to get away from.

Nonetheless, and even though they know it's an international crime, here they are on our shores pumping away without disclosure, registering everyone as wards of the King and as British Subjects --- and using unconscionable contracts to do it.

By not giving disclosure to our parents and preying upon us when we were too young to know what they were doing, they foisted British Territorial U.S. Citizenship on us without our knowledge or consent.

That isn't the way it's supposed to be.

Americans are supposed to grow up free from any such obligations to any government. They are supposed to learn about their government as they are growing up, and past the age of 21, they can participate in it or not. Their choice.

That is, in large part, what being "free" is about.

How can you ever be free if you owe your time and labor and money to the government?

Are you "free" if the government claims to own your labor? And forces you to pay a peonage tax on your labor, i.e., Federal Income Tax?

Are you "free" if the government "takes title" to your land and then forces you to pay "property taxes" for them?

It's one thing if you voluntarily serve your government on terms that you agree to, and a completely different thing if you are obligated to serve the government from birth.

So the Brits have been caught misapplying their system to Americans and it's an international crime -- a capital crime under international law.

Forcing people into citizenship obligations and "conferring" foreign citizenships upon them was just too tempting a plum, and it seemed that nobody was here minding the store, so....

That right there, is ninety-percent of the problem we are facing in America and it is down to the Brits again. So we feel completely justified in blaming them and exposing their bad faith and criminality to the world.

This idea that groups of people can arbitrarily "confer" citizenship obligations on others has to stop.

This British Bunko started in the wake of the Civil War when some States were (purportedly-- there is no proof of this) still resisting the idea that the former black slaves could be part of their nation-state and population.

So the British Territorial Congress voted to confer a new "Federal Citizenship" on them-- which turned out to be Municipal United States citizenship.

All the former plantation slaves were then "presumed" to be "citizens of the United States" (slaves of the Municipal Government) under the so-called Fourteenth Amendment, and as the Municipal Government owed the Territorial Government money, the Territorial Government started collecting from the former plantation slaves.

The total of these new citizen's estimated lifetime value-- their value as slaves, their labor, anything they might have as property -- was "assumed" as collateral backing the debts of the Municipal United States Government.

They went from being privately owned to being publically owned and the mechanism for this was a "conferred" citizenship obligation.

Bear in mind that the British Territorial Congress never had any right to confer any such obligation on these men and women.

They took men and women who were born free on the land and soil of this country and obligated them to perform under the presumption of foreign citizenship.

The Perpetrators of this crime gained a lot of collateral to borrow against as a result, with hardly anyone here understanding what was going on.

After that, the Brits were off to the races, counting anyone "of color" as a debtor and a Fourteenth Amendment "citizen of the United States". Millions of innocent people were enslaved by this scheme, not only black African Americans, but Oriental and Hispanic Americans, too.

Then in the 1920's the Perpetrators hit upon the Birth Registration Scam and started a massive undisclosed and unlawful political conversion operation on our shores.

Ostensibly, they were just "registering" their own British Territorial babies as British Territorial U.S. Citizens, and as British Subjects, but it very rapidly escalated into a wholesale effort to register everyone in sight as a Brit.

By this means, they secretly and falsely claimed to own millions of Americans, body, mind, and soul, as British collateral, and they began the whole nasty business of trading in "birth certificates" and "baptismal certificates" in the 1920s.

The Internal Revenue Service was imported to this country as a Delaware Corporation in 1925. The only purpose of the Internal Revenue Service was to collect a tax on the slave's labor as part of an illegal and immoral British Territorial peonage scheme, by which their government demanded a fat kickback from their own employees for the privilege of a "federal job".

But again, they secretly pushed to involve as many clueless Americans as possible in this same system and it should come as little surprise then, to learn that a "Taxpayer" is a Warrant Officer in the British Merchant Marine Service.

It's all bunko foisted off on Americans, and so-called Federal Citizenship is key to it all -- it's actually plain old British Territorial U.S. Citizenship as if you were a Tory born in Puerto Rico. And once they have you "signed up" for that duty, they impersonate you again, and confer Municipal citizenship of the United States on you, too, which has allowed them to claim that you are indebted to them --- when in fact you are not.

All of this is just British lies, bunk, bad faith, False Claims in Commerce, conspiracy to defraud, unlawful conversion, inland piracy, etc.,etc.,etc.

They've entrapped and enslaved millions upon millions of Americans for over a hundred years using this scheme and the pity is, they got away with it. Until now.

If anyone asks you if you are a United States citizen you want to look hard at them and ask, "Which United States are you talking about? These United States or those United States?"

The answer to that question is the difference between slavery and freedom.

They've also tried to enslave and entrap every immigrant to this country in the same way. They are all told they have to apply to the British Territorial Immigration and Naturalization Service and their INA bureaucracy, and by the time they emerge from that bureaucratic meat-grinder believing that it is a wonderful thing to be a U.S. Citizen, they've all been misinformed and subjected to peonage and enslavement, too.

The phony British Territorial Government and their colluding Roman Municipal Government pals want to fatten up their war chest before trying to push another mercenary war in the Middle East.

All these poor people from Mexico and South America think they are coming to the Land of the Free, but they are actually walking into a trap. They and all that they are, is being claimed as chattel, and when they walk over our border they become a much more valuable chattel.

