

International Public Notice: Our Position

By Anna Von Reitz

There can be no "re-inhabitation" of our American Federal Republic by British Territorial persons and forces who never "inhabited" our Federal Republic in the first place.

Our Federal Republic is a uniquely American institution operated by and under the direction of the original Confederation of States.

We do not accept and will not tolerate a substitution of the American Federal Republic by a British Territorial "look alike, sound alike" impersonator.

See this nonsense:

<https://rumble.com/v56q4qj-7122024-sg-sits-down-w-usaf-ret.-lt-col-dr.-sandy-miarecki-to-discuss-the-r.html>

These people never inhabited and are prohibited from inhabiting our American Federal Republic; they must (correctly) perceive that the only rightful re-inhabitation of the Federal Republic must be through the States of America; the States of America itself can only be Reconstructed via the States themselves.

The States have to be reborn and have been reborn via the exact formula we have put in place: declaration, record, and publication of the unique individuals having the provenance and standing to provide the correct political basis for the creation of American States of States and Heirs to the American States of States, then enabling the reconstruction of the Federal Republic.

None of the British Territorial U.S. Citizens including Donald Trump and the Generals and Admirals of the U.S. Forces have the standing to repopulate the American Federal Republic.

They must, therefore, stand down.

There is only one political entity having the natural power and jurisdiction to sort this mess out and that is the Delegator of all federal authorities, the unincorporated Federation of States dba The United States of America.

The delegating authority, dba, The United States of America, Unincorporated, and the unincorporated and sovereign and independent States thereof, must take charge and must reconstruct the American Federal Subcontractors known as the States of America and the Federal Republic too.

This requires that both the American Confederation of States and the Federal Republic must be reconstructed by the States.

It cannot be done by any fiat means.

It cannot be done by other foreign federal subcontractors "offering" to reconstitute our Federal Republic.

They were not given the authority and were not enabled to function as our Federal Government in the first place and are not given that permission now.

This is straight forward and contractual: the British Territorial Subcontractors cannot and are not allowed to enter upon the duties and are not enabled to function "as" the States of America nor are they enabled to function as the Federal Republic.

These are uniquely American institutions and functions and our British Territorial Subcontractors are not enabled to usurp upon nor otherwise enter into our lawful domains.

We object to any attempts on their parts to misrepresent us or to misrepresent our American Government.

They are not properly declared as Americans and they are not allowed to enter upon any American property or asset, including the American Federal Republic.

We do not recognize any right or duty or obligation of any British Territorial entity to claim or occupy any aspect of our Confederation nor our Federal Republic. They need to stand down, mind their own business, fulfill their contractual obligations, and otherwise get out of our way.

We are not entertaining any more British Territorial Substitution Schemes.

The Americans are back, are present, are here and in possession. The Brits need to back off and get back into their proper orientation as Subcontractors and otherwise they need to leave us alone to do the work of reconstruction that has been so long delayed by their failure to honestly communicate with their employers.

We do not recognize any undeclared "states" -- Union or otherwise -- that have not provided proper provenance and have not published their existence within the lawful State governance we have invoked.

We do realize that the original states were formed from the outset by establishing the soil jurisdiction and then the land jurisdiction and from there establishing all other jurisdictions; however, thanks to British misrepresentations, we are not initially "located" in the original states anymore, and must begin from the jurisdiction of the air and sea and back to the land and cannot claim to be on the soil or the land apart from reversal of the presumptions created by registrations, enrollments, and enlistments.

Those people promoting the idea of an ersatz American Republic are ignorant of the facts and the jurisdictions.

The only way that an American Federal Republic can be reconstructed, is if the States of the Union act upon the issue and make it possible.

Donald Trump and the U.S. Military cannot make it so by wishing it so.

They need to stand down and accept the civilian authority of the delegator of all "federal" powers --- The United States of America, our unincorporated Federation of States.

All "federal" agents are called "federal" with respect to the Federation of States that they are empowered by and required to honor.

Please notify all Parties --- Notice to Agents is Notice to Principals --- that we are back on the land and soil of our country and do not empower unknown legal fiction entities to act on our behalf.
