

One Page -- The Robert David Steele Challenge

By Anna Von Reitz

“It’s too confusing.... makes my head hurt.... needs to get it down to one page....”

Okay— start here and format the one page:

You’ve been lied to.

The American Federal Government hasn’t been whole and hasn’t functioned as intended since 1860.

The Federation of States doing business as The United States of America (Unincorporated) delegated certain enumerated “Powers” to three Subcontractors: (1) the States of America (American); (2) “the” United States of America (British); and (3) “the” United States (Papist Municipal Government).

The American Subcontractor ceased to function in 1860, and has never been “reconstructed”, largely because the States and People were never fully informed of the circumstance and the need to do so.

We are now assembling our properly constituted and re-populated States of the Union, dba, The United States of America (Unincorporated) to finish the job.

Go to: www.TheAmericanStatesAssembly.net for more information and assistance.
