There it is, with the Great Obummer admitting it all in public.

The fraud scheme years in the making.

The intent to turn everything over to an "almighty sovereign".

The idea that people must surrender their rights to this "almighty sovereign". Oh, and also putting us all down as being too "small-minded" to embrace their self-serving scheme.

Well, it's not too hard, Mr. Obama. You and the rest of the employees have tried to go into business for yourselves and commandeer our assets under color of law and false representations. Just like you have all prospered yourselves by impersonating us and practicing barratry against us in your own foreign courts.

If he's talking about Satan as an "almighty sovereign" Satan has already been cast down by the results at Golgotha.

If he's talking about the Roman Pontiff, the Pontiff doesn't even have any official office anymore.

If he's talking about the Pope, the Pope can't be the almighty because he claims to serve the almighty sovereign.

If he's talking about the Queen of England, he's really missed the boat --- by about a thousand years, because there hasn't really been a British Monarch since 1087 A.D.

If he's talking about the Caliphate, that's more than one "almighty sovereign" and a misnomer.

Maybe he's talking about himself?

God knows Obummer is egotistical enough.

But what is absolutely clear is that Obummer is addressing a whole room of people who are in on something, some kind of premeditated overthrow against our country, something that has been planned for years, and that he and they are responsible for this treason against our country and against our better interests.

I say that the treason has been committed by members of the Bar Association --- Obama being one of them --- and that the "almighty sovereign" being named is, presumptively, the Lord Mayor of the Inner City of London and his entire entourage of Merry Men.

I further say that anyone who has ever sworn to uphold the Constitution against all enemies both foreign and domestic is taking an epic "Fail" for failure to recognize this (with respect to the U.S. Citizens) domestic threat.

So, in your faces, folks. This is the dirty little pervert speaking the truth for once and the people he is working for and with are all attorneys.

Big Green Army Guys, this is your chance --- maybe your last chance --- to figure it out.
