

Recap of Our Maiden Voyage

By Anna Von Reitz

You all sent in some great questions for our "Maiden Voyage" broadcast of our first-ever Countrywide Call for The American States Assembly:

Among the important topics we discussed were: (1) the differences between States and States of States, (2) where the whole concept of soil and land jurisdictions came from (British Land Law), (3) how a Law Enforcement Officer is different from a Peacekeeping Officer (the Mack and Printz v. USA, Inc. decision and Pinkerton Laws), (4) the status of Federal Civilian and Military Employees, (5) the continuing obligation of Federal Employers and Social Security to pay pension dividends and provide services to vested participants regardless of changes in political status after retirement or other severance of employment. (6) We also discussed the importance of Baby Deeds and putting an end to the shameful practices that have allowed these predators to falsify our records in the first place.

Unfortunately, as we are still working out the bugs, the recording of this event was lost and won't be available for replay. No doubt we will revisit these large and important topics again and we look forward to more new questions this week for next Monday's Countrywide Call.

Please send your questions to: theamericanstatesassembly@protonmail.com.

Please visit the new website at: theamericanstatesassembly.net
