

## **What Do I Need Money For?----- The People's Law Firm**

By Anna Von Reitz

We need funds to hire paralegals, clerks, office space, forensic auditors, comptrollers, private investigators, non-Bar lawyers and experts in both Admiralty and Common Law, travel expenses, court filing expenses, and the list goes on.

What I do to inform all of you is a service. Free to all.

But the time has come to launch The People's Law Firm.

If you want to be free you have to take steps to educate and extricate yourself from the Kingdom of Lies and come back to America.

And if you want your property including title to it returned to you and your control, you have to take additional steps.

And if you want your country returned to you-----because believe me, these vermin have put in place a scheme to steal the whole enchilada-----you need to have a law firm like no other defending your interests

And after that you need an honest banking system.

Now it may seem harsh, considering that you are already paying for all this and a lot more and have the right to assume that you are getting your money's worth, but I am here to tell you that that just ain't so.

The people you have trusted to serve your best interests have instead served their own.

Think about it.

Do you feel safe putting your funds in a bank run by these people???

Do you think for a nanosecond that they are here to help you in any way???

Instead, the pukes at Merrill Lynch have patented a whole system purposefully designed to defraud you and steal your labor and your private property---- a sophisticated factory-like process for fraud---and their buddies throughout the banking system have all gone along for the ride.

Who cares if it is blatantly immoral and illegal and unlawful and worse?

It's all in black and white, drawn up in their own words, sitting in the US Patent Office.

This is not a matter of my interpretation. It's not something subject to denial.

These banks have been so arrogant and so lawless for so long that they think they are going to herd us all up like sheep and we aren't going to know who is doing it, how, or why.

They think that we are all going to fall for their crappola forever and live and die as "livestock"----- until we are slaughtered for their profit and amusement. Why not? They got away with it in 1907, 1910, 1913, 1920, 1933, 1940, 1944, 1951, 1965, 1976, 1999, 2001.....they have been pulling their crap on us for over a century and over the course of that time, they have lost all respect for us.

Are you all getting the sense that I am angry? That I am outraged by the evidence I've seen of what these banks have done and what these "government" regulators and politicians have allowed them to do? Do you get the feeling that at this moment Granna Anna Meek and Mild would happily tear out every hair on all their heads?

You'd be right. And I wouldn't stop with their heads, either.

And, finally, do you all understand and clearly grasp the fact that I don't ask you to help fund things unless there is a REAL, REAL, REAL need do so?

That shoe you've been waiting for has finally dropped. And it doesn't have a thing to do with Iraqi Dinar.

We must all do what we can--- work, research, educate, donate, and then do it all again. And again. And again.

You may not know it, but you and your family are in desperate need of an honest law firm and an honest bank-----and those are two commodities have to be built from the ground up, piece by piece, man by man, woman by woman.

If we don't do it and you don't help us, there isn't anybody else. It's me and you, Frankie. If we don't do it, and you don't help us, you're all going to suffer through something that makes the Great Depression look like child's play.
