

Presentment

By Anna Von Reitz

This communication refers the High Courts and the Officers of the World Court and the Officers of the World Bank to these presentments and informations with full disclosure that these are matters under my control as Fiduciary for The United States of America [Unincorporated] and our citizenry, including [redacted] who has declared his permanent house, home, and domicile with us. There has been no contract to use the assets of the Avila (properly, the D'Avila) Trust Code FLAT since 2005, with the result that all the governments operating under the Bretton Woods Agreement have been operating in arrears and making unauthorized credit claims upon the assets of this Trust and other assets that are under control of the Fiduciary of The United States of America [Unincorporated].

It should be noted that the assets of The United States of America [Unincorporated] were transported offshore to the Philippines and Indonesia beginning in the 1870's purportedly for safekeeping by a Scottish Commercial Corporation operating deceptively in our name as the United States of America --- Incorporated. The same corporation purchased the land mass of the Philippine Islands in our names using our money, making the Philippine Islands' land and soil a permanent possession of The United States of America and places the Philippines under our Territorial Administration until such time as the population there votes to become a State of the Union or peacefully petitions to negotiate release from this obligation.

We are not adverse to such a settlement; we are simply noting that no such negotiation with us has occurred, and that the actions of the Territorial Congress in 1934 providing for an "independent Government for the Philippines" were undertaken merely so that the Government so created could undertake the responsibility of a Trustee acting for us in the administration of our gold deposits in the Philippines, and also we note that subsequent actions undertaken by the U.S. Military/Territorial Government acting in its own jurisdiction after the Second World War to free the Philippines and return national sovereignty to the people of the Philippines in no way alters the land possession, depository, and trust obligations.

I am operating under complete global immunity in the discharge of this Public Duty and make this Presentment in the interests of peace and prosperity for all

mankind, for the avowed and explicit purpose of ending the criminality that has brought this planet to the brink of destruction, and to usher in the decreed, intended, and required result commanded by the Donors: abundance and peace for all people without regard for tampered DNA, the restoration of this planet's biosphere, and the respectful care for life in all its diverse forms.

With prejudice, we are assuming control of the world economy, which criminal misadministration has brought to the brink of calamity. We are setting aside all foreign intervention and jurisprudence and operating the civilian government exclusively under the American Public Law and International Law for the purposes of this emergency action. All signers of the Bretton Woods Agreement, the World Bank, the Federal Reserve, the International Bank of Reconstruction and Development, the International Monetary Fund, and the Bank of International Settlement are placed on Emergency Notice regarding their obligations and remaining rights and Emergency Notice of our pre-eminent deposit domain and all derivative assets and accounts: 111, 222, 333, 444, 555, 666, 777, 888, 999.

Together with this Presentment and Recoupment action we are requesting immediate emergency action by Interpol and combined peacekeeping forces including the United States Marshals Service to arrest and secure Klaus Schwab and the members of the World Economic Forum (WEF), and to provide the arrest and detainment of all Officers and Board Members of the following corporations: Wellcome Trust, Pilgrim's Society, Astrazeneca, Moderna, Pfizer, Johnson and Johnson, Evergreen, National Institutes of Health (NIH), Centers for Disease Control (CDC), the American Medical Association (AMA), Monsanto, Bayer, Dow Chemical, Microsoft, ABC, Alphabet, SERCO, CHINA, the Louis Pasteur Institute, Harvard University, and the World Health Organization (WHO). We have probable cause to believe that these --and other Parties to be determined-- have carried out an illegal mercenary action involving the deployment of a genome-altering bioweapon and control system aimed at the genocide, degradation, and enslavement of all Mankind.

The United States Military in all branches and all U.S. and UNITED STATES Military subcontractors are also hereby placed on Notice and Standby together with the members of the U.S. Congress and all incorporated Police Forces and National Guard Units.

Please see the attached evidence and contractual obligations provided by the actual Filipino Trustees.

Notice to Principals is Notice to Agents, Notice to Agents is Notice to Principals.

So said, so signed, so sealed on this 11th day of October in the year of 2021 by: Anna Maria Riezinger, Fiduciary: The United States of America [Unincorporated].
