

Our Free Will

By Anna Von Reitz

It's one of our most important gifts.

We need to exercise it now.

There are those who are literally seeking to murder most of the people on this planet.

They think they have achieved eternal life for themselves.

And they see no reason why any of the rest of us should live, except as slaves to serve them.

I know this is hard to believe and hard to accept but there are truly insane individuals at work in the world, and no, I am not talking about Donald Trump.

How do we know who they are?

By the patents they hold.

How do we fight back?

With our free will. With our ability to communicate and discern evil.

Exercise these abilities.

Exercise your mind.

Find your heart.

Tell the Universe what you choose and never let anyone choose for you.
