

## Reposting For Your Outraged Information

By Anna Von Reitz

Quote, "We just figured out how Democrats got all the illegal Haitian and Venezuelan migrants into America --- MASSIVE FRAUD."

Watch the video clip as U.S. Representative Andy Biggs goes after one of the complicit Immigration Officials about the fraudulent misrepresentation of the entire process of migrant identification and application for entry to this country.

<https://x.com/WallStreetApes/status/1866854226615308368>

The end result is not only did these people enter our country illegally according to the established immigration laws -- all at the behest of Joe Biden and his Administration, which was itself fraudulently misrepresenting itself as our civilian government --- we don't have the faintest idea of who these people are, where they came from, or where they are.

However, we do know who is responsible for this atrocity and we know who must be arrested and prosecuted for it.

This fraud is similar to the mortgage fraud scheme, in which billions of investors worldwide have been left with worthless unidentifiable

mortgage securities, including securities based on public road easements that were used to latch upon developed properties and homes, mortgage securities ginned up and based on copyrighted land descriptions, mortgages based on "loaning" the landowners their own credit, etc., etc., etc.

All of it is complete fraud being enforced under color of law and duress.

So, our response to Donald Trump is --- get on with it.

Announce the findings of the Supreme Court in the Brunson Case, announce the fact that the Biden Administration has been removed accordingly, and then address the entire country with a plan to locate and remove all these people who are here illegally.

We are prepared to assist and do not wish for any violence or cruelty to anyone; those who have legitimate claims to political asylum are to remain, those who simply came in search of better economic conditions, jobs, etc., are to be returned to their country of origin free of charge, and in the happy anticipation that their home countries will soon have funding to greatly improve their own infrastructure and economies, medical services, educational programs, and much more.
