

## Public and Judicial Notice – Number 5

All federal agencies are hired foreign subcontractors. For example: the Bureau of Land Management is a sub-corporation of the UNITED STATES, INC., a private foreign-owned off-shore corporation since its last incorporation in 1925, copyrighted, trademarked, and registered in Puerto Rico. Under the Reorganization Act of Washington, District of Columbia, and according to its private business charter, the Bureau of Land Management (BLM) has no authority, jurisdiction, or interstate nexus within the 50 state geographical landmass. The Bureau of Land Management is classified as an “Agent of Foreign Principle” under the Intergovernmental Personnel Act and is a franchise of the British Crown Corporation.

The BLM is a hired caretaker of public lands belonging to the states of the Union.

All federal and federal state of state franchises are foreign commercial entities under contract. They are not our government and they have no special rights. They have a job to do which does not include disposing of the property entrusted to them nor the bringing of improper claims against the landlords who are their actual employers. The IRS, BATF, FEMA, FBI, CIA, NSA, and all other federal and federated State of State agencies are in similar status and are hereby given lawful notice of the limits of their authority on our soil.

James Clinton Belcher, Head of State

United States of America
