

Proof that Our Federal Government Was Usurped By Foreign Corporations

By Anna Von Reitz

With many thanks to my Soul Brother John-Henry Hill who compiled a short and to-the-point documentation and proof of exactly WHAT has been functioning "as" our government since 1868. I have seen these documents and others like them pertaining to all sorts of variations of the names United States of America and United States, but these are the Big Muggly-Wugglies that prove beyond any reasonable person's doubt that yes, indeed, what I have been telling you for years is true and part of the public record you can look up for yourselves.

The main entity that the rats (Scottish rats) set up in 1868 is recorded here at John-Henry Hill's brilliant website, together with all the links you need to go see for yourselves. If you ever need to "prove" that a commercial corporation was substituted for your national-level State of State Government in 1868, look no further:

<https://johnhenryhill.wordpress.com/2014/02/20/the-united-states-of-america-corporation-listings-laugh-or-weep/>

For those on the email list I am attaching your very own copy, so you can print it off and cherish it for posterity. Given our vermin's proclivity for burning books and obscuring records, make a few copies and flash drives for posterity.

Thanks to the friends who inspired me to address this topic. Given what is coming out next, it is indeed fortuitous to put all questions about the incorporated nature of the Beast to rest.
