

## **Please Note:**

From Anna Von Reitz

**PaperUpNow.com** is a for-hire service.

We are in the process of setting up a pro bono service for those who don't have access to computers or for whatever reason need extra help understanding the paperwork needed to reclaim their birthright political status.

Please bear in mind that this new service that will be coming online soon does require you to pay for the actual filing fees that the County Recorder's Office charges, so it is not totally "free", either.

Also bear in mind that those who are providing this new Soon-To-Be-Announced help service are doing so out of the goodness of their hearts as volunteers and if you can afford a donation toward their time, paper, and ink it will be appreciated.
