

International Public Notice: Dear Mr. Putin, Yet Again

By Anna Von Reitz

As you know, our country, The United States, has never been a member of NATO. We have, instead, been misrepresented by our Federal Subcontractors who have engaged in NATO and many other such alliances "in our names" and have formed sea-treaties that mock the real thing.

The core of our common problem resides in London, in the Inner City of London, in Rome and Vatican City, in Geneva, in the Dutch enclave, and regrettably, Washington, DC, which is, again, an international enclave that is set apart from our country as a whole and operating as a rogue independent city-state. Likewise, the specific enclave of the United Nations and Municipality of New York designated NYC, are perched on our land without any permission from us.

These corporations, both commercial and municipal, have been the source of over 300 years of criminality, war-mongering for profit, fraud, piracy, coercion, racketeering, and unlawful conversion.

In our case, all wars since and including The American Civil War, are directly linked to these corporations and their operators and chief supporters. We have been their victims along with the rest of the world.

Our people have been left dumbed down and ignorant of their own history, much less world history. They have been illegally and immorally conscripted under false pretenses and lied to copiously by these same lawless corporations and their CEOs.

Most American Service Members don't even realize that they have been hired as cheap mercenaries and misapplied as such. They go into battle firmly believing that it is to save their country from whatever False Flag has been used to inflame their emotions--- and whatever lies have been told to them.

We, the actual government, have never been incorporated. We remember our 1858 Alliance with Russia and have already informed the United Nations that we honor that agreement and we refuse to fund NATO's aggression and object to any other implementation of our credit in any form -- including guns and missiles -- used to attack Russia.

They are obligated to protect us, not to attack anyone else. So let us, and the entire rest of the world, put these criminal corporations in their place. Let's vote with our money and discipline the banks.

This message is going to the Bank for International Settlements, the IMF, and through their Agents, to the Federal Reserve, to the Bank of England, the Bank of America, and all the other so-called Tier One institutions.

Notice to Agents is Notice to Principals. Notice to Principals is Notice to Agents.

Approximately two-thirds of our population, very close to the 67% of those who are unable to maintain their morality in the face of authority, have been "vaccinated" and will not survive the decade.

Faced with this common horror overtaking the whole world, we beg you to consider any offensive attacks against Russia by Ukraine using NATO-provided weapons, to be the last desperate acts of these corrupt corporations and the criminals responsible for their behavior.

If you do find it necessary to unleash more destruction on the world, let it be aimed at the new headquarters of these corporations in China with the cooperation of the Chinese Government, and their old headquarters throughout Europe. Let HSBC be the first bank brought to its knees.

These venal institutions have used the common people as slaves for generations, made their fortunes on war-profiteering and drugs, and have a well-developed plan to overtake China just as they have sequentially invaded many other countries, taken over the apparatus of government in the name of providing "essential government services", and went on to parasitize the entire country.

We know, because we have been victims along with nearly everyone else. The Master becomes the Servant, but the Servants also become the Masters.

For the sake of your accords with China and with us, please take counsel as to what means we all have to handle crimes and criminals for what they are--- and not let the current situation boil over into war.

It seems to us that the banks are the key to putting a stop to this, as these banks are the ones handing out our credit to these corporations under False Pretenses, and then illegally taxing us on a private basis for "services" we never ordered and "security contracts" we never knowingly and willingly signed.

Without our money to spend and our resources to pillage, these corporations are de-fanged and left with no means to foment war. They are reduced to their only honest role, which is to defend this country.

Please join with us in the international effort to force these banks into compliance with international and global law prohibiting the sorts of fraud schemes these Players have engaged in against what would appear to be their own people, but are actually an illegally occupied civilian population.

Put the pressure on the banks, because without money and acquiescence none of this evil can happen; it's our credit they are spending and we have said, no, they have no contract and no authority to provide all these "services" such as NATO, and we object to their continued war-mongering against Russia.

So there is no acquiescence and no contract for them to do what they are doing. The banks are loaning our credit to these cretins under False Pretenses and illegally war-profiteering in the process.

It all comes back to the banks, Mr. Putin--- not the average people who are the victims of the banks and these "governmental services corporations".

This is already well-known to you and to the members of the BRICS Alliance, and you can understand why our country has recently announced its new gold-backed American Federation Dollar, and developed its own independent global Prosperity Alliance.

We recognize the precious nature of life on this planet and the sacred potential of each one of us. What we are doing isn't even called "banking" anymore. We're not bankers. We are Prosperitors, a new name for a new economic and financial system, with a completely different set of values.

Join us. Help us. Disposing of evil can be done in one of two ways --- you can fight it with guns, which always breeds more evil, or, you can fight it by supporting brotherly love, which puts an end to evil once and for all. The choice is ours.

We choose love.

Notice to Principals is Notice to Agents; Notice to Agents is Notice to Principals.
