

International Public Notice: Over the Target

By Anna Von Reitz

By the early 2010s, several of us had established enough groundwork to set up the private indemnity bonds backing and underwriting the States of the Union.

This was necessary for our States to be able to conduct business. Prior to that, we claimed the entire US National Debt as the Priority and Preferential Creditors to fund the indemnity bond.

So that is what the Indemnity Bond is for and that is how it was funded.

The Form 56 procedure was recommended to preserve the assets in the ESTATE trusts because the Municipal United States corporation dba UNITED STATES, was going into Chapter 7 Involuntary (and Permanent) Bankruptcy. The individual ESTATE assets would have been surrendered to their Creditors --- not to the individual Americans they are owed to.

So we surrendered these ESTATE trusts to the U.S. Secretary of the Treasury to accept responsibility for them as Trustee. He had to hold them separate and unharmed --- apart from the Chapter 7 action.

Our ESTATES were thus preserved and exempt from the UNITED STATES bankruptcy, and because they were "foreign estates", they were also safe and exempt from the following USA, Inc. Chapter 11 bankruptcy.

None of that had anything to do with the Indemnity Bond.

It was calculated instead to preserve individual ESTATE assets intact from these quasi-public bankruptcies. You will find your individual ESTATE holdings safely lodged with the U.S. Trustees and the U.S. Secretary of the Treasury, if you took timely action.

Otherwise, your individual ESTATES have been "subsumed" into the general bankruptcy of these foreign corporations, first one and then the other, and this results in a lump sum acquisition of your assets by the USA, Inc., which was enabled to reorganize under Chapter 11, as a direct result of receiving "your" individual ESTATE assets and adding them to their balance sheet.

We protected the assets of the individual ESTATES by making the Receivers individually responsible for them.

So that is why we went through the Form 56 drill.

There have been pernicious rumors that we provided incorrect or self-interested advice or that we made illegal or inappropriate claims. There have even been vague accusations that we sought and somehow gained control of individual ESTATES and used them to fund the indemnity bond and other such nonsense.

We, each individual American, who has contributed services and goods in inequitable exchange for private bank I.O.U.s under conditions of duress and non-disclosure, are in fact the Preferential and Priority Creditors of the entire system and both corporations engaged in this gigantic coercive racketeering scheme.

You can thank us for protecting your individual assets in the midst of their collusive bankruptcy fraud and recoupment scheme, and blame them that such steps have been necessary.

Those who failed to turn over "their" Municipal ESTATE to the tender mercies of the U.S. Secretary of the Treasury, are still owed their ESTATE assets back from the new iteration of USA, Inc. that has emerged in record

time from Chapter 11, but will have to endure another unknown claims process to scissor-kick their assets out of the clutches of the fraud artists.

What needs to happen is a complete reform and a return of control to the lawful government and people of this country, and until that change is made, we can count on additional struggles and misappropriations of our assets and credit for the benefit of foreign privately owned corporations in the business of providing "essential government services".

We leave it to each and every one of you to decide who has been upfront and honest with you --- and tried to protect your interests ---and who has cheated you and defrauded you and used your assets without sharing the profits and made inappropriate claims on your assets and put your assets at risk for their own benefit.

Both Joe Biden and Donald Trump have been engaged in playing right and left hand of this fraud and manipulation, and the Principals standing in back of them, the Holy Roman Empire and the Government of Westminster and the British Monarch are the ones ultimately responsible for this entire Mess.

So don't imagine that we have anything to gain above or beyond what everyone else stands to gain from putting an end to this criminality and don't imagine that we have practiced to deprive you of anything. That role belongs to others who have been quite expert in their pursuits.
