

Payment in Full Tendered for All Debts of the UNITED STATES

By Anna Von Reitz

The instructions have already been given once to the Trustees including Pope Francis and the Bank of International Settlements. Here is the text of the email sent to Pope Francis yesterday to make sure that our instructions were "crystal clear".

Most Beloved Francis,

Our instructions have been transmitted to the Bank of International Settlements, but we are repeating them in your presence and asking for your assistance in overcoming whatever obstacles remain.

We authorize the transfer of sufficient funds from our National Credit to pay off the National Debt of the "United States" defined as the "territories and District of Columbia" and do this as the lawful beneficiaries and heirs of The New Testament Trust as well as The United States Trust 1779.

We further authorize the settlement of any and all debts we may actually owe to other nations which may have been neglected by incompetent or dishonest administrators.

We also authorize the return of all American assets free and clear of tithes, fees, taxes, debts, claims, registrations, or other encumbrances to the Americans to whom these assets are owed. By this we mean all Americans without regard to race, color, or creed according to their inheritance in the Adamic Trust.

The banks and the Trustees have received Due Notice, our Sovereign Letters Patent, and our Declaration of Joint Sovereignty with the Indigenous Nations. Our claims have already been fully adjudicated by the Vatican Chancery Court and decided in our favor.

There can be no doubt that we act with pure intent, seeking only justice and peace, and an honest settlement of debts. This we further recommend to your good offices.

Respectfully,

James Clinton

----What this means is that there is no longer any excuse for "THE UNITED STATES OF AMERICA" to carry out any pogrom against the American people to settle the debts of the UNITED STATES. All \$18 trillion "dollars" have to be paid off by the Trustees and the accounts zeroed out internationally.
