

Resend ****Urgent**** Required Mandatory Permanent Protective Injunction

By Anna Von Reitz

The banks acting as intermediaries have been borrowing our assets to pursue their business and now propose to foreclose on our assets and attempt to still pretend that we are absent and that they are our Agents.

These presumptions have been soundly rebutted.

It now comes to our attention that the estate of Jacob Rothschild and Company, the United States, Incorporated, and various incorporated franchises have attempted to roll over all court judgments, close out the legacy trust accounts, and otherwise help themselves to the wealth of the world "in our names".

We absolutely and categorically object to any such action by any bank or corporation or incorporated entity anywhere in the world.

All High Courts in receipt of this communication are required by Public and Private International and Global Law to issue Mandatory Permanent Protective Injunctions in favor of the actual Priority Creditors, which includes The United States of America, Great Britain, Australia, Canada, New Zealand, and all other National Members of the United Nations Organization.

This is especially required of the International Court of Justice and the International Criminal Court.