A man born in Honduras might be worth maybe a hundred thousand dollars to these Slavers, but when he walks over our border, he is suddenly worth around \$40 Billion in collateral to the fiends.

They come here wanting to be free and be Americans and wind up being British Territorial U.S. Citizens and Municipal citizens of the United States, too. And who knew?

What does it mean to be a "citizen" --- not of a country, but of a corporation? It means you are owned by the corporation, as in slave ownership.

They kept all this illegal and unlawful activity quiet for decades, and passed it off under color of law as being normal and just business as usual --- when in fact they were playing a game of murder on paper, "killing" the American babies on paper, gratuitously "waiving their American estates" for them, seizing upon the natural estates of their American victims, and distributing the purloined assets for their own benefit, all while relabeling everyone as U.S. Citizens and citizens of the United States.

It's all self-interested lies and fraud, inland piracy, bunk, con, racketeering, all tied up with a bow constructed upon false citizenship obligations.

The British Territorial United States Government is a criminal syndicate with operations all over the world, and they have been colluding and splitting "the take" from all this with the Roman Mafia, which has its own crime syndicates.

This is all far beyond bad faith and ill-service. This is active inland piracy and commercial crime on a vast scale, perpetuated by countries and governments that are under contract to serve us in "good faith" and which have been our purported Allies through two World Wars.

The Roman Catholic Church has known about this all along and has done nothing to help the Americans object to this gross disservice, because they were collecting 60% of proceeds from this grossly illegal, unlawful, and immoral activity.

The British Monarchy and the Government of Westminster have both been the implementers of this giant National level Identity Theft Scheme, so there is no doubt that they have acted as shameless gluttons and thugs, in bad faith and hopeless breach of trust.

These are criminals and they try to say that they are "at war" and to pass all this off as being legitimate, but it isn't. The record proves that none of this was the result of any "war". This has all been the result of illegal and immoral Mercenary Conflicts which they have promoted and tried to disguise as wars.

Americans serve their States of the Union as State Citizens. That's it. That's the only kind of citizenship that we may accept and the only kind of citizenship this country recognizes. Every other kind of alleged citizenship has been foisted off on us under conditions of deceit and non-disclosure via the use of unconscionable contracts.

Let all the people of the world know for sure that what has gone on here is a crime of staggering proportions -- a crime that the Roman Catholic Church allowed and profited from, a crime that the British Government promoted, perpetuated, and profited from, a crime that the Government of Westminster promoted, perpetuated, and profited from.

Let everyone know that the Americans were the victims of all this crap that was imported here from Europe and be aware that the Municipal Corporations operating "as" government and using the District of Columbia as a base of operations are not our Government. They are run amok Subcontractors -- service providers for our government.

Donald Trump is not our President. He's the President of a British Territorial Corporation under contract to provide us with "essential government services" per The Constitution of the United States of America.

Joe Biden is not our President, either. He's the President of a Roman Municipal City-State Corporation that is also supposed to provide us with "good faith" service under The Constitution of the United States.

Both these men are under the obligation of their respective contracts to secure our borders. Period.

It is not within the powers of either one of their "Congressional bodies" to say one word about our borders nor to establish a 100 mile "Constitution-free zone" around our borders. They have no power of legislation that can overcome their contracts and their contractual limitations.

The Government and the Constitutions which created these Subcontractors and provided them with stipulated and strictly enumerated powers can destroy them, too. Article VI, the Supremacy Clause, of both their Constitutions, makes it clear that for them, there is no other or greater Law.

They can give themselves no powers beyond those vouchsafed to them. They can claim no property but that which the actual States, our Government, allowed to them and officially acted to give to them.

Ken Paxton, the Texas Attorney General, is exactly right. There is no record of any action taken by Texas, and its actual State Assembly, to give these Federal Corporations any of the land in question.

It should be apparent that the Hired Help has no ability to declare any cubic inch of our States or our Territories as "Constitution-free".

Joe Biden's corporation needs to be permanently liquidated and shut out of the District of Columbia and anywhere else it hides under whatever new names it adopts, and Donald Trump's corporation is on thin ice, too.

Both these corporations and their immediate predecessors have contributed to defrauding generations of Americans, have engaged in war-for-profit, imposed unlawful conversion and foreign citizenship obligations, and otherwise behaved as criminal organizations on our shores.

Both of these foreign corporations for their separate reasons, promoted the phony pandemic which has resulted in genocide, pollution of our genetic inheritance, and destruction of our economies.

Being the Bad Guys to catch the Bad Guys is a logical fallacy; the ends never justify the means.

Telling us to "enjoy the show" isn't helping, because it is painfully apparent that everything, including the evils of the Civil War, World War I, World War II and everything in between has been a big joke to these commercial corporations, a "show" --- foisted off on the public by men engaged in denigrating and defrauding their employers for their own profit.

It's also apparent that much of the evil perpetuated by both these denizens of the District of Columbia has been promoted and permitted by an evil and corrupt banking system which has been built on peonage and enslavement born out of "conferred" citizenships and False Registrations.

The Federal Reserve has to be completely and permanently restructured. So does the World Bank, the IMF, and numerous other banking institutions that profited from these and associated criminal practices.

It's time for restitution, not a war in the Middle East.
