

## International Public Notice: Put On Your Waders

By Anna Von Reitz

I had an old pair of "Muck boots" --- the same kind that are called "Wellingtons" in other parts of the world, tall rubber boots with strong steel-shank soles, made for walking through all manner of mud and crud.

When my Mother would hear some particularly egregious lie, she'd roll her eyes skyward and say, "Put on your waders."

Well, put on your waders, folks. It's getting deep.

In the 1980's a retired General named Roy Schwasinger led a successful drive to prevent corporate theft of ranch land throughout the Western States in a series of court cases called "the Farm Union Cases" that went all the way to the Supreme Court.

I know all about this, because my Mother was involved in this effort and we heard all about it over the dinner table, whether we wanted to or not. At about the same time, in support of this action, Willie Nelson and others started the "Farm Aid" Concerts.

The Supreme Court Justices agreed with the Plaintiffs in the Farm Union cases, but said their claims couldn't be paid, because the Defendants were bankrupt.

A lone junior Congressman from Wisconsin offered a settlement solution which he called NESARA, the National Economic Stabilization and Recovery Act. He was laughed out of the Beltway.

The thugs drummed up a bunch of crap about General Schwasinger and threw it all at him, like spaghetti thrown at a wall, hoping that something would stick. They dragged him through their "special" courts and, with a 96% conviction rate, they convicted him of fraud related to something that he didn't even have anything, personally, to do with.

That's typical of the way these criminals act and the way they do things.

Here's something else that is typical -- lately, people have been talking about NESARA, NESARA, NESARA....

But it's not "the" NESARA from the 1980's called the National Economic Stabilization and Recovery Act, it's a different NESARA entirely, called the National Economic Security and Recovery Act.

A substitution fraud. Where have we seen that before?

Substituting "the" United States of America for The United States of America, and The State of Vermont for the State of Vermont, and our Federal Republic for their Federal Republic, and now, their NESARA is being substituted for the original NESARA.

The entire history of the Farm Union Cases is being buried -- buried deep -- and all you see about General Schwasinger when you look up his name is biased reporting concerning his later conviction and appeal from that debacle. The Vermin went after Willie Nelson, too.

These corporations are killing more than individual people. They are killing America and killing decency and killing truth and everything worth living for. They have to be destroyed.

And in the meantime, put on your waders and don't take any wooden nickels. When they take the trouble to scrub an entire lengthy, famous series of court cases and bury all the popular press, you can be sure that:

1. The idiots still think they can get away with launching their Federal Republic and substituting it for ours;
2. They think that they can substitute their version of NESARA for ours;
3. They think that they can just go on playing their same old games and nobody is going to recognize what they are doing.

Make sure that you do.
